OFFICIAL PAPER OF APACHE COUNTY

NOVEMBER 1, 1917.

Down in Tennessee in each of the 98 counties, all the newspapers are getting out a National Defense edition.

St. Louis has opened a normal school for lessons in food conservation with twenty-eight branches one in each of the city wards. Even these schools proved not sufficient and lately fifty-three more were opened, each giving six day intensive courses.

In Michigan the Food Conservation idea has a practical phase in the opening of town markets, where women from the rural sections bring in fruits, vegetables and other produce including canned fruits, for sale to each other and to the women of the city. "Sign the Pledge and Can the Kaiser."

This was one of the most striking legends carried in the Liberty Day parade at Douglas and that has large importance in the food conservation idea. A very large part of the food which will be sent abroad will be tinned and let us trust after the way that the small boy has with the yellow dog, that the food containers thereafter may be attached to the Kaiser in the home-run that our sturdy lads expect to make to Berlin.

In the National Council of Defense, the naturalization section has evolved a new slogan: "Every foreigner in the United States should speak English." Every branch of the government is contri-

buting toward this, in one way or another especially the officers having to deal with the foreign-language press which hereafter will have to run a good part of its editorial matter in straight United States.

In the annual report of president D. P. Heard of the Council of Defense, occurs the following paragraph, something deemed most pertinent for the personal study of the people of the State:

"We have now come to a time when we must look the facts squarely in the face and realize that with Russia ineffective and the continued success of the submarine, the task of winning this war for democracy is being steadily shifted onto the shoulders of this nation. Our men and munitions are not only needed, but vast and steadily increasing quantities of food and money, and the faster we furnish these supplies, the better will we safeguard the lives of our boys who are offering their all to the country.

No Reason For It.

There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of urinary disorders, the pains and dangers of kidney ail; will fail to heed the word of a resident of this locality who has found relief. The following is convincing proof of merit.

Rev. Paul Figueroa, 454 S. Stone Ave., Tucson Ariz., says: "About eight years ago my kidneys were bothering me and it seemed as though the pains in my back would never stop. My kidneys did not act regularly. I usually felt languid and tired and I suffered with frequent headaches. I used four boxes of Doan's Kidney Pills and they completely and permanently cured me."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that cured Rev. Figueroa Foster Milburn Co., Prop., Buffalo, N. Y.

FOR SALE—Two horse colts, 3 years old, will weigh 1500 or more when grown. For more particulars call or write the St. Johns Herald.

---Let us show you how

It Conquers Hills

The fact that Studebaker are the lightest cars on the market in ratio to their power, tells the story.

There's no hill so steep that they cannot climb it easily, swiftly and without undue shifting of gears. A Studebaker was the first automobile to ascend Pike's Peak.

Let us show you how a Studebaker conquers hills—let us give you a Studebaker demonstration today.

A Studebaker demonstration has shown many a man where real motoring comfort actually lies.
