SATURDAY'S MEETING.

Candidate Doran and Colonel Zabriske Speak.

On Saturday, as previously announced, A. J. Doran, the Republican candidate for delegate to congress, and Col. Zabriske of Tucson, held their meeting at Scheffel's Hall. C. L. Cummings was the only Republican candidate on the county ticket who was in town and as a mark of courtesy and respect, was on the stage. The meeting was not largely attended, however the speakers were not deterred or embarrassed and had their say and were given respectful attention.

W. O. Staehle acted as chairman and introduced Mr. Doran as the first speaker. Those who expected to hear an outburst of oratory and wild gesticulations in defense of the guilded plank in the territorial and national platform, heard instead a very meek and unassuming discussion.

Mr. Doran stated he had no apologies to make for the position of his party. He was a bimetallist and the only difference between the parties was the manner in which to obtain the desired end. He spoke of sound money and 53 cent dollars and left no room for any doubt as to his position on the financial question endorsing everything in the Republican platform, which sent a chill throughout the hall. He said the silver issue was nothing compared to the question of Arizona which he elaborated and drifting onto the tariff he said every Arizona wool man was "broke" which aroused a kindred feeling among many of the audience who were following mining as a means of earning a livelihood. Of his opponents he said both were his friends and had nothing to say of either with which he pledged his earnest endeavor to secure statehood and do his best if elected and yielded the floor to Col. Zabriske.

Mr. Zabriske then opened his batteries, and, paying a compliment to Tombstone for old memories sake, told his audience that they could not judge the financial question fairly on account of their environments and prejudices, giving the cheerful information that if they were in New York their views would change with conditions, as if the only interests in these United States were centered in that goldbug hotbed. Mr. Zabriske is an eloquent and forcible speaker, and would be met in Tombstone by a crowded and enthusiastic house were he to speak on a different cause.

During his argument he made a reference to Mr. Bryan; hardly had the name been uttered before there was a tremendous applause; when the cheering had quieted down a little the speaker said "give him another round," which was immediately complied with with a vim, then he appealingly said: "Don't break the floor." This had the desired effect and the speaker proceeded to a finish without further interruption.

The weather is unusually chilly for the time of year, caused no doubt by the late heavy rain and hail storms. There has been no frost so far but we are likely to have frost any time.

Geo. W. Swain and C. L. Cummings left for the valley today, going as far as Pearce tonight where the Republican candidates will speak; from there they go to Willcox, San Simon, Benson and back to Tombstone, where they will address the voters on the evening of October 31st.

A very sad accident occurred in Sanford last Friday afternoon. The ten year old son of Mrs. R. M. White formerly Mrs. Dr. Grossbeck, was playing under a shed in the rear of the Grossbeck Hotel when it was struck by lightning and fell to the ground. The lad was caught in the falling timbers and his life crushed out.

John Riggen arrived last night from Globe. He says the camp is growing and both the Old Dominion and the Buffals are rapidly preparing to increase their output. Everyone in the city is cheerful and rapid growth in the future is expected by all.—Bulletin.

Monday afternoon the N. M. & A. freight train, while doubling the hill between Huachuca and Sonoita, returning to Huachuca after the second draft of the train, backing up with cabooses and locomotive struck a cow, derailing both cabooses and engine, and badly wrecking the cabooses. Conductor John A. Henry was slightly hurt.—Oasis.

HOME FOR PIONEERS.

The Governor Suggests Such for Superannuated Miners.

Extract from Governor Franklin's report. In his article on statehood he says: "Upon the admission of Arizona as a state the disabled and infirm miners should be especially provided for. They have paved the way for civilization, they endured all the privations, toils and dangers of a frontier life, and did more to bring Arizona into prominence than any other class of men. They were the pioneers, and I hope when Arizona is admitted as a state that a liberal appropriation of public lands will be made for the establishment of a hospital for those who are incapacitated from earning a livelihood. I urgently recommend that a grant of 100,000 acres of the public lands be made for this purpose."

FOR OVER FIFTY YEARS.

An old, well-tried remedy. Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

The Democratic full sheet 16 to 1 canvass posters are out and ready for taking up. They are attractive and the motto on the vignette at least will suit the majority of the voters.

W. W. Whitney made a trainload shipment of southern Cobble county cattle from San Simon last Sunday. They were assigned to the McDonald-Crowley Commission company, Dodge City, Kansas.

Our local nimmers say that small game is more plentiful this year than it has been for many years. One gunner bags from five to eight cotton tails every time he goes out besides a number of quail.

Wm. Garland, President of the Gila Valley Ry. was in town yesterday. He stated to the Bulletin that on Monday Oct. 26th, there will be a conference with the Indians at the San Carlos agency in regard to the passing of the G. V. G. & N. through the reservation.

Rev. Roberts preached an excellent sermon last night at the Methodist church from the text found in the 2nd verse of the 19th chapter of Acts. The congregation was not large but those there were very attentive listeners and no doubt learned something and hence were benefited by what they heard.

If a person cannot sleep it is because too much blood is in the brain; the remedy, therefore is obviously to call the blood from the head. This can be done by eating a biscuit, a boiled egg, or a piece of bread and butter, says a writer in Coleman's Rural World. Follow this up with a glass of milk, or even water, and you will fall asleep.

John Drake, who owns a ranch north of Prescott, says the Corners, says the patch of Russian thistle near Whipple is spreading; that it takes possession of better paths of years' standing and covers them so that man or beast cannot travel over them. He says there is no other growth of this thistle in Arizona and something should be done to destroy this patch before it spreads all over Arizona. He thinks it sprang from seed brought to Whipple in a shipment of grain.

The works of men, even the twentieth century men are slow, when compared with those of nature. The railway train which exceeds a mile a minute for a long distance is regarded as something wonderful, but the Virginia plover, according to a German naturalist, habitually flies 225 miles an hour without attracting special attention.

An Answer.

TOMBSTONE, Oct. 26 1896.

ED PROSPECTOR.—In your issue of Friday an editorial appeared which in my opinion may create a wrong impression in regard to the action of Supervisors Williams and Gilman in drawing pay. It might in that regard be well for the triped to withhold its decision for a while and give the bench a chance to settle the matter. More light will come that way. A claim for one or two days service was presented by a member to test the law as to whether a supervisor is, in this county entitled to draw any sum legally earned up to \$700 per year. The probate judge disapproved the claim holding that the member had already overdrawn the legal limit for the year under the classification set of the 18th legislative assembly and that too, in plain view of the fact that the act nowhere names supervisor pay. The matter is now before the district court. The recorded official acts of a board of supervisors constitute its minutes. Clerks of boards understand it to be their duty to make such record. The claim of a supervisor does not come before a board for official action until after it is audited and approved by the probate judge which is an official act pertaining to his office, and has no place or business on the minutes of the board of supervisors until the action of the probate judge is recognized and the bill allowed.

NOTICE.

"Actions speak louder than words"—ask your grocer if we really mean money-back if you don't like Schilling's Best tea.

NOTICE.

Scaled proposals will be received by the board of supervisors of Cochise county for the building of a branch jail at Bisbee according to the plans and specifications adopted by the board. Bidders can obtain all the further necessary information at the office of the board of supervisors at Tombstone, or from J. S. Williams, chairman of the board at Bisbee. All bids must be filed with the clerk of the board on or before 5 p.m. November 4, 1896. The board reserves the right to reject any or all bids.

A. WENTWORTH, Clerk. By W. A. HANLON, Deputy Clerk.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists. If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
