One year.....\$4 00
Six months..... 2 50

THE woman suffrage bill will soon be past restoration if restoratives are not applied.

AN application for a franchise for a street railway, has been made to the Tucson city council.

At the rate Tombstone is growing, we will soon be in condition to aspire to having the capital located here.

THE board of control bill has passed both houses and gone to the governor. It will knock several office holders out of positions of honor and profit.

THE location of the Lowell observatory at Flag-staff did not bring the boom to that town that was anticipated. It takes more than a powerful lens to bring out an Arizona town.

UTAH, on the eve of placing her star in the firmament of the union, is holding a constitutional convention. It will be necessary for the delegates to build well and carefully.

A BILL has been introduced in the council for the relief of J. A. McRae, who struck a \$2000 dollar well near St. David, and was ejected out of his money by the Harrison act.

THE bill abolishing the office of superintendent of public instruction, and making the principle of the normal school ex-officio superintendent, passed the house yesterday.

Mrs. Wm. Vanderbilt has been divorced from William. It was \$300,000 per year and several marble palaces that induced the wife to split blankets with him.

THE suggestion in the governor's message that county assessors be appointed instead of elected has not met with that response from the legislature which it merits.

THE passage of the bill for establishing a coinage mint in Denver, to take the place of its present purchasing mint, and coin the gold where it is produced, recognizes Colorado's importance as a producer of the monetary metals.

THE Denver smelters and large producers of gold have been sending their gold east in bars the past month on account of receiving one-half per cent higher price than the government pays for coinage purposes there and a Philadelphia, making gold a commercial commodity.

SCOTT of Pima county has introduced a bill for the government of the territorial prison. It slashes the salaries and cuts down the number of guards about one-half. It reduces the salary of guards but about ten per cent which will bring the amount down to \$30 per month.

THE Prescott Journal Miner publishes a whole page of facts and figures to prove that the territorial prison at Yuma should be removed to the capital. It asserts in one place that over \$50,000 has been spent in California in two years for supplies. The facts are that not \$2500 has been spent in California in that time.

WHILE the legislature is parcelling out the different territorial institutions, to different parts of the territory, Tombstone should not be overlooked. We will take any thing from the reform school to the insane asylum. As these are the only two left to give, raffle them both at once.

G. W. F. Cook, who served a year in the penitentiary for a assault, was not pardoned to restore his citizenship as is customary now, but has lost his right to vote or be considered a citizen in any way hereafter. He is circulating a petition asking the governor to restore him to citizenship. It is being generally signed. It is punishment enough to be deprived of liberty for a crime without being sentenced to banishment from citizenship for life. A man who cares sufficiently for his citizenship rights to petition for their restoration ought to have them and Gov. Hughes will no doubt right the wrong done this man unintentionally by Gov. Wolfley.

PANK clearings in 1894 were the smallest for nine years.

A BILL has passed the house which provides that contracts for caring for indigent sick shall only be made with citizens of the United States.

ANNE GOULD has a good case of libel against some of the newspapers who have printed her likeness. In many instances they look like Hattie Green.

IN Tucson they have regular monthly meetings of school trustees, at which all grievances are settled, and differences adjusted by the trustee.

POOR old Fair! His friends in life have turned to enemies after death. They were friends only to his wealth, and enemies now in hopes of getting some of it. Truly, the way of the millionaire is hard—after death.

IT does not do for a child magistrate to be carried off his balance by the shouts of the multitude. Gov. Bodd went too far when he removed Gunst to please the public. It is not always a good plan to try and please too many people.

PHOENIX is ridiculing the idea of the north and south road going to Benson and her citizens assert that they can already hear the whistle of the locomotive. It is probably the whistle on the new Fremont St. hoist in Tombstone that they hear.

THE meeting which has been called for tomorrow night to consider the financial condition of our schools should be well attended by all those who have the welfare of our district at heart. Without schools, we cannot expect to prosper in way other than to retrograde. They must be kept open.

THE new silver party will amount to nothing, because it does not have "democrat" or "republican" attached to its name. Call it the democratic silver party, or the republican silver party, and it might grow into proportions large enough to carry two or three states. Voters are too deep in the political net to take up new ideas.

THE anti-lottery law does not allow a newspaper, printed in Arizona, to advertise and dispose of lottery tickets, but an outsider can come in with the San Francisco lottery scheme, as represented by the Examiner, and pick up many dollars that an Arizona newspaper could just as well swindle the people out of, if Uncle Sam would give us a square deal.

THERE is nothing more ridiculous than the passage of an usury bill in a new country. What we want is capital with no strings tied to it. The price of money will regulate itself as well as the price of rents of other kinds of property. It would be just as plausible to fix the price that a man should charge for coal oil as to fix the price a money lender should get for his stock in trade.

Capt. Fred Heyne is in from Rucker canyon. He is expecting his daughter from the east in a few days. The lady will proceed to Nogales, and make her home with her brother, Fred Heyne, jr., who is government assayer at that port.

ABOUT the 1st of January 1890 there were something over 1,200,000 head of neat cattle in New Mexico. During the five years there has been a falling off of over 700,000 head; the present number of assessed cattle in the territory being less than 460,000.

THE department of agriculture has issued supplementary regulations to the regular inspection rules promulgated a few days since. These supplementary rules provide for the inspection of all domestic animals except horses, coming from other countries to the United States. All such animals coming from Mexico are required to be held in quarantine fifteen days, at the ports of entry, which are Nogales, Arizona; El Paso, Eagle Pass and Laredo, Tex. Such animals coming from Canada and other parts of the world, will be held in quarantine 90 days.

Known Everywhere. Sold Everywhere. Grown Everywhere.

ADDRESS SAN FRANCISCO CAL.

From Tucson's Daily.

Silver is quoted at 60 1/2.

Tomatoes are ripe in Yuma.

George R. King has been reappointed a notary public by Governor Hughes.

Labor troubles have closed up the Morning Glory mine and mill on Turkey creek, Arizona.

Rev. Downs will preach at Wilcox on St. Patrick's day, and, incidentally, sell a bicycle or two.

Charles Wilds left today for Phoenix, where he will spend a week before going to California to resume his studies.

The Jerome Chronicle has made its appearance. It is substantial looking and comes out independent in politics.

General McCook and staff will be in Phoenix on Sunday next to assist in celebrating the railway opening.

J. H. Powers and wife left this morning for their home in the Swiss Alps, after spending a few days in our city.

The Arizona Copper company has been incorporated in Philadelphia, capital, \$50,000; to operate in Boulder county, Colorado, and Arizona.

It is asserted that the Mammoth and Collins mines are to be sold to an English company, who will operate them on a big scale.

San Diego is rustling for the extension of the Arizona north and south road to its city. They say they can raise \$500,000.

Rev. Downs and wife returned last evening from Wilcox, having remained over one day to attend the funeral of Mr. Pierce, of the Wilcox House.

The S. F. P. & P. has made an excursion rate of \$5 for round trip between Prescott and Phoenix. Tickets will be on sale from March 11 to 15.

Tombstone schools are not the only ones to elude this month for lack of funds. Phoenix public schools will also close this month a week earlier than Tombstone schools.

Justice Koska is developing into a macadamizer of earth as well as morals. He is constructing a sidewalk along the front of lawyers row which is as smooth as silk.

The Fremont street hoist has been christened "Gray's Elegg." The only way Mr. Gray can remove this title is to put a whistle on it that it may blow its own horn.

The cyanide tanks at Wickenburg are reducing Vulture tailings, two bars of gold of the value of 65 and 72 ounces each being recently received in Prescott.

The council has passed the bill of Mr. Doulap taking the power of appointing county school examiners from the probate judges and giving it to the territorial superintendent.

Articles of incorporation of the Congress gold mine are published in the Prescott Journal Miner. The incorporators are C. D. Arms, E. B. Gage and Frank Murphy. Capital stock \$1,000,000.

Ho for Phoenix!

The S. F. Co. will sell round trip tickets from Benson to Phoenix, and return, during the celebration, for \$9.10. The celebration begins on Tuesday next, March 12.

The S. F. P. & P. has secured the services of a professional decorator in Los Angeles, who is en route to Prescott to prepare several floats and otherwise arrange displays to be used in the Phoenix Mardi Gras.

Sheriff Fly came in this afternoon from the direction in which the train robbers are supposed to be. He has been out for over a fortnight, but if he has learned anything regarding them of interest he keeps it to himself. He looks sunburnt and brown but healthy and still full of vigor.

Curby in Jail.

There was a murmur of disapproval yesterday, among all good citizens, at the return of Jo Curby to Tombstone. Many citizens talked the matter over in a calm collected manner, and came to the conclusion that a meeting should be held, and that a committee should be appointed to give him 24 hours in which to leave town. In all probability some such action would have been taken today, as there was a determination to rid the community of his presence as speedily as possible. The audacity of the man in returning to the town where he had outraged every law of decency made the matter more serious in its aspect. But the law had not been exhausted in his case. There was another indictment against him for rape committed on his daughter on another occasion, upon which he had not been tried.

At six o'clock last night an order from Judge Bethune to issue a bench warrant for his arrest was received from Tucson, and Deputy Sheriff Caldwell made the arrest, on Allen street, and took his prisoner to the jail, where he was locked up. His bail was fixed by the court at \$1000, which amount he declared he would give this morning. He went to several citizens with the officer and asked them to go his bonds, and had no trouble in getting them to agree to do so. He said he expected to be arrested on the second indictment, and did not appear at all concerned over it.

An Immigration Board.

Col. W. F. White, general traffic manager for the Santa Fe system, says the Republican, was a visitor at the chambers of Governor Hughes yesterday afternoon. He manifested a great deal of interest in the prosperity of the territory, and especially commended the bill now before the legislature creating a territorial board of immigration. He said the information collected by such a board would be disseminated by railroads having interests in the territory, and would be mutually beneficial to the territory and the railroad companies. The information particularly desired, and most advantageous, could in his opinion be collected in no other manner, and he hoped that the bill establishing such a medium would become a law.

A Big Suit.

In accordance with instructions from Attorney General Olney, United States Attorney Ellinwood has instituted legal proceedings in the district court against David D. Ross and the Copper Queen Consolidated Mining company. Suit on the same grounds was commenced against these parties several years ago, but for some reason the case never came to trial. The action is brought to recover in the sum of \$183,070.50, it being alleged for cause of action that the defendants "cut and caused to be cut and removed from surveyed and unsurveyed non-mineral lands of the United States 3,905,400 feet of timber." The land on which the timber is alleged to have been cut lies in a canyon of the Chiricahua mountain.—Star.

Soldiers and officers of the late war are, by a recent decision of the treasury department, entitled to pay for the number of days between the date of certificate of mustering out officer and the day when they were actually paid off. Many soldiers and officers come within this new decision.

Frank Yapie has placed one of the new asbestos burners on one of his gas jets, and many persons supposed last night that he had introduced electric light into his store. It uses no more gas and gives as bright a light as ordinary burners. They are used all over the coast, and the manufacturers cannot supply the demand.

Joseph Curby made an attempt to get bait today, but failed to find any one to go on his bonds. He is confined in the county jail, and will stay there, from present appearances, until after the May term of court. His arrest last night saved the citizens the trouble of escorting him out of town, a plan which had been agreed upon early in the afternoon.

A RICH JOINT

The Mackeys and Vanderbilts to Join in Wedlock.

George Gould is Tired—The New Silver Party—Big Rush for Alaska—Mayor Sutro in Danger.

NEW YORK—It is reported that Consuela Vanderbilt is to marry John W. Mackay Jr. Mackay has paid devoted attention to her for the last few months. She sat in the seat of honor in his box at a theatre party recently given in her honor by young Mackay.

NEW YORK—George Gould spoke warmly yesterday regarding some of the statements in the newspapers regarding the marriage of his sister to Count de Casellane. He said that the various stories of the marriage settlements and others of the payment of debts are untrue, and that \$2,000,000 was not settled on the count, notwithstanding the reports to the contrary.

WASHINGTON—The new silver party will soon issue an address to the American people asking their support upon a platform for free and unlimited coinage of silver at the ratio of 16 to 1, and demanding that the money of the country should be issued by the government itself.

PORT TOWNSEND—The steamship Willapa has left on her initial trip for Alaska with a full cargo of freight and eighty passengers. Every steamer going north is loaded down with miners and adventurers rushing to the Yukon gold fields.

SAN FRANCISCO—Mayor Sutro is receiving numerous threatening letters from cranks whose advice about political affairs he refuses to follow, and from disappointed politicians who have not attained coveted offices. The threatening letters, which have all been turned over to the police, resemble the threatening epistles sent to Carter Harrison, who was killed by Fred Bergast while Mayor of Chicago.

BREITEN—After a heated debate in the Reichstag today, the resolution of Von Hammerstein against Jewish immigration was rejected by a vote of 167 to 51.

SALT LAKE—The constitutional convention resolved that for and in behalf of the people of the proposed state of Utah the constitution of the United States be hereby adopted.

CANES—William Vanderbilt is here on his steam yacht, Valiant, which has been lying at Nice for sometime. He lives on board the yacht and is frequently a visitor to Monte Carlo. Mile Neustrotte, whose name has been mentioned in connection with the divorce proceedings inhabits a villa at Monte Carlo.

WASHINGTON—The exodus of members and ex-members of congress from Washington, which began immediately after the adjournment, has been kept up. Ex-Speaker Crisp, who was among those who came to the capital, said he expected to remain in the city until Friday, when he would leave for home for a season of rest and recreation. A majority of senators will probably remain in Washington for a week or ten days, but several left immediately for their homes.

SAN FRANCISCO—The secretary of San Francisco & San Joaquin railroad has been instructed to advertise for bids for 10,000 tons of steel rails. It is estimated that about 33,000 tons will be required to build the line as contemplated.

BATTLE CREEK—There is a fair attendance of delegates at the congressional convention of free silverites which is in session here today. The convention will nominate a free silver candidate for representative of the Third Congressional district.

WEAK BULLS

Cause a Riot at Bull Fight in Which Many are Killed and Wounded.

Fred Douglass' Will—A Counterfeit Stiff—Yaqui Outbreak—Dana Indicted for Libel.

MEXICO CITY—Five persons were killed and twenty wounded in a riot and destruction of a building at Puebla because a spectator was dissatisfied with the class of bulls furnished for the fighting.

ROCHESTER—It is reported here that heirs of the late Frederick Douglass will contest the probate of the will of the deceased when it is offered at Washington. It is said the feelings of the children of the first wife have not always been the most friendly and that during the latter days of Douglass' life he deeded much of his property to Mrs. Douglass without the knowledge of the children.

FRESNO—R. V. Daggett, of Selma, a relative of John Daggett, of the San Francisco mint, has had H. K. Lemmon and G. H. Woods arrested for selling him a manufactured petrification of a human body. Lemmon was found by the officers in Arizona, and Woods was caught in Los Angeles. In June, 1892, according to Daggett's complaint, Lemmon and Wood persuaded him to buy a half interest in a petrification for \$2,250.

WASHINGTON—The grand jury of the supreme court for the District of Columbia has returned an indictment for criminal libel against Charles A. Dana, editor, and William Daffan, publisher of the New York Sun. It is a formidable document of many pages, setting forth the malicious motives of Messrs. Dana and Daffan in criminally libelling Frank B. Noyes, proprietor of the Washington Star, and one of the board of directors, and of the executive committee of the Associated Press.

UTAH—A courier brings news of another outbreak of the Yaqui Indians. A band of fifty have left their rendezvous and have attacked several ranches killing seven people, among them two women. A large quantity of grain has been burned.

WASHINGTON—The supreme court of the United States was engaged in listening to arguments in the case of the Last Chance Mining Co. against the Tyler Mining Co., which comes on a writ of certiorari from the Court of Appeals for the Ninth Circuit. Both mines are located in Idaho, and the suit involves, besides the question of locations, the effect of broken end lines and the more important point as to whether the owners of a mining claim have a right to follow ledges outside the surface lines of their property extended vertically.

It is a well known fact says a western paper, that location notices, written in lead pencil last longer than those written in ink. It was a noticeable fact that where corner stakes are marked on wood in lead pencil they last nearly as long as the post itself, and are discernible for ten years after their location. This fact was recently discovered at Basin where a location was made in 1880, and the corner posts marked. The post was almost decayed yet the pencil marks were plain enough to read the notice of its original owner and the date of locator.

SANTAL MIDY

In 48 hours discharges and cures gonorrhea and all its complications. Prepared by Santal Midy. Sold everywhere. Price 1/2 of a dollar. Write for the Free Catalogue to D. M. FERRY & CO., Detroit, Mich.
