CITY AND COUNTY OFFICIAL PAPER.

LITTLE STEVE, of Graham county, is going to try and get into the legislature in place of Pomeroy, who has resigned.

BLAINE is in Washington looking up a house for the winter. He is not going to live there for fun, and this little incident is almost conclusive evidence that he will go into Harrison's cabinet.

The new ordinance which is published in this morning's issue of the PROSPECTOR, is in some regards a radical change from former license taxes imposed. There will no doubt be some objections to the new rules on the part of those who will feel the burden the most, but on the whole it is best to make the best of it and not worry about the inevitable.

The Tucson Star has this to say of Hon. George Christ: "There is good reason to believe that Pima county will furnish the next chief executive for Arizona, and the name of the citizen is Hon. Geo. Christ, a citizen of Nogales. There is no better qualified man in the Republican party in Arizona, or one who is likely to give greater satisfaction to all citizens, irrespective of party, than Mr. Christ. He is a man full of business energy and fully informed of the needs of the Territory and its every industry, and withal is thoroughly identified with Arizona and our people. It is true there are several good citizens candidates for gubernatorial honors and who have creditable support in the ranks of their party. While Mr. Christ is not only a strong, active and pronounced Republican, there is that in him which compels admiration from Democrats as well as Republicans and it is this happy disposition which make him popular among the people irrespective of party."

Quijotoa. A Mr. Anderson who has been interviewed by the Tucson Star, has the following information to give concerning the Quijotoa mines:

The mill is running ten stamps steadily night and day, and the other stamps, ten in number, will be started just as soon as necessary repairs, now in progress can be made. The mill was brought from Harshaw and much repairing was necessary before it could be operated. One hundred men are now at work in the mines and around the mill, not including wood choppers, teamsters and prospectors that will swell the number of men in and around to camp to two hundred. The whole district is full of prospectors and many new claims are being located. The business carried on at Quijotoa consists of two general stores, two boarding houses and two saloons, all doing a profitable business.

FRUIT TREES. Two, Three and Four Year Old Fruit Trees.

Fruit trees, two, three and four year old, Umbrella, Malberry, Peach, Pear, Apricot, Apple, Fig, Plum, Prunes, Nectarines, Almond, Japanese Persimmon, English Walnut, Pomegranate, fruiting; two-year old Grapes, Gooseberries, Raspberries; 1,000 Rose-bushes, 85 different varieties; Lilac, Carnation Pink, Mock Orange, Magnolia, Pomegranate flowering, Honey-suckles, Lily of the Valley, Cypressess, Clematis, Passion Vine, Double Camelia, and many other plants received from California, for sale by William Branch, corner of Second and Fulton streets, Tombstone, A. T. 13 6m

Wall paper—Blanks 25 cents, Satins 50 cents, per double roll, at Bagge's All new patterns.

MARITIME CANAL.

The Bill Passes the House With Amendments.

Sherman's Monroe Doctrine Bill Favorably Reported.

Blaine Planning to Move His Effects to Washington.

A Large Stockholder in the Standard Oil Company Commits Suicide.

SPECIAL DISPATCHES TO PROSPECTOR

A Morphine Victim. CLEVELAND, Jan. 4.—George Baker, one of the original stock holders of the Standard Oil Company, committed suicide to-day by taking morphine. Not long since he was a millionaire of the town. High living has been the cause of his ruin and suicide.

The Bill Passes. WASHINGTON, Jan. 4.—The House passed, with numerous amendments, the Senate bill to incorporate the Maritime Canal Company of Nicaragua by a vote of 157 yeas to 24 nays.

Resolved immediately called up the resolution abolishing the call of States for the introduction of bills for reference on "suspension Mondays."

Greater Than Reported. MEMPHIS, Jan. 4.—The United States Inspectors, in investigating the burning of the steamer Kate Adams, obtained in evidence that forty-two persons were lost instead of fourteen as they reported several days ago. It appears that eighteen children were among the deck passengers, and ten of the boat's crew perished in addition to the victims previously noted.

Blaine's Plans. WASHINGTON, Jan. 4.—Representative Wm. Walter Phelps said to an Associated Press reporter that Blaine is here for the purpose of securing a house for winter for his family and himself. Phelps when asked if Blaine was going to Indianapolis, replied, "He has no thought of going there."

The Navy Department has been informed that yellow fever appeared on the Yantic, and that she left Port-au-Prince for home. Admiral Luce stated that the Galena after calling at Jamaica would go back to Port-au-Prince, and that the Haytian Republic removed there, is awaiting the crew to be sent northward. It is expected the United States steamer Osage now at Norfolk will sail for Port-au-Prince in a few days.

House. WASHINGTON, Jan. 4.—O'Neill, of Pennsylvania, presented a memorial of the Philadelphia Board of Trade asking that an appropriation be made for the establishment of a house of refuge at Point Barrow and East Cape, Siberia, and for the repair of the steamers Bear and Thetis. Referred.

Dunn, of Arkansas, called up the Nicaragua canal bill, with amendments agreed to in Committee of the Whole, upon which the previous question was ordered before the holiday recess. The first amendment upon which the yeas and nays were demanded was that offered by Holman, of Indiana, providing that nothing in the act shall be construed as to commit the United States to any liability on account of the Nicaragua Com-

pany, and requiring this proviso to be printed on every bond, certificate of stock or other obligation issued by the company. The amendment was agreed to. An amendment offered by Wilson, of Minnesota, provided that no certificate of stock shall be paid for in money; that stocks shall not be assignable until the whole of the same shall be paid in, and that no bonds in excess of the amount of capital shall be issued until such paid up capital shall amount to \$5,000,000. Agreed to.

Senate Proceedings.

WASHINGTON, Jan. 4.—Sherman from the committee on foreign relations, reported a resolution which was agreed to, calling on the President for correspondence and information touching the recent occurrences on the Island of Hayti. Sherman also, from the same committee, reported back favorably Edmunds' joint resolution as to the Panama canal as follows:

Resolved, that the government of the United States will look with serious concern and disapproval on any connection of any European government with the construction or control of any ship canal across the Isthmus of Darien or across Central America, and must regard any such connection or control as injurious to the just rights and interests of the United States, and as a menace to their welfare.

Resolved, That the President be requested to communicate this expression of the views of Congress to the governments of the countries of Europe.

The resolution was placed on the calendar, and Sherman gave notice that he would to-morrow ask its consideration. He said he hoped it would receive the unanimous approval of the Senate.

Coal Heavers' Strike.

DULUTH, Jan. 4.—The strike of coal heavers is assuming serious proportions. A gang of Italians at work this morning guarded by the police, were attacked by thirty strikers. There was a sharp fight, the police using clubs freely. The strikers were finally driven off. It is reported that another fight is in progress at another dock.

STOLEN GOODS.

A Washington paper says that not a dollar of conscience money has been received at the Treasury for two years.

A Hartford paper says that the worst criminals in New England can trace their genealogy back to the Puritan Fathers without a break.

A French physician claims to give an antidote which will forever prevent people from catching cold, but the law is going to investigate him.

Judge Jameson, of Chicago, went through thirty-five divorce cases in an hour, of which six were tried. Chicago still holds the pennant for expedition in getting divorces.

The legislature of Ohio will be called to pass a law prohibiting any minister of the gospel from being present at an execution as the spiritual adviser of the condemned.

Seashore hotel waiters who have been interviewed by the Graphic claim that they have to divide their fees with the landlord, the steward, the head waiter and the cook.

The New York Sun says that any one desirous of speculating in real estate can purchase an acre of land in Wall street, New York, for the small sum of \$14,200,000, and it is cheap at that.

Mrs. Parsons says there is no use of her staying here now, because the people are too crazy to seek anything but the almighty dollar. If she wishes to live abroad no injunction will be issued against her doing so.

The postmaster of New York says that if the rates paid by the government for carrying the mails on the railroads of the country were reduced in the same proportion as the companies have reduced freight rates to private parties, a 1-cent rate for letters could be immediately inaugurated without increasing the present postage deficit.

From a party connected with the Santa Fe road it is learned that the El Paso smelter receives on an average twenty car loads of ore per day. A majority of it comes from Mexico, while Arizona is next in line. In addition to the cars of ore, the smelter also receives an average of ten cars of coal and four of coke daily.—El Paso Herald.

The Indianapolis Journal says that James Whitcomb Riley, the Hoosier poet, who got his start in the literary world by publishing of some of his own clever verses as an unpublished poem from the pen that wrote the "Raven," receives as much per line for all he writes as did Poe for a page.

Scrofula

Is one of the most fatal scourges which afflict mankind. It is often inherited, but may be the result of improper vaccination, mercurial poison, uncleanliness, and various other causes. Chronic Sores, Ulcers, Abscesses, Cancerous Humors, and, in some cases, Emaciation and Consumption, result from a scrofulous condition of the blood. This disease can be cured by the use of Ayer's Sarsaparilla.

Inherited scrofulous conditions of the blood, which caused a derangement of my whole system. After taking less than four bottles of Ayer's Sarsaparilla I am

Entirely Cured and, for the next year, have not found it necessary to use any medicine whatever. I am now in better health, and stronger than ever before.—O. A. Willard, 213 Tremont st., Boston, Mass.

I was troubled with Scrofulous Sores for five years, but, after using a few bottles of Ayer's Sarsaparilla, they were healed, and I have now good health.—Elizabeth Warnock, 64 Appleton street, Lowell, Mass.

Some months ago I was troubled with Scrofulous Sores on my leg. The pain was badly swollen and inflamed. I used Ayer's Sarsaparilla, and in a few days the sores were discharged, and the inflammation entirely cured. I am now in better health, and stronger than ever before.—Mrs. Ann O'Brien, 124 Stillwell st., New York.

Ayer's Sarsaparilla, Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1.00 per bottle, 24 bottles \$24.00.

The Verdict Unanimous.

W. P. Bull, Druggist, El Paso, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle I have given tells its own story. One man took six bottles, and was cured of Rheumatism in 14 years' stand. Another man took three bottles, and was cured of the most stubborn Rheumatism I have ever treated in my 25 years' experience. It is Electric Bitters." A. D. DUFF, Register.
