A COUNTY PRISONER ADJUDGED INSANE

Became Violent and Alarmed Fellow Prisoners

COMMITTED TO ASYLUM

Yesterday Thomas Williams was adjudged insane and ordered committed to the asylum at Phenix. Williams was a prisoner in the county jail having been committed from Bisbee on charge of burglary and held to await the action of the grand jury. During the past week Williams had been acting strangely in jail; at times becoming very violent and again appearing morose. His condition became worse and alarmed his fellow prisoners and the jail officials. The antics of the prisoner showed mental derangement and examination had as to his sanity. He labored under the hallucination that he was poisoned and endeavored to flee from imaginary enemies, renting the air with a series of ear piercing whoops, meanwhile. When taken before the Probate Court it required the combined efforts of four men to handle him and considerable difficulty experienced this morning, also, in getting him ready for his trip to Phenix. Undersheriff Conlon escorted him to the place of his destination.

COAL INDICATIONS IN ARIZONA

Cochise County Ranges in the Favored District

AN EXPERT'S OPINION

Prof. Drake, in the American Geologist, has the following to say in regard to the coal indications in Arizona:

"In the Chiricahua mountains we find evidences of coal measures vegetation of that period in the shales and uplifted bed of graphite anthracite several feet thick. So, also, in the San Carlos reservation and northward, heavy strata of the carboniferous occur with seams of coal, but so far as yet determined, of limited thickness and value. These occurrences are, however, sufficient to show a far western extension of the carboniferous, and consequently the existence of dry swamp land at that time. The most western point in the latitude of Arizona at which coal measures have been found was in the Rocky Mountains near Santa Fe. Thickly bedded limestone of dark color and of carboniferous age occur in the mountains west of Tucson. The limestones in the Qujotos mountains at the Vekol lead silver mines contain an abundance of syzyphoid corals and are referred to the carboniferous. The dark colored limestones of the Mule mountains, near Tombstone, and also those at the American mine, in the Salsabemas, are similarly referred, and are doubtless a part of the extensive series of limestone and shaly beds of the northern portion of the Santa Ritas. A portion of the strata of the Whetstone range, the Dragoon, and the Gallurio mountains are of the carboniferous age."

Two new firms have had the temerity to go into the packing business in Chicago. The three-cornered combine there has cut prices of dressed beef about 25 per cent to the retail trade, to cripple the new firms. Beef packers "bee" over competition that came because they were hoggish.

William Riley, better known as "One Eyed Riley," a cowboy well-known throughout the territory, while roping a cow on a ranch near Phenix about two weeks ago, his horse fell throwing him on the ground so hard that his skull was crushed and he died a few days afterward from the effects. Although he has lived in the territory for years no one appears to know anything of his relatives.

E B Gage Will Make Tombstone His Home

RAPIDLY RECOVERING

The Phenix Republican of the 21st inst has the following which will be of interest to Tombstoners:

A special train came down from Prescott yesterday afternoon bearing Messrs F M Murphy, E B Gage, R N Fredericks, J C Herndon, A M Gage, H J McClung, of Pueblo, Colo, W A Drake and J H Emmert. Mr. McClung is a son in law of General Superintendent Drake of the S F & P. All of the party will return north this morning except Mr. Murphy who left last night for the south where he will meet General MacArthur and party at Fairbank on the Sonora road. He will accompany them on their road to Bisbee and into Mexico for the purpose of visiting the La Cacaes.

This is Mr. Gage's first visit to Phoenix since his illness which began several months ago. Though he is not yet well he is on the road to recovery and has greatly improved within the last few weeks. On his way north he will stop at Congress.

What will be of interest to the people of Tombstone where he lived the earliest in the territory during that period that is referred to as the painful days of Tombstone, is the information that he is going to make that his home again. He never lost faith in that great camp, so that, though he was absent from it for years he retained his old home there and will occupy it once more.

Another carload of Anheuser Beer came in last week consigned to A Wentworth of Tombstone and same is being hauled by Shoe and Snap.

General MacArthur and staff arrived in the city this morning from the south in his private car "Viento" en route to Cananea.

Among the Fairbankites who visited Naco yesterday were Chas Allen, Joseph Larrien, Chas, William and George McGee.

John Petite, who has been on the work train the past month will leave for Tucson tomorrow having been relieved of his run by William Graves of "washout fame."

Transportation Master Farringer of Fort Huachuca was a spectator at the Naco bull fight yesterday.

REGULAR STATEMENT OF S P EARNINGS

The System Shows Good Earning Capacity

AMOUNT FOR SIX MONTHS

The Southern Pacific company has issued a statement of receipts and expenditures for the first six months of the present fiscal year, or from July 1, 1901, to December 31, 1901, inclusive. For that period the total receipts were \$43,678,136, an increase of \$5,829,229 over the same period of the year before. The figures also represent an average monthly gross income of about \$7,270,000. Operating expenses and taxes were \$27,367,078, or an increase of \$2,877,499 over the corresponding months of the year before. The total net income amounted to \$16,311,058. After paying \$8,711,791 in fixed charges and \$5,236,877 for betterments and additions, there was left a surplus of \$3,406,808.

CAPTURE OF ALVORD AND BRAVO JUAN

Were Captured in the Interior of Sonora

MORE NEWS EXPECTED

Sheriff Dal Lewis is in some remote part of Sonora where Col Kosterliksi and his rurales are believed to have effected the capture of Burt Alvord and Bravo Juan the two noted fugitives who are wanted on charge of train robbery and jail breaking. The arrest of the outlaws was reported by the Mexican officials on Friday and as the Mexican authorities thoroughly know the two men wanted and have made repeated attempts to capture them, it is not believed any mistake has been made, and the companion fugitives are doubtless in custody. As the scene of the capture is in the interior of Sonora and many miles from telegraphic communication, full particulars are not had of the capture. No news has been received from Sheriff Lewis since leaving for the Mexican interior where he will endeavor to have the prisoners brought across the line without delay. Should extradition papers be necessary a delay of a few days will be occasioned to secure official sanction. More definite particulars are momentarily expected.

The wagon road between Tombstone and Fairbank has been widened in places to accommodate the big iron truck that is to convey the 55,000 lb boilers here from the railroad. The truck is considerably wider than the standard width of vehicle, being seven feet four inches wide. The tires itself are eight inches wide and the whole specially constructed vehicle is of massive design. Contractor Herriek will be obliged to harness thirty-four mules to the load to land the whole weighty assignment here.

The appointment of Miss Laura Crable to succeed herself as postmaster of Tombstone, was sent to the senate for confirmation on Friday by President Roosevelt. The applicant received a flattering endorsement in the general and hearty accord with which her petition for re-appointment was approved by patrons of the office. Miss Crable has been an efficient and most courteous official and it is needless to add that her reappointment meets with public satisfaction.

The Range News reports a phenomenally rich strike in Dos Cabezas district in the copper property belonging to the Casey brothers. The strike was made by Messrs P J Scanlan, J F Nieland and J S Krait who have a bond on the property. A shaft 50 ft deep and a crosscut 20 ft, is reported all in solid ore. The assays go high in gold, silver and copper; some picked samples assayed \$1500 while the average is given at \$100. Many prospectors are flocking to the new find. The Prospectors is pleased to note the discovery and believes development in that section will reveal other bonanzas and verify our oft maintained assertion that this mining field was one of great promise.
