Anti-Saloon League Elect Officers

At a meeting of the Territorial headquarters committee of the anti-saloon league, held at Phoenix Saturday, Dr H A Hughes was elected president of the organization, C T Hirst, vice president and C H Davidson, permanent chairman of the Territorial headquarters committee. H Franklin Bray was elected secretary. The most important business transacted was the passing of a resolution recommending that the services of Dr Gaudier of Los Angeles be obtained to superintend the work here in Arizona. Dr Gaudier has been doing similar work in that state and is now the assistant of State Superintendent Chapman. He is an excellent organizer and has made something of a reputation in his work of fighting the saloons.

Arizona's Remarkable Development

Arizona is on the eve of a remarkable development. With the irrigation works completed and nearing completion under the supervision of the Reclamation service of the government there will soon be under irrigation approximately 400,000 acres of land of unsurpassed fertility, capable of supporting, directly and indirectly, at least 400,000 people. This average, through the development of the available water supply under the government and private projects now contemplated, ought to be doubled within ten years. The copper industry promises to increase in importance for many years to come. By means of these two industries, agriculture and mining, without regard to others of great promise, I see the mark for our population before 1930 at not less than one million. The nation has no occasion to fear our ability and fitness for immediate statehood, or to entertain a doubt as to our ability to keep pace with the more progressive states in increase of population and wealth, and the maintenance of the highest character of citizenship.—Gov. Sloan in August number of "The Earth."

Will Not Allow a Prizefight at Prescott

Devotees of the padded mitt and roped arena, who like to hear the thud of blows falling on bare flesh and see the blood run, will be disappointed if they go to Prescott for the Labor Day celebration expecting to gaze on Earl Chappell of Phoenix and Kid Kirby of Prescott meet each other stripped to the waist and trauced to the minute in a boxing exhibition. United States Attorney Alexander, who has returned to Phoenix from Prescott, while in the latter city to attend the federal court session, informed the promoters of the match that he would not only arrest the principals, but would prosecute all the promoters, no matter how prominent they might be. Chappell and Kirby have been in training for the past ten days for the fight. While it has always been referred to as a friend v match with the gloves for an exhibition only, the interest taken has indicated that the spectators could expect something more than love taps when the lads came together.

Eggs Will Be High This Winter

That eggs will fall this fall and sell for as much as people are willing to give for them, is the prediction made by those who are in a position to know. They believe it more than possible that a new high record price will be established. In California eggs are selling for 40 cents per dozen. In Tempe the producers' exchange is paying 40 cents per dozen for eggs. In Kansas, which is usually depended upon to supply Arizona with the eggs she requires above her own production, conditions are much the same as here. Feed is high and there is less poultry than for many years. Wheat is higher than for two years and there is no prospect of a reduction. This winter eggs will be sold for just what people will pay. The supply will be so small that the present price of 50 cents in Tombstone is expected to increase to as high as 70 cents a little later.

Big Cabbage Raiser May Locate in Arizona

James Walsh, the "cabbage king" of Wisconsin, who last week finished harvesting 100 acres of cabbages from his farm east of Beloit, Mich., has arrived in Phoenix to spend the winter. Walsh is interested with Lafayette Myers in several hundred acres in sugar beets near Glendale. On his farm near Racine, Wis., which is the old J I Case place, and on his Manchester property, Walsh estimates his earnings at \$50,000, but he still thinks there are bigger things for him in Arizona, and he will locate here permanently if he can dispose of his Wisconsin and Illinois farms.

Thirty-two Committed From Cochise

The lunacy commission of the county was again in session today and two alleged insane patients were examined. The first was a Mexican woman by the name of Adeline Hunter, who imagined that she is a horse and is continually stamping her feet and smoking cigarettes. The next patient examined by the board was an American named Frederick C Holborn, aged forty-eight years. He came to this territory in 1879 and at one time was an inmate of the Agnes Insane Asylum in California. He is a fanatic on the subject of religion. They were both ordered committed to the territorial asylum for the insane. According to the records of the probate court there have been committed to the asylum from this county 32 patients since January 1.

Citizenship Rights Were Cancelled

The rights of citizenship which had been enjoyed by Kwang Lee, the Chinese storekeeper here, who is married and has a family of eight children, was cancelled by the court at Tombstone recently, it being found that Lee was not entitled to the same.
