

U. S. COMMISSION IN BISBEE OCTOBER 12

The Prospector has just received the following telegram, sent from Phoenix by W. B. Wilson, secretary of labor and chairman of the special body probing labor conditions in the west.

"The president's labor commission expects to be in the Bisbee district on October 12th and 13th for the purpose of making a thorough inquiry, and hearing all sides to the outstanding difficulties. The commission will appreciate of its visit, you will announce in your paper the commission's prospective visit.

"Please extend to all parties as well as to the general public, the invitation of the commission to attend its conferences, and to accord the fullest cooperation so as to enable the commission to reach the just and prompt settlement demanded by the national emergency."

ALLEGED SOLDIER IS ESCAPED PRISONER

DOUGLAS, Oct. 8.—Alleging that he is an escaped prisoner, Sergeant Charles L. Baker, of the hospital corps, U. S. Army, was taken into custody yesterday by A. A. Anderson, warden at the state penitentiary. According to Warden Anderson, Baker's right name is Charles L. Brinkley and he escaped from the penitentiary at Florence last April.

It is alleged that Baker was sent to the penitentiary about a year ago on a charge of embezzlement, to serve an indeterminate sentence of from three to ten years. The man was a good prisoner, it is said, and was made a "trustee" and assigned to clerical work in the office of the penitentiary. It is claimed he escaped from the place and came immediately to Douglas where he enlisted in the army.

Since joining the army it is said by the officers that know him well, Baker has made an excellent soldier, and while he has been in the service but a short time he has been promoted to the rank of sergeant. During the past months the man has been on duty as clerk in the office of the District surgeon for the Arizona district.

It was stated yesterday on authority that the man may be paroled and allowed to return to the service of the army. It is maintained by some people familiar with the case that the embezzlement case has been satisfied and the matter of the man's release may be taken up with the governor.

MANY ATTENDED GLEESON RED CROSS DANCE

Fully a dozen auto loads of Tombstone dance lovers and others who want to help out the cause of the Red Cross motored to Gleeson Saturday night to attend the Red Cross dance given by the Gleeson Auxiliary, Taylor's hall, which had been donated for the occasion, was crowded to capacity with people from all parts of the county, and the music was donated by the 10th Cavalry band of Fort Huachuca, nine patriotic auto owners of the camp having transported the band free of charge. The Gleeson Auxiliary reports substantial receipts as the result of the affair and every one enjoyed themselves to the limit.

JAYNES RESIGNS CHAIRMANSHIP OF PUBLICITY COM.

TUCSON, Oct. 8.—Allan B. Jaynes, publisher of The Citizen, who has been serving as chairman of the publicity committee of the Arizona Council of Defense, has tendered his resignation to the executive committee with the request that a Phoenix man be appointed in his place, with a view to centralizing the work of the Defense Council. Inasmuch as the headquarters of the council have been located in Phoenix and Mr. Jaynes lives in Tucson he has worked under considerable handicap. The executive committee acceded to Mr. Jaynes request and appointed Colonel James H. McClintock, chairman of the committee. Colonel McClintock, who is a newspaper man of long years' experience in Arizona, will immediately take up the work. He has

MCCLOSKEY MURDER TRIAL IS DISMISSED

Following the dismissal of a murder case and a plea of guilty having been entered in a bootlegging case which were set for trial today in the Superior court, which cleared the docket for the present term of court, Judge Lockwood dismissed the jury for the term.

The case of Enrique Espinosa of Courtland, who was charged with the murder of John McCloskey, the aged Courtland rancher, several weeks ago, was called to trial this morning and the jury secured. Before the trial had gotten under way, however, the case was ordered dismissed on motion of County Attorney J. F. Ross, who stated that there was insufficient evidence to warrant a trial, and the defendant, Espinosa, was released from custody.

This afternoon John Jones, who was to be tried for bootlegging, changed his plea from not guilty to guilty and he received a sentence of 6 months at hard work and a fine of \$25.

Following this the criminal calendar being cleared for the present term, Judge Lockwood dismissed the jury and the August term of court was closed.

Following is the special venire which reported this morning:

John Wohlschlegel, F. P. W. Freeman, Geo. Schweilin, Al Turner, Bisbee, Harvey C. Saxby, L. W. Light, Warren, James S. Gibbs, J. E. O'Leary, P. Callahan, Robert Hilburn, Douglas; Edward H. Wittig, Upper Lowell; William Cowan, C. W. Webster, Tombstone; P. E. Trotter, Central Bridge.

CHARGED WITH HAVING KILLED MEXICAN GIRL

NOGALES, Oct. 8.—Henry Marquez, Jr., agent at Nogales for the Packard automobile, is being held in jail, at Magdalena, charged with having murdered a Mexican woman whom he brought with him in an automobile from Nogales, Son.

The woman Marquez is alleged to have murdered is a denizen of the tenderloin district of Sonora. According to the story from the south, the details of which are meagre, Marquez is alleged to have killed the woman in a drunken fury. It is said that the couple quarreled while driving in an automobile as they approached Magdalena and Marquez is said to have hurled the woman from the moving machine.

He is then alleged to have driven into Magdalena and told of the affair. The body of the woman was in a badly mutilated condition. Her right wrist was broken and her face and chest badly bruised and beaten.

BUYING BONDS OF SECOND LOAN

BISBEE, Oct. 8.—Not to be outdone by those who are not in uniform aiding the success of the Liberty Loan, boys of the First Arizona Infantry are doing their share to make the state's quota an assured fact. The fever has taken fast hold of those of the regiment who have been approached on the subject. Arizona's volunteers feel they are in position to set an example to those who are remaining behind. Not only are they ready to give the money which the country is paying them, to aid in paying for the war.

The supply company of the First Arizona, has taken first steps to subscribe to the loan. Led by Captain A. C. Taylor of Phoenix twenty men of his company have subscribed to \$2600 worth of bonds. This, in the opinion of the officers of the regiment, is an unusual sacrifice for the men to make. Their pay is hardly princely, but they believe in devoting a large portion what they get for the success of the issues. It is expected that other men of the regiment will also subscribe generously, taking man for man, as much of the loan as any equal number of citizens of the state.

GET YOUR GRANDSTAND BOX

The assignment of boxes in the grandstand at the State Fair, November 12-17, will occur through the method of a public drawing to be held at 10 o'clock a. m. Thursday, October 25, in the Chamber of Commerce rooms in Phoenix, and under the auspices of that body. The cost of a box for the entire week of the Fair is only \$25, the old time price that prevailed before the days of the high cost of living.

Those wanting boxes should forward their money to B. W. Zachau, secretary of the State Fair Commission, Phoenix, stating whether they will be able to attend the drawing or designate some one to draw for them. Otherwise their names will be given to the Chamber of Commerce and some one will be designated to draw for them.

TO MEXICO ON MINING MATTERS

Supt. E. Grebe of the Bunker Hill Mines company and son, Roland, accompanied by Sam Moore left yesterday for Sonora where they will look into some mining properties near Tlaxi. They expect to be absent about ten days.

PITCHLYNN MADE LISTING OFFICER FOR FOREST REGT.

TUCSON, Oct. 5.—P. P. Pitchlynn, supervisor of the Coronado forest has been appointed by the Forester as listing officer for the second forestry regiment which is now being organized for active service. The first regiment is now seeing service in France.

Men of practical experience in the lumber and sawmill industry and woodsmen are being sought for this service. It is believed that a large number of men in Pima and adjoining counties have sufficient qualifications to enter.

The regiment is to be composed of ten battalions of three companies of 250 men each and the present authorization is for the organization of two battalions.

WANTS TO DEVELOP LOCAL PROPERTIES

R. L. Cheney and wife of San Diego, Calif., are recent arrivals in Tombstone, where they expect to locate. Mr. Cheney is a mining man and comes to Tombstone with the view of obtaining hold of some promising local mining properties on which he will do development work. With the present high price for metals here is a chance for some local man owning mining claims to have some development work done and at the same time to ship ore. Mr. Cheney is consulting over the proposition with local claim owners.

ARIZONA WOMEN FIGHT FIRE

Three Arizona women have received the official thanks of the Forest Service for fighting fires.

They are Mrs. O. P. Schoenberg, of Portal, Ariz., and the Misses Lillian and Hildegarde Erickson of Cochise County, Ariz.

PHOENIX, Tet. 8.—Without losing a patient in the fire the main building of the Sisters' hospital burned yesterday afternoon at 3:30 o'clock. Loss between \$35,000 and \$50,000 covered by about two-thirds insurance.

The fire probably started from electric wiring under the roof over the operating room at the west end of the wing. There being no fire walls to stop it, the flames had run along under the roof clear around the big L of the building and came out on Polk street. It was a matter of minutes before the building was on fire from end to end.

SICK WOMAN HAS NARROW ESCAPE IN RANCH FIRE

PHOENIX, Oct. 8.—At an early hour this morning the home of Mr. and Mrs. C. U. Weston, a mile and a half west of town on the lower Buckeye road, caught fire and burned to the ground. Mrs. Weston was seriously ill at the time the fire was discovered and it was with some difficulty that she was saved from the burning building by her husband who had himself but partly recovered from a serious illness.

The sheriff's office was asked to send help and did what it could but there was no chance of saving the home for the fire had gained considerable headway before help was called for.

ARIZONA BUYS LAND FOR AN INSANE ASYLUM FARM

PHOENIX, Oct. 8.—A quarter section of land has been purchased at \$200 an acre to be used as a farm for the state asylum for the insane, from which it is distant a mile and a half. Appropriation for the purchase was made by the last legislature.

AUTO TURNS OVER INJURING OCCUPANTS

On account of driving too fast for hire machine driven by Sigh Adams on the way to the dance at Warren turned over on the hill just out of Lowell last evening and several persons in the car had narrow escapes from being seriously injured. Miss Mattie Brewer, who was one of the passengers in the car, had to be taken out from underneath the back seat, where all were pinned down. Parties who were following the Adams car rescued the parties from their accident. The car was badly wrecked. The accident happened about 8 o'clock.—Bisbee Review.

NOTMAN, VICE DOWELL JOINS DISTRICT BOARD

TUCSON, Oct. 8.—The strenuous work of the district exemption board having been practically completed, G. H. Dowell, general manager of the Copper Queen Consolidated Copper company, has resigned from the board.

Arthur Notman of Bisbee, head of the geological department of the Phelps-Dodge Corporation, Copper Queen branch has been appointed to succeed him.

A telegram from Governor Campbell announced the resignation to the board yesterday morning.

SOLDIER'S BOOK FUND IN STATE LACKING \$500

PHOENIX, Oct. 8.—Of the \$2,900 allotted to Arizona, as the share of this state in the one million dollar fund to be raised to establish libraries at the training camps, \$1,500 has been subscribed, according to Con P. Cronin, director of the campaign for this state. Five hundred dollars now is needed and needed badly, declares Mr. Cronin, and it should come from people of Phoenix, he says, as the people in other towns of the state have responded handsomely, more so than have the residents of Phoenix.

The people of Phoenix are not "tight" in the matter of giving money, Mr. Cronin says, but they seem to want someone to call on them and solicit it. This he has not had the time to do, he states, nor has he any assistants to call on them for him.

"Tucson, Nogales, Douglas and Yuma have all exceeded their quota," declared Mr. Cronin yesterday. "Most of the other towns have done nobly also, but the fund is still \$500 short and must be raised within the next five days. I want the Phoenix people to come forward voluntarily and raise that \$500. It would be a fine thing."

The \$1,500 of the fund already received has been mostly in small amounts, Mr. Cronin says. There are only three gifts of \$100 each, and a few at \$50. The rest is in \$1, \$2, \$5 and \$10. This is the last call, declares Mr. Cronin. "Come in with \$500," is his cry.

JOHNSON MINES MAKE GOOD SHOWING

Mr. H. P. Merrill, formerly the cashier of the Bank of Benson, has just returned from an inspection of the properties of the Keystone Copper Company at Johnson, of which he is a large stockholder, and he says that the company will undoubtedly be one of the large copper producers of the state. The work is in charge of U. R. Miller, and the main workings are on the Hagerman claim, where the main shaft has been sunk to a depth of 635 feet. The power house being well equipped with a large hoist, compressor blowers, a substantial head frame forty feet high, and everything necessary to carry on the work in a safe and economical manner, the rock being broken with power drills.

In sinking this main shaft a fine body of shipping ore was encountered at the 40-foot level and continued to the 65-foot mark, and considerable drifting and stoping was done on this ore body, and many cars of high grade ore shipped to the smelters. Much ore still remains to be taken out. On reaching the 250-foot level a body of low grade iron ore and sulphide ore was broken into and it continued for a depth of about sixty feet. At the 312-foot level drifts and crosscuts were run on this ore body which shows up very promisingly, the rock being heavily impregnated with mineral shot all through the formation.

Adjoining the Hagerman claim on the northwest is the O. K. group, belonging to this same company, and now being developed by incline shafts, with drifts and stopes. At a depth of a hundred feet a body of high grade oxide ore was encountered and the drifts run on this ore body show it to be at least seven feet in width, will well defined walls which reach to the surface in some places. Several cars of rich ore have been shipped from this ore body, and it certainly looks very encouraging and worthy of more development work and exploration.

The incline is about 200 feet in depth. A gasoline hoist has been installed, and the air drills are cutting the rock for the shafts, the air being piped from the main power plant.

Adjoining the O. K. claim on the west are the workings of the Cobriza. It is the intention of the company to continue the cross-cut at this 312-foot level until the hanging wall is reached, where ores of high value are expected to be found, it being the history of the mines in this district that all the high-grade ore is found on the hanging wall.

At the 600-foot level the sulphides are scattered all through the rock. In fact, the entire shaft from top to bottom is in ore or mineral of some kind, and in places it is of high grade. Mining Company, who are now shipping from five to ten cars of ore daily and are preparing for extensive development work so as to continue their shipments.

To the north and adjoining the O. K. group, the Thunderbolt Copper Mining Company have recently bought a number of claims, and are now erecting a 40-h. p. hoist and compressor and preparing to carry on development work to open up the showings which show on the surface and in the shallow openings sunk on the many ledges cropping out.—Benson Signal.

A REAL MAN

It is pretty hard to assert your independence and defy the world when you have an empty stomach and an empty pocket book. If your bluff is called, then what?

The prudent man who has saved a little, who has a reserve at the bank to tide him over a month or two, isn't so afraid of sickness, nor such a coward about being out of a job. A bank account is a stimulant to real manhood. The larger the account the firmer the footing. It breeds self-confidence, is proof of efficiency and is an ever-present resource in time of need. It's not what a man earns in a year that gives him a surplus at the bank, it's what he saves.
