PHOENIX, Feb. 6.—Acting on an informal complaint, the corporation commission yesterday issued an order restraining the Heralds of Liberty, a fraternal insurance organization, its organizers and agents in Arizona from doing any business whatsoever pending the order of the commission. Duway and Doane, state organizers, who have an office in this city, and Frank E. Hon, of Miami, attorney for the organization were ordered at the same time to appear before the commission and show cause why their certificates of authority to do business should not be rescinded. ### SETTING OF CRIMINAL AND CIVIL CALENDER TODAY IN COURT

Cases Set Up Until Last Week In March; Trial Jury Reports 16th.

Today was a busy day in the Superior court, the entire day having been occupied with probate matters, arraignments and most of the day with the setting of the criminal calendar for the coming term of court. Almost every attorney in the county was present to represent the interests of their clients, and jury cases were set up into the last week of March. It is expected that, figuring both civil and criminal cases, the present term will last well up into the month of April, according to present indications. The trial jury will report in Tombstone on the 16th.

### LOOKING BACKWARD 24 YEARS IN TOMBSTONE

Interesting Items that Appeared in the "Prospector," this Date, 1891; Reminiscent of the Pioneer Days

Mr. McLoughlin, a brother of Mrs. Clark who was committed to the Insane Asylum from Tombstone, has arrived here from Wisconsin. He came with the purpose of taking his sister and her family to his home, where he is amply able to provide them with every comfort. He has written to the managers of the Insane Asylum to learn if the removal of his sister is feasible, and if so will start at once for Phoenix with the younger children and from there continue his journey home. He hopes a change of scene and old associations may have the effect of restoring his sister's sanity.

The report of the death of Lieut. Schwelka last Sunday lacks confirmation, but his physician states that his spine is injured by the fall and he will always be an invalid from its effects.

W. K. Meade and wife have returned from St. Louis.

John X. Smith is in town from Turquois.

Paul Demareina was up from Fairbank today.

Arizona editors meet today in Phoenix to form a press association.

Sam Coleman is in town from his ranch in the Sulphur Spring valley.

Class Warner was a passenger on the outgoing stage today.

### SAYS TOMBSTONE IS SELFISHLY DEFENDING COUNTY SEAT

But Perhaps There's a Little Selfishness On Part of Douglas, Too

There is no danger of the county seat being removed from Tombstone until 60 percent of the voters of the county give the order for such action. Tombstone should concede that the citizens of Cochise county should be permitted to locate the county seat where they believe it would be more convenient for the greater number and less expensive to the taxpayers. We are inclined to believe that some of the Tombstoners are pushing opposition to the county seat removal bill from purely selfish motives.

The foregoing is from the Douglas International and we quite agree with Bro. Kelly for there is quite a difference between voting for a law that is general in the state and one that is class legislation, and the mere fact that this is class legislation is the reason for the modification of the referendum by the Douglaites.

Bro. Kelly and the Hon. Charles T. Frances must be thinking along the same lines, for we are inclined to think that there is as much reason for the removal of the county seat in Cochise as there is to remove the capital from Washington; and by the way, Bro. Kelly, we will agree to let you have the county seat just as soon as they remove the United States capital from Washington to a point nearer the center of population.

As to the purely selfish part of the argument it may be that Bro. Kelly has a little streak of it running up and down his commercial spine. Now, Bro. Kelly, Douglas is the "baby city" of the three likely places where the county seat will remain or be removed, but we don't propose to allow you to think that the county seat is a stick of candy and that you can have it to suck just because it is "commercially sweet" to your "baby" taste. Nix on the round stuff, Major, and don't forget it's a long way to Tipperary.

### SENATE REFUSES TO DELEGATE POWER GIVING CHIEF EXECUTIVE CONTROL PUBLIC WELFARE BOARD

Busy Day For Both Branches of Legislature; Wrangle Over County Seat Removal Bill In Senate; Passage Recommended By Style Committee

### ONLY THREE BILLS HAVE SO FAR BEEN ENACTED INTO LAWS

PHOENIX, Feb. 5.—By a vote of 15 to 3 the State Senate yesterday afternoon refused to entertain Senator Colter's amendment to the Public Welfare bill placing the control of the proposed new board in the hands of the chief executive.

The bill provides that the Board of Public Welfare shall be composed of the governor, state auditor and state treasurer. Colter sought to have this amended to read the "governor, state auditor and purchasing agent, the latter to be appointed by the governor."

The following new bills were introduced in the Senate:

No. 52 by Crabbe provides that all railroad rights-of-way in Arizona shall be fenced, fixing the liability of railroads for killing or injuring certain classes of livestock and prescribing the procedure of actions therefor.

No. 63 by Bacon provides for an appropriation of \$17,500 from the general fund to provide for a cottage at the state asylum to accommodate patients whose estates are chargeable with the expense of their keeping and maintenance, or whose friends and relatives are willing and able to defray such expense.

No. 62 by Colter relates to the construction, maintenance, and improvement of state roads and bridges; creating the office of state engineer, prescribing the duties thereof and compensation therefor.

Shortly after the Senate convened yesterday afternoon the style and revision committee on house bill No. 4, known as the county seat and removal law and recommended its passage.

As soon as the report was made Senator Webb of Maricopa suggested that the attorney general be asked for an opinion on the constitutionality of the bill.

"As I understand, the attorney general won't pass on it" said Senator Stapley, of Maricopa.

Senator Chase of Greenlee then took the floor. "I've known the general for a good many years and if you put me on a committee to call on him he will give us advice," he said.

"Haven't we the right to demand legal advice of the attorney general?" asked Senator Riggs of Cochise.

President Sims of Cochise said that in his opinion it is the duty of the attorney general to give an opinion to the legislature.

The bill was finally referred back to the style and revision committee.

Up to this time three bills have passed both houses and been signed by the governor.

Senate bill No. 16 was the first offering to the committee. This is the famous Mothers' Pension and Old Age bill and the lower house could hardly wait its opportunity to snipe the measure hip and thigh.

Without reading, the bill was ordered to the committee on county and county affairs with instructions to hatch a new measure providing boards of supervisors with power to continue the care of indigents.

The committee recommended that House Bill No. 38 and House Bill No. 53 "do pass."

No. 55 introduced by Representative Reed of Pima, provides for the estab-
