Yuma Project cotton is turning out even better than expected, and that is saying a whole lot when we remember hat many of our cotton growers expect to get upwards of vo bales per acre.

If the supreme court upholds our rate-fixing ordinance, ecently passed by the city council, there will be no need of municipal ownership." Therefore all the more necessity for an early decision on that all-important measure.

Now that the kaiser has offered a reward of 400 marks, less than $\$ 100$ for the first American soldier, dead or alive, what's the matter with offering our Sammies a milIion dollars if they march into Berlin

By the way, Mr. Chairman Jones of the corporation comnission, owes me ten dollars on my bet that he dared not ver-ride Judge Baxter and hold a hearing in Phoenix. Our
wn Judge Lindeman vouched that I would pay my bet if I ost, but I could get no one to vouch for Mr. Chairman Jones -and he still owes the bet. I will gladly divide with anyone who can make the collection.

While over in Imperial Valley last week I noted several tton fields along the railroad between Niland and Calexoo that seemed to be suffering for the want of water. And et just across an imaginary line the crops seemed to be in irst slass shape, which leads one to believe that much of the sisaster over there could have been averted, if the farmers had cleaned the silt from their ditches.

The county fair promises to be the best ever. Our farm, garden and orchard products this year surpass anything ever before seen in the state, but perish the thought if you ave any idea Yuma county will ever take the first prize the state fair. Past experiences teaches that the powers-that-be at the state fair hardly know that Yuma is on the map. However, we will show 'em something here in Yuma.
