YUMA, ARIZONA, THURSDAY, JUNE 12, 1913.

ARIZONA SENTINEL FOUNDED 1873

Build Roads; Give Yuma A Chance

MAY VOTE ON \$300,000 BOND ISSUE FOR ROADS

Eight petitions are being circulated asking for a bond issue of \$300,000. This is the limit under the present law.

The Board of Supervisors is being urged to employ a competent engineer to survey and make plans and specifications of the roads to be improved, and to call an election when the voters may vote on the bond issue.

The roads mentioned are: Yuma to the International boundary line, through the center of Yuma valley.

From Yuma to the Maricopa county line, by way of Dome.

From Yuma to Laguna Dam, and a bridge across the Gila river near the mouth.

From Yuma to Castle Dome, thence to some point on the Arizona & California railroad in the northern part of the county.

From the Maricopa county line in the northern part of Yuma county, to Parker on the Colorado river—making connection of all points of interest with the north and south Yuma roads.

LET THE GOOD WORK CONTINUE UNTIL OUR ROADS ARE ALL IN A CONDITION TO BE PROUD OF.

Nothing can be done toward commendable progress without good roads—you can often judge the people by the company they keep, and a community, from a business standpoint, is judged by the roads they have.

YUMA COUNTY VOTERS DESIRE INFORMATION

For the edification of the people it might be well for the county attorney to publish the correspondence he received from the attorney general, to which he recently referred, relative to the registration of voters at the polls.

One hundred and forty-two persons not on the Great Register voted at Yuma, Crane and Somerton at the recent recall election, May 31.

Yuma citizens were plainly advised by the county attorney that in order to vote they must register. If the attorney general has changed all this the people ought to know it in order that all parties in an election may make use of it.

Let's be on the square even in politics. The Examiner believes in the recall of public officials; but where such recall means so much to an official, nothing but an absolutely square deal and a fair count of the voters can be tolerated.

If registration is unnecessary in order to vote in Arizona, give the voters the dope on it.

TWO 8-YEAR-OLD GIRLS MADE FINE RECORD

Two little eight-year-old girls of Miss Tomlinson's room each made a fine record—Evelyn Wupperman and Ellen Kieling. They were both promoted to the fourth grade about six months ago and are now ready to enter the fifth grade.

Evelyn was neither absent nor tardy all year, and had not been either during the previous year.

A little boy named Dale Leftwick was not absent all year.

Clarence White and Zella Pender should also have honorable mention, having done excellent work.

TERMINAL MASTER MOVES TO DUNSMUIR

Mrs. R. N. Allgood, wife of the S. P. Terminal master in Yuma, left last night, accompanied by her mother, Mrs. Ward, for Dunsmuir, California, to reside in the future. Mr. Allgood has been transferred to that place, and has been transferred to that place.

PUBLIC LIBRARY IS THE NEXT IMPORTANT MOVE FOR YUMA

Councilman A. L. Verdugo stated to a reporter of The Examiner this morning, in discussing the efforts being made toward a library:

"I will write to Carnegie today for a contribution, and I feel confident we will get it."

All of this shows earnestness, which is the key to success, and, when its coupled with application, it is the unraveled of all the mystery and difficulties, however hard they may be.

We have a big tract of land, deeded to the city of Yuma by the U. S. government to be used for public buildings only, so why not proceed to build thereon? First a public library, then an armory, then—well we will let it to the enterprising citizens of Yuma to supply the list.

A public library, good roads, a public building put through by our strenuous representatives in Congress are no longer mere shadows, but will be realized in the near future.

COLONEL ROOSEVELT OUTLINES CONDITIONS OF PARTY FUSION

CHARLESTON, W. Va., June 10.—

Colonel Theodore Roosevelt, after a long silence, has announced to personal friends his willingness to withdraw his opposition to an amalgamation of the Republican and Progressive parties under certain conditions, according to a report given out tonight by leading Progressives of this state. A close friend of the colonel, one who has known him intimately for many years, after a conference with Roosevelt, brought back the Roosevelt terms, given out by the Progressives here as follows:

Colonel Roosevelt will withdraw the Bull Moose from the political menagerie upon:

First, the retirement of the present leadership of the Republican party from the control of the national committee of that party.

Second, the indorsement of the entire Progressive propaganda by the Republican party.

"I have no objection to an amalgamation of Progressives and Republicans," the colonel is reported as saying, "provided the politics of the Progressive party is carried out. We who are progressives, stand for certain principles, which are of vital interest of every man, woman and child, who is desirous of improving social and economic conditions in this country; we cannot surrender these principles."

"There can be no amalgamation as long as the Republican party is controlled by the sinister forces which wrecked the political organization last year. If the Progressives, should consent to such amalgamation, under the present leadership, and we were robbed again, then it would be our mistake."

Colonel Roosevelt, however, according to the information received here, does not believe in a reconciliation is practicable, because he is of the opinion that the "old guard" does not intend to surrender control of the Republican organization at the request of Governor Hadley, Senator Cummins, Senator Borah and others.

PICACHO WILL HEAR LATEST CANNED MUSIC

James H. Ragin, of Picacho, was in Yuma Tuesday and purchased a fine Columbia graphophone from the E. F. Sanguinetti furniture department. Mr. Ragin says he will enliven his neighborhood with the strains of music for a while.

If it's lumber, DeMund's is the place.

TENTH STREET TO RECEIVE COAT OF OIL

The oil wagon is in operation oiling Tenth street. The good work was begun this morning, and it will continue until the street is put in good shape.

WILL SOON COMPLETE WORK ON EXCHANGE

Messrs. E. A. Fray and M. S. Martin, of Los Angeles, electricians who have been here for six weeks fitting up the new telegraph and telephone exchange, will complete same on Friday and will leave on Saturday for Los Angeles.

PROGRESSIVES DO NOT NEED DAN HANNA

The Cleveland Leader, owned by Dan R. Hanna, son of the late Mark Hanna, wants the Progressives and Republicans to fuse. Shades of Mark Hanna! What is there remarkable about that? Dan R. Hanna was a Bull Moose like Hadley, Borah, La Follette and the rest of the bunch that favored nothing but staying with the Republican party at any cost.

The Republican party was a great uplifter for many years, but it died in 1912 and it is now too dead to resurrect and no one wants it brought back to life but the politicians.

The Republican party is dead, but the people still live and though the Progressive party will be heard in tones that will be listened to all over this nation:

"Dan R. Hanna, son of the famous 'Mark,' stay with the party of your 'dad'; the people can spare you; and when all of your kind have been sifted out of the Progressive ranks, it will be well."

FOREST FIRES RAGE IN PINAL MOUNTAINS

GLOBE, June 10.—Forest fires have been raging near the summit of the Pinal since noon Saturday. Phone messages from the top of the mountain are to the effect that the blaze is on the right side of the road to Pioneer and Troy, not far from the vicinity of Limburger Rock. Thick smoke was plainly visible at the summit from this city and continued during the afternoon.

It is generally believed that the fire was started by the negligence of some campers who cooked their dinner in that neighborhood and left the ashes standing.

MUST GET PERMIT BEFORE EXCAVATING

City council passed an ordinance last night requiring all to first obtain a permit from the city clerk before digging up a street or alley for any purpose, and imposing a penalty of \$50.00 or 50 days imprisonment, or both, for the violation of this ordinance.

120 TONS OF ALFALFA FROM SEVEN AND ONE-THIRD ACRES

The government Experiment Farm, in the valley, has just completed the harvesting of two crops of alfalfa from 7 1/4 acres and the yield was thirty tons of fine hay from the two crops. They can count on cutting six times more during the season and at this rate they would have 120 tons for the season from 7 1/4 acres.

Can you beat this kind of farming elsewhere?

BARD RANCHER GOES TO M'CLOUD, CAL.

Mrs. B. E. Miller the trained nurse who with her husband and sons until recently lived on their Bard ranch until the seepage from the river made present living there impracticable left last night for McCloud Calif. where her husband preceded her and where they will remain until September. The Millers have spent \$7,000 on their Bard home and when the Reclamation service makes living on the Bard low lands possible they expect to return to their home which will probably be in the coming fall. McCloud Calif. is near the Oregon line.

Ice cream that can't be beaten at Synders the old Pete Ried place. Give him a trial 75-80

GOOD ROADS NEEDED TO DEVELOP COUNTRY

No state, no county, section or even neighborhood can be developed without good roads. If all people would advocate and act as one man, and at the same time realize the great importance of good roads, we would soon have them, or at least a part of them made good.

When the work starts, the people seeing the difference in the good and the bad, the work will go on with a lightning-like speed, and in less than two years real estate would double in value; business would likewise be increased.

If men with capital come to see the country with a view to locating they may admit your climate, your flowers, your fruit and sunshine; but bad roads knocks him out entirely—nothing doing.

MYSTERIOUS FIRE DAMAGES BUILDING

PHOENIX, June 10.—Fire of the most mysterious origin discovered shortly before 2 o'clock Sunday morning in the men's furnishing establishment of Reed & Skipper at 30 west Adams street, resulted in the practical destruction of the entire interior of that store, the ruining of the entire stock and threatened to communicate to the Smart shop on the west and a real estate office and the Balke Curio store on the east.

But for the efficient work of the fire department which quickly had several lines of hose playing streams of water from the front and rear, the blaze would have communicated to the other establishments and resulted in much greater damage.

FREE BEEF
Hurrah! We are going to have free beef.

Who says so?
Wilson.

Why, you can get free beef right now.

Where?
In jail, or the workhouse, and there will be a rush for the latter institution when protection is destroyed.

Assessor A. B. Ming went to Phoenix last night on a business trip.

Mrs. Ed. Baker and seven children, of First avenue, left last night for Antelope, where the husband has had a cattle ranch for many years.

Miss Edna Haughtelin, of the graduating class of the Yuma Union High School, leaves tomorrow for Flagstaff where she will attend the State Normal School.

The man who left his pipe on a chair at the Yuma theatre on Sunday night can get same at The Examiner office.

The man who unthinkingly sat down on the above mentioned pipe is exceedingly anxious to become acquainted with the owner of same.

Mrs. Georgia Tomlinson will leave for Berkeley on June 18 to attend the summer session. She will return in the fall and resume her duties as a teacher in the Yuma schools.

C. E. Yarwood was given permission to put in a gasoline cleaning machine in the rear of his shop, with the understanding that he was to put the gasoline tank well underground.

Tuesday afternoon Miss C. Louise Boehringer qualified by taking the oath of office as school superintendent of Yuma county, to which office she was elected May 31, 1913.

SOMEBODY LIED
"The emptier a barrel, the more noise it makes."—Yuma Morning Sun.

G. Parra, of the noted Sandoval ranch in Mexico, arrived in Yuma this morning and will remain a few days on business.

Lyle Ferguson and his younger brother left today for Brawley, Cal. to assist in the gathering and shipping of canteloupes.

Mrs. Nell Standage left on Saturday night for Tempe where she will reside in the future. She formerly taught in the Grammar school, but declined to remain longer.

H. Berger, of Globe, is in Yuma, and he made a trip to the valley with Mr. McClure, the real estate man, and is favorably impressed with this section of the country.

N. J. Tempest, of Laguna, one of our most enterprising ranchmen, spent the day yesterday in Yuma. He was entertained at lunch by J. Gardner Barnes, on Orange avenue.

Mr. McClure the real estate man has shipped two cars of honey to Louisa Ky. Two years ago he shipped the same man two cases and he was so well pleased he wanted more. He said it was the finest he had ever used.

DOING HER BEST
(Mexican Herald)

Mexico, having passed beyond the stage where anything that may happen can either startle or surprise her, has settled down to doing an amount of business right in the midst of war's alarms that is surprising.

PROGRESSIVES VICTORY IN PORTLAND, OREGON

The Progressives of Portland, Oregon, have just won a smashing victory in the election of H. R. Albee to be the first mayor of that city under the new charter. Technically, it was a non-partisan election but the facts show an unmistakable victory for the Progressives.

MAY ATTEND PACIFIC HIGHWAY MEETING

L. W. Alexander, secretary of the Yuma Commercial Club, received an invitation to attend the International Pacific Highway Association's convention at Vancouver, B. C., on August 11, 12 and 13, 1913. The object of this association is to construct a fine trunk road from a point as far north as possible to the extreme southern points along the Pacific Coast.

Yuma and her people are being recognized and known of by all sections of the Globe.

TWO NEW ASSISTANTS AT INDIAN SCHOOL

Superintendent L. L. Odle, of the Fort Yuma Indian School, announced that he has secured the services of Miss Helen Young and Miss Lena Kenney as assistants at the Indian school. The above mentioned ladies arrived last evening on No. 2.

YUMA IS ENJOYING PLEASANT WEATHER

Yuma is enjoying the usual pleasant summer weather. It was some cold last night especially for those who sleep on high places outdoors. Yuma's January and June weather are as near the same of recent years that little difference can be noticed by people who live here. Most of Yuma's supposed hot weather is confined to the imagination of the knockers and people who have never been in Yuma and base their criticism on ancient writings about the Arizona desert 50 years ago when a soldier (the same one we have all heard about) went from Yuma to a very hot place and immediately sent back for his blankets. This was alleged to have occurred on July 4th 1855. Now lets get down to date, it is 58 years since then and on the fourth of July last year a coat was quite the order of the day, as most Yumites will remember and if the present cold spell continues overcoats will be essential for the coming fourth. Now old timers wake up and tell your friend the knocker back east the truth. It is time the truth about Yuma was told all over this broad land.

CAR COMPANY CAN'T COMPLY WITH ORDER

PHOENIX, June 9.—The Phoenix street car system is not financially prepared to carry out the orders of the Corporation Commission and double track the Washington street line from the corner of Seventh avenue to the statehouse, and besides, the city doesn't need it, says that company in answer filed to the complaint already on file with the commission asking that cause be shown why the company should not double track.

The company in reply to the complaint sets out the present system is altogether adequate to the demands of the city of Phoenix, that the business on West Washington street is not of sufficient volume to warrant such an action on the part of the company. Further, the company says it has not funds enough to do the work the commission requires.

Upon the receipt of the answer to the complaint the commission set June 12th as the date for the hearing upon the answer. At this time evidence will be taken both for and against the company.

THE WEATHER REPORT

At 5 p. m. yesterday the temperature registered 82 degrees, with a relative humidity of 22 per cent.
