

Monday's Death

Johnny Dean is in Phenix. Judge Stilwell left to-day for Phenix. John Dart came up from Sonora today. Johnny Nobile returned from Bisbee to-day.

Ed Cook of Globe is paying Tombstone a visit.

The Yuma prisoners who escaped have been recaptured.

Phenix sells about 2000 boxes of strawberries per day.

Allen English was among the outgoing stage passengers.

Ben Whiston left on the stage today with Benson as his destination.

S. M. Barrow and family are domiciled at the Palace for the present.

Willcox has a Mexican circus in full blast. Tombstone will doubtless be the next victim.

C. D. Gage and family left for the east yesterday for a visit among friends and relatives.

Mr. McCormick, a pioneer of Benson, died at that place on May 6th, and was buried yesterday.

The Arizona Gazette Co. has filed articles of incorporation with \$50,000 worth of stock in shares of \$10 each.

E. B. Gage has been appointed by the governor as delegate to the Second National Mining Congress to be held at Helena, Mont.

Lost—Last Sunday, near the corner of Allen and 1st streets, a child's gold necklace. A liberal reward will be paid for its return to R. B. Clark.

A Mexican was arrested on Saturday for disorderly conduct, and having the choice of paying \$10 or remaining the guest of the city, graciously chose the latter.

A little child died at the Papago camping ground near the race track on Saturday, and was buried without any investigation regarding the cause of death.

Mrs. Castaneda and family left on Saturday, by private conveyance, for Benson, where they will remain several weeks visiting the head of the family.

W. E. Payne & Co., Employment agents, 910 Union Avenue, Kansas City, Mo., furnish reliable help, male or female, any nationality in any quantity, and send them to all parts of the Union free of charge. Correspondence solicited. 2Am

District court met this morning and after rendering judgment in the case of the delinquent tax list, adjourned until the sixteenth. Mr. Emanuel took Judge Sloan to Fairbank.

Rev. Haskins, who formerly had charge of St. Paul's in Tombstone, has changed the name of his paper, published in Los Angeles, from "The Churchman" to "The Coming Age."

Mrs. Rafferty is comfortably settled at her new stand, which was especially fitted up for her occupancy and is very attractive. It is the store owned by M. D. Scribner, and formerly occupied by Eucher Gres as a furniture store.

Mr. H. C. Herrick who lives on the San Pedro river, has gone into poultry raising in a scientific manner, having put up an adobe building to hold the incubator, which he has constructed in accordance with his original ideas on the subject. He deserves success.

James Kearney and family left today for San Francisco, from which place they will go to Massachusetts to visit the "old folks at home." Mr. Kearney is an old resident of Tombstone, having been employed with the T. M. & M. Co. for a number of years, and his departure will be regretted by many friends.

Albert Blair, the lad who met such a frightful death this morning, was very well known in Tombstone, having been for some time in the employ of his brother-in-law, Mr. Barrow. He was the youngest of a family of seven children, of whom all but himself and sister, Miss Lydia Blair, were married. His aged parents reside at Pima, Graham county, Arizona.

At Wolcott's, NEW POTATOES!

A FATAL FIRE.

Two Victims Taken from the Flames While Others Barely Escape with Life.

The Residence of Samuel M. Barrow Destroyed—Origin of the Fire a Mystery.

The saddest chapter in Tombstone's history of fire was finished this morning when the firemen who had hastened in answer to an alarm from Engine House No. 1, rushed into the building in season only to rescue two lifeless bodies.

At about 5 o'clock this morning flames were seen issuing from the residence of Samuel M. Barrow on Toughnut street, and pistol shots were fired and the alarm quickly sounded. Meanwhile the unconscious family were fast asleep, little dreaming of the horrible fate so soon to overtake them. The first to awaken was Miss Lydia Blair, a sister of Mrs. Barrow, who sprang out of bed and opened the door of her room, only to be met by a dense volume of smoke. She hastily gave the alarm, and seizing a child in her arms, rushed out of the burning building. Half dazed with smoke and flames, which now seemed to envelop the whole house, Mr. Barrow succeeded in getting his wife, who had been ill for some time, and one child to a place of safety, when he realized that his little boy Sam and Albert Blair, his wife's brother, were yet inside the burning building, and rushed frantically back to their rescue.

Before he reached the house, however, Mr. B. Hattich had dashed fearlessly into the flames, and, barely escaping with his own life, brought out the lifeless body of little Sam, who had evidently perished from suffocation. Attention was also turned to the rescue of Albert Blair, whose sleeping apartment was in the eastern wing of the house. An entrance was speedily effected through the wall of the house, and Frank Ryan was the first to rush in, but shrank for a moment from the ghastly sight that met his eyes. Kneeling by the side of his bed, with clenched hands on which the flesh was burned to a crisp, and almost past all human semblance, was found the lifeless body of the young man, who, doubtless, barely realized his peril before being rendered insensible by suffocation.

The body was taken to the undertaking rooms of C. B. Tarbell, and all hopes of rescue having now vanished, attention was turned to the living. Dr. Hamilton was brought to their aid, at the residence of Mrs. Lowry, where everything possible was done for their comfort and solace. Efforts made to bring little Sam back to life were unavailing. He had, doubtless, perished from suffocation before being rescued from the flames.

Arrangements have been made for the double funeral, which will take place to-morrow at 9 o'clock from the undertaking parlors of C. B. Tarbell, on Allen street.

The origin of the fire is a complete mystery, no theory seeming at all plausible. The cook who sleeps away from the house had not yet arrived for his day's work, and no lamps were left burning when the family retired. The fire companies responded promptly to the call and soon had three streams turned on. Everything possible was done to save the property but the flames had made such headway before the water was turned on that only a charred frame remains standing to tell the sad tale. Everything was utterly destroyed, and the home so lately a source of pride is a pitiful sight, with the trees scorched and blackened and the flowers and shrubbery drenched and trampled under foot.

There is an insurance of \$800 on the place, which will cover but a small fraction of the loss as the house was elegantly furnished, and not even an article of clothing was saved.

Chief Ryan never loses his head at a fire.

Jo Lippert was in the thickest of the fray.

Frank Broad came very near being suffocated.

Mr. Barrow tripped and fell, receiving an ugly gash in his forehead.

All the firemen turned out and worked with a will.

Mr. Vickers had a single handed tussle with the hose, and worked like a beaver.

Chief Ryan set his followers a noble example by his bravery in rushing into the burning building.

Mr. Tarbell came along with his ice wagon in season to give the Rescue Co. a lift with their hose cart.

The Loss of a Leg

Or arm by amputation would not cause so much suffering as many people endure with Rheumatism. One of the greatest discoveries of the century is a certain cure for this terrible disease, a speedy relief from horrible suffering, and a rapid cure. What a blessing! It is Dr. Drummond's Lightning Remedy, price \$5, large bottle, and if the druggist has not got it, the remedy will be sent to any address on receipt of price by Drummond Medicine Co., 48-50 Maiden Lane, New York. Agents wanted.

At Soldier Holes.

The mill at Soldier Holes will be in operation about the last of the month. The pump has been running for several days to test the water supply, and it is found to be more than had seemed possible. During seven days' steady pumping the well supplied at a rate of 60,000 gallons per day. It is Mr. Seavern's intention to increase the capacity of the well until it will provide a half million gallons per day, and, if possible, to enlarge it to a capacity of 1,000,000 gallons per diem. When it is remembered that this is the driest time of the year, the amount of water in the Sulphur Spring valley can be estimated as inexhaustible and sufficient to make the growing of all kinds of produce a profitable calling.

The Boundary Line.

A gentleman connected with the boundary survey between El Paso and San Diego informs the Prospector that by no possibility could any variation be made in the present location of the line. When asked about a recent rumor that the post marking the turning point or corner where the line turns south was a mile out of the way he said: "Yes, that is a fact, the distance in the description of the original survey is given as 100 miles and the present survey found the post or monument to be but 99 miles distant from El Paso. This would give the United States a mile of territory now belonging to Mexico, were it not for a clause in the original articles of agreement between the United States and Mexico that in case any discrepancy in the location of monuments shall ever be found to exist, that neither country shall claim any territory by reason of such defect in the original survey. In the instance noted the line was found to be one mile short of the number of miles called for by the original survey, but the monument was found and will be reconstructed on the same spot that it was placed originally. The same course will be pursued throughout the length of the entire line, and in case any discrepancy may be found whether it be one or twenty miles, it will not change the location of the present boundary between the two countries. The surveying is being done to find the location of the monuments and reconstruct them, and will not and can not change its location one foot either way."

Piles, Itching Piles.

Symptoms—Moisture intense itching and stinging, most at night, worse by scratching. If allowed to continue tumors form which often bleed and ulcerate becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration and in most cases removes the tumors. At druggists or by mail for 50 cents. Dr. Swayne & Son, Philadelphia.

HOTEL ARRIVALS.

- COCHISE. Mr. Sherman, Prescott. Mr. Crowley, City. Mrs. " " J Burnett " S Manning, Tucson. H Franklin, Phenix. H H Smith, Tucson. PALACE. L P Davison, U. S. A. San Carlos. Antonio P. Camou, Guaymas. Thos L Shultz, Phenix. F Conedo, Fronteras. Wm Heyn " Job Atkins, Globe. Dewitt C Turner, Pueblo. J F Higgins " SAN JOSE. John Sullivan, Comet mine. G E Grimmel, Tucson. L Bishop, St. Louis. M A Mendelson, San Francisco. M McGuirk, Bisbee. Chas Hicks, San Francisco. A Redeuill, Phenix.

From Tuesday's Daily.

R. W. Wood and S. C. Bagg returned last night from Guaymas and way ports.

Mrs. Vic Wilson and son arrived yesterday from Tucson, on a visit to Mrs. Wilson's mother.

The eastern mail did not come in to-day owing to the heavy washouts in Kansas and Missouri.

George Christ and George Meek went up on yesterday's train to attend the league convention at Phenix.

Fred Carnighan, a long time resident of this camp, is a brakeman on the Sonora road between Guaymas and Nogales.

A fine assortment of Ladies' hosiery and all-silk Undervests and fine hosiery at the NEW YORK STORE.

A suit was filed in the district court today by James Reilly against E. Blackmore for the recovery of \$650 on an old account and the money was garnished in the hands of others.

James Haskins, an old timer in Tombstone died last night and was buried this afternoon. He worked for T. A. Atchison as tinsmith for a number of years. He had been suffering of late with heart trouble.

A Redeuill, the well-known agent for all of the leading piano and organ houses in America, came in today and will remain one week. All persons in need of any work in the line of repairing or tuning, can drop a postal or leave word at the San Jose house.

The companies of the 11th Infantry boarded the cars yesterday at Huachuca Siding, bound for San Carlos. They will go overland from Willcox. It is expected that two companies of negro troops will return on the cars which took the two companies to Willcox.

Cameron Bros. are shipping 2,000 head of cattle from Huachuca Siding. They are bound for Montana. It was the intention to ship from Benson but upon reaching Huachuca Siding yesterday it was considered more advisable not to drive to Benson. The cattle are in very good condition.

The best spring medicine is a dose or two of St. Patrick's Pills. They not only physic but cleanse the whole system and purify the blood. For sale by H. J. PETO, Druggist.

The funeral of the unfortunate victims of the late fire, Sam Barrow, Jr. and Albert Blair, took place this morning from the undertaking parlors of C. B. Tarbell. The scene was a most affecting one. The floral offerings were profuse and appropriate to the surroundings. The bereaved parents have the sympathy of the entire community in their loss, which was shown by the almost universal attendance.

H. C. Drinkwater, accompanied by two prominent English capitalists, arrived to-day, and are domiciled at Mrs. Eccleston's. In answer to an inquiry regarding the object of the presence of the gentlemen at this time, Mr. Drinkwater answered that they came to look at Tombstone, but nothing further could be learned. They will be here for several days, and there is every reason to suppose that they will go away, as all others have done, with the idea that Tombstone is in her infancy; has a great future before her, and is the best place for the investment of capital of any mining field in America.

Consumption Cured. An old physician, retired from practice, having had pined in his bosom by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all Throat and Lung Affections, and a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow-men. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this receipt, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp naming this paper. W. A. Noyes, 820 Power's Block, Rochester, N. Y. 1, 18, 1 r w

COUNTY RECORDS.

BUTCHER'S REPORT. Number of cattle slaughtered during month of May—16 head.

APPOINTMENT. Of G. W. Swain as deputy district attorney.

SATISFACTION. Of mortgage from William Zuck to H. Gerweis.

NEWS BY WIRE.

THE BLAND BILL.

WASHINGTON—The silver question threatens to come up again as a subject of present legislative interest. The silver men are not disposed to accept their defeat, and there are again in circulation petitions urging the rules committee to bring out an order to fix a time for a vote on the free coinage bill. Representative Pierce of Tennessee, who has been the principal mover in the matter says that with the signatures obtained several weeks ago 99 names altogether have been secured. Exclusive of the members of the rules committee 113 constitutes a majority of the Democrats in the house, so that 14 names yet remain to be obtained. Mr. Pierce says he does not know what will be the result of his efforts, but he intends to keep at work until he becomes convinced that he cannot succeed. The anti-silver men are not giving themselves much concern over the matter.

THE FLOOD.

SOUTH BEND—St. Joseph river has reached a dangerous height and is doing much damage. Factories depending on water power are all idle most of them being three feet under water. The apron of the dam has been swept away and as it floated down the river it nearly wrecked the Water street bridge.

PEORIA—Rescuing parties have been out in the Lamar drainage district all night and have found six of the twenty families. They have been over the entire district and do not know whether the remaining families are safe or not. The destruction is complete and there is a scene of the veriest desolation.

The disastrous flood was due to the giving way of a great marsh dike 15 miles long and protecting a strip of bottom land about 2 miles wide. The first break was at a point opposite Pekin last night. The crevasse was about 600 feet wide and increasing rapidly. Twenty families living in these bottom lands possessed a considerable amount of live stock which with house and farm implements have been lost in the angry waters.

KEELEY'S LIQUOR CURE.

CHICAGO—Negotiations have been practically completed for establishing a Keeley institute in England and France for the cure of the liquor habit. Dr. Keeley sells English and French rights to use the cure in those countries to an English syndicate headed by J. J. Vickers. The terms of the sale are not known.

FUGITIVE WITNESSES.

CRAWFORD, Neb.—Tom Walker and Ben Jones, fugitive witnesses from Wyoming, have been arrested here on the charge of cutting the Elkhorn telegraph wires during the recent cattle trouble.

THE BEHRING SEA TREATY.

LONDON—Ratifications of the Behring Sea arbitration agreement and the modus vivendi convention were exchanged between Great Britain and the United States to-day.

A MINE ACCIDENT.

TELLURIDE—David Denge and Jas. Lucas, employed on the Sheridan mine, were blown to atoms this morning by attempting to pick out an unexploded shot of giant powder. Both men were from Cornwall, England.

NOT A CLEVELAND CROWD.

STOCKTON—The Democratic county convention was held to-day. The convention refused to instruct the delegates elected to the state convention for Cleveland.

THREE BIG FIGHTS.

NEW ORLEANS—The Olympic club has yielded to the request of the railroads and others and will fix the three big fights for three successive nights so that visitors will not have to remain here longer than is absolutely necessary. The first affair will be the Fitzsimmons and Pritchard on Monday, Sept. 5; McAuliffe and Myer, Tuesday, Sept. 6; Sullivan and Corbett, Wednesday, Sept. 7.

A GREAT FLOOD.

KANSAS CITY—As the result of the steady downpour of the last twenty-four hours, which was the climax of the rainy season this spring, accounts of floods are coming in from all over western Missouri and eastern Kansas. Some towns are flooded and damage is reported to dwellings. Considerable live stock has been drowned and washed away. Growing crops are badly damaged and thousands of fields will have to be replanted.

AT KANSAS CITY.

KANSAS CITY—The Missouri river registers 21 feet above low water mark, and is rising at the rate of an inch an hour. 23 feet is the danger line, at which the river overflows its banks. In the event of that occurring, the bottoms where are located packing houses, the Union depot and most of the wholesale business houses of the city will be flooded.

TRAFFIC SUSPENDED.

ST. LOUIS—A special to the Globe Democrat from Kansas City says: The railroads are more or less damaged and in some cases abandoned. The Wabash bridge here is strained out of line so that trains cannot pass over. Half the streams in Oklahoma territory are out of banks, many bridges washed away and nearly all the overland mails abandoned. The Santa Fe has suffered several washouts and trains are badly delayed.

AT NEW ORLEANS.

NEW ORLEANS—The river at this point has remained almost stationary for several days, reaching 16.6 feet as the maximum. The levees, while subjected to a great strain, are holding out well. Specials from river points show that the water is rising.

TWO GIRLS DROWNED.

HAMILTON, O.—Alice Larne and Katie Clark were drowned at Wooddale Island, last evening, by a boat in which they were rowing going over a dam. Two others in the boat were rescued with difficulty.

DREIF SNOW IN NEBRASKA.

RUSHVILLE—Snow has fallen here during the past thirty-six hours to a depth of 16 inches. It will be severe on cattle in the sand hills and will retard farm work.

BUFFALO KNATS KILLING HORSES.

LOUISVILLE—Reports from western Kentucky say Buffalo knats are causing great loss. It is estimated that 1,000 horses have been killed by them.

In the Nick of Time.

The nick of time to stop the bladder and kidney complaints is when the organs concerned exhibit a tendency to grow inactive. The healthful impulse toward activity that they receive from Hostetter's Stomach Bitters rescues them from impending danger, and averts such dangerous maladies as Bright's disease and diabetes. Sluggishness of the kidneys increases a liability to chronic rheumatism, gout and dropsy, and since the blood is filtered by these organs in its passage through them, the Bitters serve a doubly happy purpose. The medicine acts without exciting, like the fiery stimulants of commerce. Malarial, dyspeptic, constipated and nervous invalids are thoroughly relieved by it. Since the advent of that shocking malady, la grippe, it has been widely demonstrating its usefulness as a curative and preventive of it.

THE CHINGSE EMPIRE.

Is the culture and sale of the aromatic leaves from which is made "the cup that cheers but not inebriates," there are over one hundred millions of Chinese employed.

Should a man in China be unfortunate enough to save the life of another from drowning he is saddled with the expense of supporting the saved one for the remainder of that person's life.

There is an immense garden in China that embraces an area of 50,000 square miles. It is all meadow land and is filled with lakes, ponds and canals. Altogether it is as large as the states of New York and Pennsylvania combined.

The Chinese make what is called "Chi-wa-chi," or grass cloth, from the fiber of the common nettle. It is said to make a splendid cloth for tents, awnings, etc. When made into belting for machinery it is said to have twice the strength of leather.

SALESMEN WANTED.

Small line of samples from manufacturing corporation offered a live man. One traveller earned an average of \$350 per month for six years past. P. O. Box 3217 New York.
