CITY AND COUNTY OFFICIAL PAPER

FREE COINAGE 16 TO 1

For President and Silver:  
**W. J. BRYAN**, of Nebraska.  
For Vice-President:  
**ARTHUR SEWALL**, Maine.

**UNDER WHICH FLAG?**

"We are unalterably opposed to the single gold standard. We demand the restoration of the free and unlimited coinage of gold and silver upon the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be a full legal tender, equally with gold, for all debts, public or private, and we will favor such legislation as will prevent the devaluation of any kind of legal tender money by private contract." — Democratic platform, Chicago.

People get divorced for all sorts of remarkable reasons, but there is a certain amount of novelty in a husband's suing for absolute divorce because his wife refused to mend his socks. This is the reason alleged by rich Gilbert Forham Archer of Westchester county N. Y., for desiring to part from his spouse who has become too much of a "new woman" for his views of proper domesticity.

The following is from Secretary Carlisle's speech of 1879, before he was hypnotized by Cleveland: "According to my view, the conspiracy which seems to have been formed here and in Europe to destroy by legislation and otherwise from three-sevenths to one-half of the metallic money of the world is the most gigantic crime of this or any other age. The consummation of such a scheme would ultimately entail more misery upon the human race than all the wars, pestilences and famines that ever occurred in the history of the world." And yet he, an American, born and reared on the soil that has produced so many patriots, was willing, for the gild of a cabinet position, to turn his back upon his race and become a party to this crime, and by so doing lost his opportunity of being president.

The Columbia Iron Caskets kept Constantly in stock.

Bodies Temporarily or Permanently Embalmed by the Latest Process.

**The National Matte Smelter.**

A practical and simple method of matting sulphide ores, such as nickel, copper, gold and silver ores. In localities where lead ores and fuels are scarce and almost unobtainable, our pyritic, water jacket Matte Smelter has been recognized with highly satisfactory results, and has been thoroughly tested on various pyritic, sulphide and arsenide ores, in capacity of a 20 ton per day. It is the most practical, cheapest and simplest method of gold and silver ore matting and concentrating that is known today.

It requires no extraordinary skill, no lead ores, no fluxing material, and no fuel of any kind for the smelter after it is started. The sulphur in the ore is its natural fuel only, and its cost has no comparison with any other process of concentrating.

We are prepared to furnish any size or capacity plant complete to substantial mining people, set it up and furnish our men to run it for them on easy payments. Price and specifications furnished with references and testimonials on application.

NATIONAL ORE & REDUCTION CO.
