LOCAL NOTES.

Silver is quoted at 65 1/2.

Sid Williams and wife are over from Bisbee visiting Mrs. Boyle who is a sister of Mrs. Williams.

No. 8 Stoves, \$15 at BARROW'S.

Tom York, wife and child are paying the county seat a visit from their home in the Huachuacas.

Herman Toppman came in from Congress today and will spend the holidays with the old folks at home.

Cranberries, eastern apples and Buckwheat flour at WOLCOTT'S.

W. E. Haines of Wilcox is in town for a short time, and will continue his journey to Bisbee before returning home.

Architect Heinlein was awarded the contract for building the hospital at Prescott. The building will cost in the neighborhood of \$15,000.

New line of clocks at WOLCOTT'S.

The Paulist Mission has established a Sunday school in Kingman with a scholarship to start off with of twenty-five.

The Gila Valley, Globe & Northern Railway company advertises for bids on 400,000 pounds of corn delivered on the cars.

200 Boy's Knee pants. Cost only. AT BARROW'S.

The Williams News reports provisions scarce with the Supai Indians. Their crops are washed away by floods in Cataract canyon.

Miss Maggie Hill will spend the holidays with her parents in the old home. She was an incoming passenger from Bisbee today.

Awarded highest honors—World's Fair, DR.

PRICES' CREAM BAKING POWDER MOST PERFECT MADE.

A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant. 20 YEARS THE STANDARD.

BOOM TO PEARCE.

Another Wealthy Company Formed and Will Operate.

Negotiations have been pending for some time past by a syndicate of wealthy mining men for a transfer of the valuable Johnson-Fitts claims in Pearce district and has been culminated in the formation of the Gold Cliff Mining Company, capitalized for \$1,000,000. Backed with cash and unlimited means, this property is destined to become quite a factor in the mining world and certainly is one of great importance to Pearce and Cochise county.

The mine besides being located in one of the richest mining districts in the west is a most promising claim and has many times received favorable mention in these columns. That it was one of merit is attested by the fact that two experts who examined the claims reported favorably. Mr. Frederick Stock one of the company also personally visited the claims and being most favorably impressed the organization of the company was the result.

Work has already been ordered in earnest. For temporary use a winch has been placed in position, a road graded and a force of men on three shifts, put to work to sink the shaft to a 200 foot level when stations will be made drifts run and mining on a considerable scale is to be prosecuted. A company office and assay office are to be erected immediately and other improvements to follow all of which evince the right kind of spirit and progressiveness.

The Gold Cliff is most favorably located near the famous Pearce mine and from the surface the ore continues better with depth until at 80 feet a ledge of 11 feet of good milling ore has been exposed and it is widening. Assays every few feet from the surface show the results better as depth was attained, thus the wonderful possibilities of the claims are at once apparent.

Mr. Stock and his associates are to be congratulated on securing such a valuable property, and we predict ere long the great Pearce mine will have a worthy competitor in the Gold Cliff.

THE CATTLE MARKET.

Prices are Now Good and the Outlook Encouraging.

Cattle are jumping up in price at a rapid rate and cattle men are happy as a consequence. Yearlings are quoted in Kansas markets at from \$15 to \$18 a head. It has been a difficult matter for cattlemen to hold their head above water the past few years, but this rise will save those who hung on.

Cattle these days are better than gold. They are at good price and continue on the upward grade. Yesterday there was a big demand at \$13 for two, \$15 for three and \$17 for four. Twelve months ago the same grades were hunting buyers at \$9, \$11 and \$13, and two years ago the price was still much lower.

This interest in Cochise county's most substantial resources and one of the best sources of revenue to the county, and we heartily congratulate stockmen on their good fortune.

Frank Ramsey is in town from the Ryan brothers' ranch in the valley. He reports cattle in fine condition and the cattlemen in his vicinity correspondingly happy.

The two new engines, No. 155 and No. 168, ordered from the main line of the Santa Fe for use on the N. M. & A. have arrived and are now being used in hauling of freight and heavy orange shipments from Sonora.

The Maricopa & Phoenix railroad company will at once begin the erection of stock yards at Mesa City. This is something the stock men and farmers have needed badly for some time.

An Indian boy at Kingman was having a little fun with the cars, Wednesday and let his hand lay too long on the track and had it cut off. A train in motion is not a good thing to frolic with.

It is reported that the Cedar Valley Mining company is saving the gold in their ores to 95 per cent and the silver to 85 per cent. No other mill in Arizona can show up as well as this in the treatment of ores.—Kingman Miner.

RAILROAD TALK.

The Deming-Fairbank Route Again Considered.

It has been officially announced by the management of the Atchison, Topeka & Santa Fe railroad that the Atlantic & Pacific system will be severed from its control about the first of the year and allowed to be sold, under the mortgage held by those who are also heavily interested in the Southern Pacific.

This means only one thing. If the property is purchased by the Southern Pacific, the Santa Fe will undoubtedly build their extension west from this point to the coast via Fairbank to Guaymas, and recent utterances of those high in railroad circles indicate that this is what will be done. The Atlantic & Pacific has never been a paying proposition, and the extension from this place to Fairbank will afford a better outlet than the northern road.

Matters have been shaping to this end for the past year, and it looks as if Deming will soon have another railroad. Should the extension be constructed from here to Fairbank division headquarters and express shops will be established and Deming will be the most important railroad center in the entire southwest.—Deming Headlight.

The Tyranny of the Desk.

We will suppose that your occupation is sedentary—that you are chained, so to speak to the desk in some counting house or perhaps to the loom in some vast mill where you are compelled to labor from morning to night. Sunday is your only day of relaxation. You return home every evening wearied mentally and bodily. Your health and strength begin to fail. What will most effectually regenerate your vital energy? The weight of evidence points to no other conclusion than that Hostetter's Stomach Bitters is your safest, most reliable sheet anchor. Use it persistently, and your system will soon regain its pristine vigor. Every function will receive a healthful impulse. There is no remedy to equal the Bitters for nervousness and want of sleep, dyspepsia, constipation and biliousness. It averts and remedies all forms of neuralgia, rheumatism and neuritis.

Fall and winter overcoats. Cost only.

AT BARROW'S.

PROMISING PROSPECTS.

Capital is Thoroughly Investigating Cochise Mines.

Several large mining deals already and some about to be consummated just now augur much for Cochise's increased prosperity in the near future. For the past several months some of the most prominent mining men of the country have been making thorough investigations of the numerous mining propositions. These thorough investigations have demonstrated to capital seeking investments that Cochise offers more substantial inducements in mining propositions than does any other section of the country. Notably, the Gold Cliff mines in the rich Pearce district which, with work and development, will doubtless prove an astonisher, is one of the recent properties brought to the attention of mining men.

Other districts in our county show apparently limitless bodies of high and low grade ores and, with the advantages of wood and water in abundance, it is but natural that conservative mining men will turn their attention to the extreme southwestern county of the territory.

The Phoenix Gazette says: Jesus Villa the Spanish boy who did not know his pistol was loaded and shot a Chinaman in the forehead had his case postponed until Monday. In the meantime the careless boy is confined in the county jail.

An accident occurred at Cochise station yesterday two freights collided going at not more than six miles per hour. No employees were injured to any extent and the damage to railroad property was but little more than nominal. The Star says a tramp stealing a ride behind the engine was more or less injured. The company surgeon was soon on the ground and after necessary immediate attention the injured man was sent to the county hospital, but not considered by any means fatally hurt.

Holland Herring, Limberger Cheese, and Sauer Kraut, at HOFLER'S.

FEAST OF GUADALUPE.

A Great Day in Mexico was Last Saturday.

Last Saturday was celebrated as a religious holiday throughout the Mexican republic, and the Mexican population hereabouts. It was the feast of Guadalupe, the commemoration of the miraculous apparition of the virgin to the Indian Juan Diego in the year 1531.

The Mexican Herald says this tradition has been so often repeated of late in connection with the historical controversy as to the reality of the apparition that it is unnecessary to relate it here. It is sufficient to say that the immediate object of veneration in the Basilica of Guadalupe is a tilma of coarse cloth said to have belonged to Juan Diego, and on which the image of the virgin as she appeared to the Indian was found to have been miraculously depicted.

Neither this nor any other of the similar traditions prevalent in all Catholic countries is an article of faith or a dogma. But it may be said that in Mexico the devotion to the Virgin of Guadalupe is very deep and widespread. Solemn services are held in all the Catholic churches in Mexico, but in the Basilica of Guadalupe the religious ceremonies are particularly grand and impressive.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rivers Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Tombstone and any Drug Store. Regular size 50c. \$1.00

Seamstress Sewing Machines, equal to all, inferior to none. Reduced to \$20.

AT BARROW'S.

THE COAL FIELDS.

Will be Thrown Open in About Six Weeks.

Mr. John H. Horey, of Geronimo, arrived last week from the coal fields. It is expected there, he tells the News, that the district segregated will be thrown open in five or six weeks. There are about 200 men now on the ground, the chief scene of activity being the new coal fields lying just east of Hog Canyon.

The Discovery Saved his Life.

Mr. G. Caillouette, Druggist, Beaver ville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Got a free trial the Tombstone Drug Store.

Christmas Eve.

The public are respectfully invited to bring any and all presents for the children and have them placed on the Xmas tree at Mining Exchange Hall. There will be no programme this year but arrangements have been made so that the children may enjoy themselves with games, etc. Word has been received from Santa Claus, and he will be present in all his traditional glory. Children look out for the good old man.

T. W. Johnson made a formal demand on the county treasurer this afternoon for the back interest due on the coupons of the Yavapai County Railroad and Redemption Bonds amounting to between \$40,000 and \$50,000. The treasurer failed to comply with the demand, he filed a suit against the county, not only for the interest but for the principal as well, amounting in all to between \$250,000 and \$260,000.—Prescott Journal-Miner.

WANTED.

AGENTS—Big money, article to sell to every rancher. Address Mullen & Co. Los Angeles, Cal.

NOTICE.

TOMBSTONE, November 25, 1896.

Office of the Board of Supervisors of Cochise County.

Notice is hereby given that the Board of Supervisors will sell at private sale the following described real estate, situate in said county, the same having been duly sold and by tax deed conveyed to the Territory of Arizona by the Tax Collector of said county to recover the unpaid tax and charges against each tract or parcel of land, as the same appears of record in the office of the Tax Collector and Recorder of same, to-wit:

- Mrs. J. A. A'Lock, Tombstone—Lot 1, Block 45..... \$ 4 90
- Gabeiro Araya, Bisbee—Adobe house..... 6 60
- Joe Benson, Tombstone, Lots 1, 2 and 3, Block 62..... 15 40
- Manuel Billcosa, Bisbee—Frame house..... 4 01
