FINANCIAL REPORT.

Dun's Report Shows an Unsettled Feeling.

Wheat Being Shipped to America From England.

Failures for the Week Compared With Last Week.

Silver Being Hoarded for a Rise in Price.

SPECIAL DISPATCHES TO PROSPECTOR.

Dun's Report.

New York, Aug. 25.—Dun's weekly report has the following to say upon the condition of the money market:

"The obvious and only sufficient relief is the liquidation of money speculation in stocks, in wheat, corn, oats, cotton, leather, hides, coffee and wool and especially silver bullion, which has locked up enormous sums. In the silver line about ten million have been locked up to wait for higher prices. In grain several times as much and other products many millions, while the condition of market securities was indicated by the fall, averaging \$2 per share on active stock in a single day, when money became tight. In addition the enormous imports intended to anticipate the tariff bill, have virtually locked up for an indefinite time many millions paid for goods and in duties on them.

Canada Crops.

TORONTO, Ont., Aug. 25.—The Ontario department of agriculture has issued a bulletin, in which it is estimated the yield of wheat exceeds that of last year by 57,000,000 bushels. The fall wheat through most of western Ontario is unusually fine, and spring wheat will probably be better than fair. Barley is light.

Robert Garrett.

BALTIMORE, Aug. 25.—Robert Garrett, who, it is said, is now thought sane, will reach here tomorrow after a long absence from the city. He will remain here but a short time, however, as he intends to go to Europe to attend some business in connection with the Baltimore and Ohio railroad.

Failures.

New York, August 25.—The business failures throughout the country during the past seven days numbered 192 as compared with 197 last week. For the corresponding week last year the figures were 206.

Cons to Newcastle.

WASHINGTON, August 25.—During the past week the treasury has paid out more than it has taken in. Wheat closes 4 cents higher than a week ago, but the advance was much greater before the break came. Not only have exports been arrested but 16,000 bushels of American wheat

were re-shipped from Liverpool and trades were in progress for more. Corn rose only 1/4 cents, and oats declined 2/4, but pork products were a shade stronger.

Washington News.

WASHINGTON, August 25.—The treasury department to-day will make another effort for the release of more money by the purchase of silver to a large amount provided the offerings are not greatly in excess of the market rates.

Phenix is now agitating the question of having telephones introduced with a fair prospect of success.

The Maricopa Indians glean barley from the fields left by the reapers, and take it to Phenix for sale. They sometimes spend a week in order to glean a dollar's worth of barley as the straw must be picked over one at a time.

Died.

A Santa Barbara Cal. man who was delayed at Casa Grande by a washout discourses thus on the imaginary terrors of that quiet little burg:

"This is one of the hardest towns I ever struck. I am writing this in a room where two faro tables, and four poker games are running. Just now I see \$1000 in sight, but I dare not reach out and take it for six shooters are far too close at hand. A moment ago my hair stood straight on my head. A long-haired fellow raked in the pot and one of the players claimed a foul and down went their hands into their hip pockets like a flash. About twenty minutes ago a fellow bet with another fellow that I weighed 300 lbs. They asked me to go out and be weighed. I stopped writing and went to the only scale in town to test my weight. I was only afraid of one thing—that the fellow would put enough lead into me to bring my weight up to 300 lbs. But the fellow paid the bet and said that I weighed just 163 pounds more than he did, but that he could lick any "gringo" that would take a "sure thing bet." So they went to fighting and I resumed my writing with a steady hand. I have been called a liar twice, though I have not spoken a word in the house, but I did not get mad, I only sat still and kept on sweating.

The price of the magazine is \$2 per year, but in order to place it within reach of every child in Cochise Co., the Prospector has made terms with the publishers whereby it can offer the WEEKLY PROSPECTOR and Santa Claus for one year for \$4, the regular price of the Prospector, or to those who prefer to take the DAILY PROSPECTOR, we will furnish the DAILY PROSPECTOR for six months and Santa Claus for one year for the regular price of the Prospector, \$6. TOO TRUE.

The Killing of Three Men by Indians Confirmed.

The news which reached Tombstone last Saturday of more Indian devilment being committed, was doubted, but all doubts have been set at rest by the arrival of Silver City and Lordsburg papers, giving particulars. From the Liberal we glean the following information.

The three men killed were named Hal Williams, Peter Rigg and Volney Reector. They were found in a nude condition, with all clothing, arms etc. taken from them and their heads mashed in.

Lieut. Clark with 50 scouts, went to the scene as did also Capt. Keyes. The latter trailed two Indians to the line where their trail was lost owing to the heavy rains. A cowboy named Riley says that some Indians left the reservation last Wednesday, stole some horses on the Gila and went toward Stein's Pass, where they killed a cow and made shoes for their horses from the hide.

They chased a man named Brockman into Separ last Wednesday. Captain Keyes discovered a fourth man's body horribly mutilated, he was a partner of Rigg named Carl Erhman. All the victims found had been shot twice.

Indian Census.

The census of the Indian population of Arizona has been taken and shows a total population of 38,000 souls divided among the different tribes as follows: Navajos, 18,000; Papagoes, Pimas and Maricopas, 9000; San Carlos Apaches 4500; Mojavis, 2200; Mejavas, 2200 and Yavi-Supais, 250.

The latter named tribe are a new lot just discovered in the Grand Canyon of the Colorado.

Maricopa station on the S. P. was treated to a downpour of rain last Friday, which is said to never have been equalled there. The country for miles around is said to be a sea of water.

Nevada Indians predict a mild short winter because the trout were later than usual in spawning and the sage hens were six weeks behind time in hatching their broods, and the air has been full of moisture all summer.—So much for Indian science.

THE CONTEST.

How Things Look at Phenix Before the Battle.

PHENIX, August 22.

ED. PROSPECTOR.—The outlook at this writing is that the convention next Tuesday will be a harmonious gathering unless a fire brand is thrown into the convention in the shape of a minority report on platform which shall endorse Gov. Wolfley. It has been the custom heretofore to endorse the administration by the convention of the same political faith. The governor is said to favor a vote on a proposition of this kind and his friends do not care to deny him that pleasure so a division may be looked for on that point, which, if not an endorsement, will do him no harm, as those who will vote against him are as a general rule disgruntled office seekers in the party. Of course Cameron will be here to make an anti-Wolfley fight. Cameron is for Cameron first, last and all the time. It is stated that no less than twelve democrats have been elected delegates to the convention from various parts of the Territory. I see by the papers that Geo. Meek who ran on the democratic ticket for probate judge in Pinal county four years ago and was defeated, is coming from your county. There are three strong democrats from the north, all of them of course, anti-Wolfley men, elected by mugwump votes. The outlook for delegates is that Herring or Cheyney will get it. The former will not take it unless offered unsolicited, and then it is a question whether or not he would make the fight. It would be up hill work to enter the field with 1800 mormon votes solid for the democratic nominee. A northern man may take the nomination if it is deemed best to make a north and south fight on an ante third term platform. Button holding is already being carried on and not a few early birds have been talked almost to death since arriving.

Monday's train from the south will bring the big bugs and then I will have something more pointed to write about. X. Y. Z.
