FROM HAQUA HALL.

The Latest News From the New District.

Zan Hart, who left Tombstone about a month ago for the new gold strike, writes to Frank Broad from Harrisburg and gives probably as late news as has been received. He had been several days in the country and gives a very fair account of how things look there. The owners of the bonanza claims are not working any deeper on their claims, but are panning out the decomposed quartz and iron with most satisfactory results. It is estimated that they have on hand at present in the neighborhood of \$50,000 worth of dust. The highest offer they have had for their claim is said to have been \$75,000. A party of California capitalists are expected there daily. Harrisburg is expected to be the coming city and a large number of men are awaiting the location of the new town before locating permanently. A number of rich strikes have been made throughout the belt, which covers an area of twenty miles square. The heat in summer is said to be hotter than at Yuma and water scarce, although it is plentiful at present, and wood is abundant in the vicinity.

Boulangerism. Boulanger is a dandy. A man du fait in fame; Although they try to down him He gets there taut le memo.

Boulanger is a baker. Who, if he gets a chance, Will do all in his power To cook the goose of France. —Washington Critic.

From the number of stovepipe hats in town one is led to believe that times have changed greatly in Arizona in the past three years. A few years ago a man's life was jeopardized by indulging in any such vanity. Now, however, it is not an infrequent occurrence to see several of these head ornaments on the street at one time. The question arises, does the cowboy who formerly looked upon a tile as a target for his pistol respect it more now or is the country losing its nip? Theatrical manager (to applicant for position)—Do you think you would make a good walking gentleman? Actor (suspiciously)—Um—er—how far West are you going?

A party coming in from Harshaw Canyon a few days ago killed a large rattlesnake on the mesa near Tucson. This would be a strange thing to the people in the frozen north, where a rattlesnake would be frozen too stiff to crawl if it left its winter quarters.—Citizen.

Mysterious Shooting.

Three shots went off in rapid succession last night about midnight, which disturbed the peaceful slumbers of those sleeping in the neighborhood of the Mining Exchange building. Bob Hatch was around an instant afterward but could not fathom the mystery. The shots were fired inside the building, but by whom or for what purpose has not yet been ascertained. As those nearest the shooting or living in the building did not hear the shots it is presumed that more is known about it by those who say they did not wake up.

War at Fairbank.

Sheriff Slaughter received notice this afternoon from his deputy at Fairbank that four men, Mexicans, had assaulted and beaten a countryman nearly to death with sixshooters and rocks about 9 o'clock this morning. Four warrants were sworn out against the men, whose names were unknown. The wounded man, Jose Mungie, is very low, his skull having been crushed in a horrible manner. The four men had been drinking for two or three days and wound up their spree by getting themselves in trouble, out of which they will not get until they have had a good long time to raminate on the evils of intemperance.
