Farmers' Income Averages \$465. Burlington, Vt.—The average net income of the American farmer will be less than \$465 this year, Gray Silver of Washington, D. C., representing the American Farm Bureau Federation, said in an address at the annual meeting of the Vermont Farm Bureau Federation here. He declared that the national organization, with 1,500,000 members, 2,000 county organizations and many thousands of community centers representing more than \$80,000,000,000 invested, was now in the "throes of distress."

Gen. Wood Remains in Philippines. Washington.—Maj. Gen. Leonard Wood, governor general of the Philippine islands, has decided to remain at his present post and not to accept the offer made by the University of Pennsylvania to be the provost of that institution, according to information received here by administration officials. War Department officials declined to make formal announcement of General Wood's decision.

Rich Chinese Lands at San Francisco. San Francisco, Calif.—William Yinson Lee, who said he was a Chinese by birth, but British by nationality, and reputed by letters of identification to be a millionaire trader of Sydney, Australia, held on Angel Island here for many hours, was allowed to land on his own recognizance pending word from Washington as to his status under the immigration laws. Mr. Lee, who says he is in the United States to place orders for machinery valued at \$100,000, carried a passport and a letter from the lord mayor of Sydney.

Girl Dies Saving Baby Sister. Allenton, Ind.—Lella Weber, 7 years old, died a heroine at the home of her parents near here. Her baby sister in her arms, while Lella dutifully rocked her, awakened and knocked over a kerosene lamp on a stand near the chair. The blaze set fire to the house, and with her own clothes afire Lella carried her baby sister to safety. When the parents returned from stores they found the unconscious form of Lella in the yard and the baby unhurt close by.

Ten Years for Stealing Thirteen Cents. Chicago.—Stealing thirteen cents proved unlucky for William Horn and James Mathews, who must stay in the penitentiary for ten years. Both are hold-up robbers. They were convicted of holding up Ruth Korbitz, 16 years old, threatening her with death if she made an outcry, and stealing thirteen cents, all the money she had. The pair had committed other robberies the same night, but the Korbitz hold-up was the only one that could be traced unmistakably to them.

EIGHT KILLED IN TEXAS WRECK

TRAIN SIDESWIPE Locomotive AS ENGINEER FAILS TO SEE HEADLIGHT.

PASSENGERS TRAPPED

AID IS RUSHED TO SCENE OF DISASTER, HUMBLE, FROM HOUSTON.

Houston, Texas.—Eight persons were killed and approximately twenty others were injured, some seriously, when passenger train No. 28 of the Houston, East & West Texas railway sideswiped a switch engine in front of the depot at Humble, Texas.

A headlight on the switch engine struck by the passenger train was not observed, Engineer Holland of the passenger train said. The light from his engine failed to reveal the switch engine, he said, until it was too late to stop.

The dead and many of the injured were badly scalded. Passenger Conductor Campsey of Houston was among the first identified as dead. The cylinder heads of both locomotives crashed, loosening steam pipes which plunged into the passenger cars, scattering steam upon the passengers and pinning them in their seats.

The identified white dead include: Conductor Campsey, Houston. The name of the newsboy, who was instantly killed, is not known. Two negroes and one negro were identified.

The injured white persons include: Edgar Randall, Humble; W. Wilson, Houston; A. B. Pickard, Houston; W. A. Babers, Lufkin, and William Campsey, Houston.

A total of eight injured negroes were identified shortly after their escape from the wreckage. The injured and dead were removed to a Houston hospital.

As the cylinder heads ripped loose a two-inch steam pipe on the freight engine, which ran from the cylinder to the steam chest, tore loose and crashed into the window of the smoking car—the first cough of the passenger train—literally cooking its occupants with live steam and scalding water.

Conductor Campsey, for nineteen years a familiar figure to travelers on the road, was killed instantly. The train news dealer died at his post, his body being found underneath a pile of candy, newspapers and magazines.

U. S. Protests Bandit Attacks. Washington.—Representations have been made to the Chinese government by Minister Schurman at Peking in connection with serious shooting and wounding by Chinese soldiers, of Charles Colman, an American merchant, at Kalgan. Minister Schurman told the foreign office at Peking that the attack on the American consul was in violation of international law and an affront to the United States government, and demand was made for the arrest and trial of the offenders.

Bandits Obtain \$96,000. Kansas City, Mo.—In a spectacular holdup in the main lobby of the Live Stock Exchange building here, three masked bandits obtained \$96,000 and shot Thomas F. A. Henry, credit manager of the Denver National bank. Henry is expected to recover. Henry was in charge of a detail of five men sent by the bank to get the money at a postoffice substation in the Exchange building.

U. S. Must Build More Cruisers. Washington.—Blunt notice that the United States cannot avoid a new naval program in swift cruisers and fleet submarines unless treaty limitations are extended to such craft, was served by the House appropriations committee in reporting the \$263,806,538 naval appropriation bill. A six line provision placed in the bill by the committee requested President Harding to negotiate with Great Britain, France, Japan and Italy for such an extension of the treaty, limitation of aircraft to be included.

The committee report said large cruiser and submarine programs were planned abroad, adding: "In other words, competition is on again in the single direction to which the unratified agreement (the Washington naval treaty), does not extend, and if it be allowed to go on unchecked, the purse strings again must be relaxed and this government, like all others, will be constrained to launch a new program to the extent necessary to keep us at least abreast of any of the other powers."

Russians Bolt Lausanne Parley. Lausanne.—The Russian experts walked ceremoniously out of the meeting which was discussing the Bosphorus and the Bosphorus as a protest against the alleged exclusion of the Russians from important periods of the straits negotiations. Later the Russian delegation officially notified the three presidents of the conference of Russia's unalterable determination to abandon none of her rights in the negotiations over the straits which directly affect her vital interests.

Accessories Are Important; Juvenile Knitted Apparel

THE art of good dressing is largely a matter of accessories. A costume is made or marred by the little details, the girdle, the collar, the headress and the like.

To be right up to the Paris mode one ought to have a bit of bandana printed silk somewhere about one's neck, and it is this very gay bandana which enhances the girle of our illustration. Another favorite costume of Lady Fashion is to fasten everything at the waistline with some sort of a fancy clasp, such as pictured. Quite the most charming accessory for the evening gown or afternoon

They are round, or oblong, or diamond shaped plaques, say six inches across, covered with flat we hand-made roses, and crinklings of metal ribbon interspersed with jewels and fancy nail heads in extreme cases of elaboration. Some are ruffled around with narrow valenciennes lace and always streamers of narrow ribbon fall in great number down to the bottom of the dress.

CHRISTMAS GOODIES

There is no candy which quite takes the place of the good old home-made varieties.

Peanut Candy.—Shell and roll on the bread board with the rolling pin, one pound of fresh crisp peanuts. When like coarse crumbs they are ready to use. Put two pounds of brown sugar with six ounces of butter (twelve level tablespoonfuls) into a saucepan and stir until well-mixed. From the time the first bubble of boiling sugar is seen mark

the time and let boil for eight minutes, then stir in the peanuts and pat out into a greased pan, marking off in squares very soon, as it hardens almost immediately. This is one of the nicest nut candies and one which is very easy to make if directions are carefully followed.

Maple Pralines.—Pound one cake of maple sugar to a powder and melt with one-half cupful of boiling water. Boil until it threads from a spoon, add one-half teaspoonful of vanilla. Beat one egg white until stiff, pour over the hot sirup, beating well; add nuts and the flavoring last; beat well; when stiff, drop on buttered sheets and allow to harden.

Maple Fudge.—Take two cupfuls of light brown sugar, one-half cupful of milk, one-third cupful of sirup and one tablespoonful of butter. Cook to the soft-ball stage, add maple for flavor and set away to cool. Beat until thick, pour out into a well-buttered pan and mark off in squares, or drop by teaspoonfuls on buttered sheet, adding nuts if desired.

Glaze Chestnuts.—Blanch two cupfuls of brown sugar with one cupful of hot water, add the chestnuts and let them cook slowly in the sirup for an hour; just before removing add vanilla, lemon peel or any desired flavor. Drain on a waxed paper.

Date Cakes.—Take one cupful of chopped dates. Cream one-third of a cupful of butter with one cupful of sugar, add two well-beaten eggs, one-half cupful of milk, one and three-fourths cupfuls of flour, two teaspoonfuls of baking powder, one-half teaspoonful of ginger, one-quarter teaspoonful each of nutmeg and cloves. Mix and stir in the floured dates and bake in small gem pans. Cover with boiled frosting—when cool—with a stoned date on top of each.

One of the curious superstitions of friendship is that we somehow choose our friends. To the connoisseur in friendship no idea could be more amazing and incredible. Our friends are chosen for us by some hidden law of sympathy, and not by our conscious wills.—Handolph S. Bourne.

YULETIDE CAKES

At this time of year the small cakes, cookies and fruit cake are prepared for the holidays. As most of the Christmas cakes are better for standing to ripen it is wise to begin early in their preparation.

Christmas Peppernuts.—Take two cupfuls of brown sugar, two eggs, one teaspoonful of nutmeg, two teaspoonfuls of cinnamon, one cupful of nuts, one tablespoonful of hot water, one teaspoonful of soda, three and one-half cupfuls of flour. Mix as usual, adding flour to make a mixture stiff enough to roll. Roll one-eighth of an inch in thickness, cut in small rounds the size of a quarter of a dollar. Bake in a quick oven and roll at once in powdered sugar.

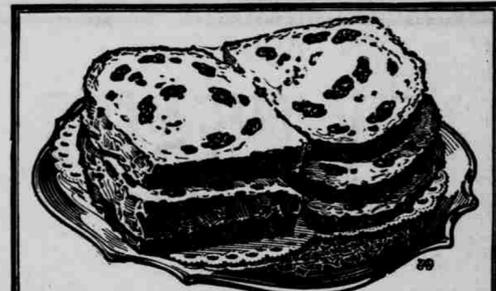

Springerle.—Beat four eggs with one pound of powdered sugar for forty-five minutes, then add a pinch of soda, a pinch of salt, anise seed or flavoring and pastry flour to make a stiff dough to roll. Roll out the dough, cut and press onto the springerle mold, then remove and lay on a board to dry. Bake in a moderate oven. Springerle molds come in various forms, one in the form of a rolling pin which presses the figures into the dough.

Fruitina Cookies.—Take one cupful of sugar, one-half cupful of shortening, one well-beaten egg, one cupful of sour milk, one teaspoonful of soda, one teaspoonful of lemon extract, one teaspoonful of salt and five cupfuls of pastry flour. The amount of flour may vary. Mix and roll very thin and put a spoonful of filling on one, cover with another and bake.

Bohemian Christmas Cakes.—Mix the yolks of two hard-cooked eggs with one-third of a cupful of butter until a smooth paste is formed, add one-half cupful of sugar, the yolk of an egg, one tablespoonful of milk, three tablespoonfuls of finely-chopped almonds. Mix well and add flour to roll, cut into small round cakes, brush with beaten egg white and sprinkle with the chopped almonds. Bake until brown in a moderate oven.

Concerning the Ear. The smallest ears are found among the Latin races. Intellect and morality cannot be judged by the size of the ear alone, however. There is an enormous difference between the large ear of savage races and that of a cultured white man. The convolutions and angles are different.

"Mummy" Was Drunk. A woman who was going to Egypt had to be inoculated against typhoid. She was unable to keep a dinner appointment which she had made for the next day, and sent her daughter, aged ten, to make her excuses. "And what did you say?" she asked the child on her return. "Exactly what you told me," was the reply. "I said mummy can't come because she was intoxicated yesterday and had a bad headache."—London Tit-Bits.
