BISBEE NEWS
Daily Happenings at the Great Copper Camp.

Budget of Interesting Items from our Regular Correspondent.
BISBEE, October 9, 1896.
COPPERING.
Mrs. E. B. Mason took a trip to Benson today to meet her mother, Mrs. Sykes who came out from California on a short visit.

The republican delegates returned from their convention at Tombstone today and are apparently well satisfied with their ticket. They think they have as good men for the various positions as are obtainable and expect the whole ticket to pull a strong vote.

The democrats met here at the office of Judge Perrin last night for the purpose of making their nominations for this precinct. Judge Perrin one of the present Justices of the Peace was re-nominated. He will have a running match in the person of "Dad" Edwards. Tom Vaughn and Dan Simons were nominated for constables.

We notice in the Daily Democrat this evening the announcement of a dance which is to come off tomorrow evening. In it they refer to a couple at our society leaders as "Thomas the Sage," and "Tommy the mascot." The "Sage" may be all right, but we desire to call their attention to the fact that the second gentleman is more commonly known in our upper circles as "Tommy the Scorcher," the young man who fell off of his bike. This little mark of respect was first tendered the young gentleman while on his trip to Tucson at which place he won the admiration of a great many of the young ladies by his excellent feats on the delusive "bike." We mention this that the young gentleman may receive his just desert in future. It is not right to call a person "Mascot" after he has acquired the dignified cognomen of "Scorcher."

It appears from the passing events that a number of our county calamity howlers have been rather disappointed. For a number of days previous to the republican convention they are busily engaged in plying their useless avocation, telling us what a conflict there was sure to be in the convention, how the party would be split up, and other dire disasters too numerous to mention. With these rumors before them the delegates from the various districts went to the convention fully expecting a stormy gathering and went with a fixed determination to stand up for what they considered just and right. What was their surprise to find the convention as harmonious as could be and entirely free from dissensions of any kind. On their return they immediately began a search for the "howlers" but these accommodating gentlemen had crawled into their holes quite early in the day and were not to be found.

A dispatch from the Lowell observatory at Flagstaff, Arizona, says the astronomers have discovered that the planets Mercury and Venus each turns once on its axis during one revolution around the sun, making each day a year in length. Venus has an atmosphere, but Mercury none.

Mrs. E. E. Davis, of San Miguel, Cal., says: "I am trying in a measure to repay the manufacturers of Chamberlain's Cough Remedy for the great good their remedy has done me. For years I was a constant sufferer from weak lungs and bronchial asthma. My rest at night was disturbed by a hacking cough so that I felt miserable the greater part of the time. Many remedies recommended by friends were tried, none of which proved suitable to my case. I did not experience any beneficial results until I began taking Chamberlain's Cough Remedy. After two bottles of the larger size had been used I am pleased to state my health is better than it has been for years. The soreness has left my lungs and chest and I can breathe easily. It has done me so much good that I want all who are suffering from lung troubles, as I was, to give it a trial." For sale by druggists.
