

TO HAVE READY JOB FOR EVERY ARIZONA SOLDIER

PHOENIX, Dec. 10.—Organization of means for the immediate employment of returning soldiers and sailors, together with a large number of war workers, has proceeded to the extent of outlining to all chairmen of the county councils of defense in this state the methods originated by the central body in Washington. Telegraphic instructions were sent out yesterday.

Chambers of Commerce, Red Cross chapters, Councils of Defense, Y. M. C. A., Knights of Columbus, Jewish Welfare Board, mayors, women's committees and, in fact, every effort engaged in war work of every kind, have been called in session in each county in the state.

From this working assembly, according to instructions, a management committee is to be selected. Following its appointment, a manager will be named by this committee who will become a federal employe, under the supervision of the federal state director of employment service who in this state, is Thomas J. Crowf.

List All Jobs

Serious gatherings of data will result in compiling a list of all potential positions of every nature, and those, in turn, will be held in waiting for the fighting men to return. In this way, it is hoped, not a returning Arizona boy need wait longer than the time it takes him to go to the location of his "job" to secure work that he is capable of doing at a living wage.

In addition to this, the suggestions of Franklin K. Lane, secretary of the interior, relating to the reclamation of arable lands, will be taken up and discussed at a meeting called for Monday. Ten representative citizens comprise this committee and as soon as the facts requested by the department of the interior are collected, a complete report will be sent to Washington.

Government Will Help

Local officials are inspired by the belief that all these various agencies combined possess a significance that reaches beyond the placing of men in employment, reacting upon an area of unprecedented prosperity for the state of Arizona. It is understood that the "go the limit" on every laudable enterprise has to do with the furtherance of productive agencies all over the country.

There will be no appeal to Governor Hunt or the coming state legislature, as suggested by the council of national defense, to have the act that created the state council amended to permit work to continue indefinitely. This is due to the fact that the Arizona council is already authorized to remain in existence until six months succeeding the end of the war, which is interpreted to mean, after the signing of a peace treaty by this country with Germany and Austria.

WILL NOT SEAL RECORDS

(From Monday's Daily)

The records of the Cochise county local board will not be sealed today as was intended. The board was in session today with all members present for the purpose of officially clearing up all matters pertaining to the draft and sealing the records as ordered by the provost marshal general, but in the noon mail today orders came from Adjutant General Harris, that he had received instructions from the Provost Marshal General, which would make it impossible to seal the records, as new data was desired, especially on the last registration. The orders of the provost marshal general were enclosed and relate to the method of refiling the papers, so that the desired information can be acquired when wanted, and considerable work will be entailed in carrying out the new orders. This means that the records of the board will remain open for some time to come at least. The board had prepared their report covering the status of the men in the different classes, which would have gone in had the original orders been carried out.

Harness has been patented to suspend hand baggage from a man's shoulders and leave his hands free.

When we get to Berlin the Hindenburg line should extend from his neck to the nearest limb of a tree.

MURDER NOW IS NOT BAILABLE OFFENSE

PHOENIX, Dec. 13.—With the restoration of capital punishment in Arizona, proclaimed by Gov. George W. P. Hunt, December 3, murder again technically assumes the status of a non-bailable offense. All murder cases have been bailable during the past two years, or since the abolishment of capital punishment.

Both the state constitution and the statutes provide that persons charged with murder cannot be admitted to bail in instances where the proof is evident of the presumption great. These provisions, however, make it more or less discretionary with the individual charged with murder has his preliminary examination as to whether or not he shall be admitted to bail. But technically, murder is now a non-bailable offense in this state.

In so classifying murder, the state is merely reverting to the regulations existing prior to two years ago. Before that time, murder was a capital offense in Arizona and therefore was non-bailable in a technical sense of the word.

But when capital punishment was voted out in this state two years ago, it became bailable offense. That is to say, a justice of the peace could not refuse bail to anyone charged with murder. Under the present conditions, he can legally do so, however.

Such after capital punishment was voted out, the supreme court of the state handed down a decision in which it ruled that all murder cases were bailable since the abolishment of capital punishment.

NOGALES IS HIT BY FLU; HAS 500 CASES

NOGALES, Dec. 10.—After being comparatively free from the general spread of Spanish influenza, which has taken its toll throughout Arizona, the towns of Nogales, Ariz., and Nogales, Sonora, on the Mexican side of the international side of the boundary line, will be quarantined at 7 o'clock tomorrow morning. The decision was reached last night after a conference between authorities at Nogales, Sonora, those of Nogales, Ariz., the medical men of both communities and the commanding officers of the local military camp.

Not less than 500 cases of the disease are reported to be in the two Nogales, though the exact number is not known.

Under the terms of the quarantine the motion picture theaters, the schools and churches and pool rooms will be closed tight and the congregating people on the streets and other places prevented.

According to information from the west coast of Mexico, the disease is making serious progress there. In the town of Magdalena, with 5000 inhabitants, there are more than 1000 cases reported. At San Lorenzo a similar proportion exists. The mortality rate is heavy, owing to a lack of proper medical attendance and sanitation.

CAMPAIGN FOR DIVISION OF MARIQUITA COUNTY IS BEGUN BY MESA CITIZENS

MECA, Dec. 10.—Campaign for separation from Maricopa county of that portion of the county south of the Salt River has been launched here by a number of citizens. At a meeting it was decided to take hold of the proposition at once and endeavor to push it through to a successful conclusion.

Those here favoring separation and the formation of a new county south of the river take the stand that Maricopa county as at present constituted is too unwieldy. Principal points south of the river which would be in the new county are Mesa, Chandler, Gilbert, Egypt and Tempe.

A few years ago county division was prevented by action of the governor, who gave notice that he would not sign the bill if passed by the legislature.

Conditions are different under the new law and it is now up to the voters.

EXCUSSED BY JURY

NOGALES, Dec. 9.—Nick Farrell has been released by a coroner's jury from blame for the killing of Reyes Morales and Felipe Gradillos at Harshaw.

WEDS POPULAR COPPER MINE OWNER

LOS ANGELES, Dec. 11.—News of the recent marriage of Mrs. Edythe Choate Oesting of Pasadena and William J. Young, Jr., of Chicago and Los Angeles, leaked out yesterday and will be of interest to many Southern California people because of the prominence of the contracting parties.

The bride is the former wife of Charles W. Oesting, one of the wealthiest business and club men of San Diego. For the past ten years, since their separation, she and her daughter, Dorris, have made their home in Pasadena. Mrs. Young is the daughter of Mrs. Carl H. Wagner of San Diego, member of one of the old families there, and she is also the niece of Rufus Choate of San Diego.

Mr. Young is a wealthy mining man with copper interests at Courtland, Ariz. He is a member of the Chicago club of Chicago and of the California club of Los Angeles.

The marriage took place on November 26, in the First Congregational church at Pasadena, with only a few relatives and friends present. Miss Dorris Oesting was the bride's only attendant. After the holidays Mr. and Mrs. Young will go to Courtland, and they will divide their time between there and Pasadena. Courtland was named after a younger brother of Mr. Young, the family having mining interests there for years.

While Mrs. Young lived in San Diego she was a society leader, and she frequently made visits to Pasadena. Her daughter will graduate at Marlborough this year and will go to Vassar next year. The Oesting home on First street in San Diego, is one of the handsomest residences in that city, and the tea gardens in East San Diego, until recently owned by Mr. Oesting, are widely famed for their beauty. Both places have been the scenes of lavish entertainments.

DRUGGIST SHUMWAY IS HELD TO ANSWER FOR SALE OF JAMAICA GINGER

TUCSON, Dec. 12.—R. S. Shumway, West Congress street druggist, was bound over to the superior court yesterday by Justice Oscar Pease, on the charge of violating the prohibition law. Bond was fixed at \$250 by the justice, in the absence of recommendations by either the defense or the county attorney.

The druggist is charged with violating the prohibition law by selling Jamaica ginger, and the county attorney is basing the prosecution on the decision of the supreme court in a similar case, which originated in Graham county.

C. A. Bosworth, of the Arizona pure food laboratory at the university, testified regarding an analysis which he had made of Jamaica ginger purchased at the Shumway drug store, and the analysis itself was placed in evidence at the request of T. K. Richey, attorney for the defense. The chemist testified that analysis of the preparation showed 74.25 per cent ethyl alcohol.

Asked, if in his opinion, that would be sufficient to cause intoxication, the chemist replied that it would; that he had known beverages containing 4 or 5 per cent to cause intoxication. Willie Hughes, a youth of 11 years of age, was also put on by the state to testify regarding purchases of Jamaica ginger at the drug store.

FOR KICK OF MULE ASK DAMAGES OF \$2500

PHOENIX, Dec. 9.—Because one of its employes was mistreated when acting as valet to a mule, the Southwest Cotton company is being sued for \$2500.

Lucas M. Marquez, who received a broken leg when he assisted a foreman at one of the cotton company's ranches in shoeing a mule, is the plaintiff. Marquez alleges that he was requested to assist in the delicate task of shoeing the hybrid when the foreman let go to rope and the nature of the animal asserted itself.

DOLLARS OR DEATH

Armenian sufferers in Asia Minor are in dire need of foodstuffs, clothing and common necessities. Disease is stalking in their midst and the cable brings word that relief must be sent. "It is dollars or death," says the dispatch.

NO RELAXATION BY FAIR PRICE BOARDS TO PREVENT PROFITEERING

PHOENIX, Dec. 13.—There will be no relaxation on the part of fair price boards of Arizona in preventing profiteering and in seeking that both the merchants and public get a square deal, it was stoutly affirmed at the state headquarters of the food administration today.

Timothy A. Riordan, the federal food administrator for Arizona, has sent out a letter to the chairmen of the 34 fair price boards of this state pointing out that although the government has made the maximum margin of profit sufficiently large to cover all cases this does not mean that these margins should be taken advantage of to the fullest extent.

"The new margins," he says, "are considerably higher than heretofore, and are designed to protect those merchants who are located in remote districts away from the railroad, and whose cost of doing business is naturally much higher than in the more thickly populated communities convenient to the railroad."

"We quite realize," he continues, "that all merchants can take full advantage of these margins without being technically guilty of profiteering, but morally that is precisely what they would be doing."

"The prime object of the fair price boards is to prevent profiteering and see that both the merchants and public get a square deal, and we think you will agree with us that it is grossly unfair for merchants doing business with the minimum of expense to take advantage of the maximum of profit which it intended to apply only to dealers who, by reason of their location and lack of railroad and other facilities, are forced to charge the maximum margins of profit in order to carry on their business."

BOYS ARE ENGAGED IN BLOODY WAR AT JEROME

JEROME, Dec. 13.—War which had its inception in the alleged desecration of the American flag has been raging between the American and Mexican boys of Jerome since Wednesday. Half the youngsters in town are nursing bruises left behind. Three Mexicans and one American have received injuries which may be classed as serious.

The leader of the Mexican forces is at home with a sprained back, received in a battle that was assuming alarming proportions yesterday afternoon when it was interrupted by Marshal J. G. Crowley. Another Mexican boy had a broken toe, and it is reported that a third has a broken arm. On the American side Duncan McLean is the only warrior who has been hurt to any extent. He had one cheek laid open by a rock.

YUMA ROAD TO BE OPENED THIS MONTH

PHOENIX, Dec. 13.—Morotists contemplating overland trips to California this summer will learn with pleasure that one of the greatest obstacles encountered on the route has been removed. Yuma county now has in the process of construction a highway which is intended to reclaim the Parker Cut Off and return the once popular route to general favor.

According to reports received at the Chamber of Commerce yesterday, the county road will be completed and thrown open to traffic within the ensuing month. A special effort is being made in order that the early spring tourists may avail themselves of this boulevard. It is said this route will be entirely free from sand east of Parker.

An unusual volume of traffic is reported over this route at the present time, in spite of the fact that the roads are in an extremely poor condition, particularly in the vicinity of Winter Wells. A large number of those who have gone to the east over this route have elected to return via Wickenburg, preferring the longer journey to a second struggle with the deep sand in the cut-off.

SEEKING NEW HOMES

In the Russian Caucasus 350,000 Armenian refugees are seeking new homes.

It is a great era when women can place all the blame for poor biscuits on the food administration.

I. W. W. DEPORTATION U. S. SUPREME COURT

PHOENIX, Dec. 13.—On a writ of error, the decision of Judge Morrow in the matter of the I. W. W. deportation from Bisbee will be carried to the supreme court of the United States, according to United States District Attorney Thomas A. Flynn. Mr. Flynn is visiting in Phoenix during the absence of John H. Lanaston, who is on a vacation.

"The writ of error is all prepared in Tucson and is merely waiting for the return of Judge Sawelle," said Mr. Flynn. "It was based upon the deportations of the men from one state to another, which certainly violates the constitutional right of an American citizen."

It was expected that the United States court would be convened in Tucson the 17th of this month, but owing to the influenza conditions in that city, the session has again been springing tourists may avail themselves. This fact, however, will not delay the hearing on the writ, which Attorney Flynn says will be given some preference in Washington.

ROLL CALL WEEK

DECEMBER 16 TO 23

Mrs. J. M. Mach, secretary of the Tombstone Auxiliary of the Red Cross, was today appointed chairman for Tombstone for the Christmas drive by Chairman J. C. Ryan of the Bisbee chapter. An effort will be made to send Tombstone 100 per cent, and Mrs. Mach will have charge of the drive, which begins next week.

The Red Cross button is the receipt which will be given during the Christmas Roll call week, December 16 to 23, for membership in the American Red Cross. All America will be wearing the button before Christmas eve.

Roll call committees in Red Cross chapters are planning to give out no written receipts during the membership campaign except in cases where special request is made.

In addition to the Red Cross button which Red Cross members will receive they will be given ten Red Cross Christmas seals, formerly sold by the Red Cross in conjunction with representatives of the National Tuberculosis association.

SUSPECTED SLAYER IS FREED BY FINGER PRINT

TUCSON, Dec. 13.—The finger prints left by the slayer of Lee Kwon on a bottle of soda pop freed A. R. Gonzales of the charge of murder. Gonzales was arrested November 8 and charged with the murder of the Chinese merchant Lee Kwon on the night of November 7, at the merchant's store on South Meyer street, and has been in jail since his arrest being unable to give bond.

Deputy County Attorney E. B. Frawley, accompanied by Attorney A. A. Worsley, representing the defendant, appeared before Justice Pease yesterday afternoon and represented to the justice that the state had insufficient evidence on which to prosecute Gonzales and recommended that the prisoner be discharged, which was done.

AIR MAIL ROUTE HAS THREE STOPS IN THIS STATE

SAN DIEGO, Dec. 10.—Five stops will be made by military airmen, carrying mail between San Diego and El Paso, Tex., according to tentative plans submitted by those engaged in mapping their air lanes between the two cities. These stops will be El Centro, Cal.; Yuma, Ariz.; Tucson, Ariz.; Douglas, Ariz., and Columbus, New Mexico.

Mail will be dropped and other mail taken on at these places. Army aviators today expressed the opinion that by flying at hours when the winds are generally favorable, especially in the crossing of mountain ranges in California and Arizona, the actual flying time for the entire journey can be cut to 14 hours. That would necessitate a speed of more than 85 miles an hour.

Major McCauley's Progress

TUCSON, Dec. 10.—Major T. C. McCauley, commander of Talliaferro field, arrived at the Tucson landing ground this afternoon at 2:50 o'clock from San Diego, Cal., and left twenty minutes later for El Paso, expecting to spend the night at Deming, N. M.

OFFICERS CONFIDENT OF GETTING SLAYERS

NOGALES, Dec. 13.—Despite the fact that officers have been busy and still are occupied in the hunt for the slayers of Carlos Cataregli, Mexican customs agent at Agua Prieta, and two other men, they have not found the murders nor obtained a clue as to the whereabouts of the \$125,000 that the slayers took from the automobile of the slain men on the road between Agua Prieta and Naco. Evidence has been found both in Douglas and at Agua Prieta that has encouraged the trailers and the authorities are confident that all of the fugitives will be captured.

Mexican officers are loud in their praise of the manner in which the American authorities, city, county and military, have cooperated in the effort to run down the criminals, and they want to reciprocate in the future should opportunity be afforded. The conference held at the border between Col. G. H. Morgan, commander of the Arizona district, and Governor P. Elias Galles of Sonora, was very satisfactory to both conferees. It was held last week and lasted more than an hour.

FRANKLIN TAKES OFFICE

Judge Alfred Franklin of Phoenix today took over the office on collector of internal revenue for Arizona and New Mexico, succeeding Judge Lewis T. Carpenter, resigned. Upon taking over the office, Judge Franklin stated that he would have no announcement to make at present concerning the office and that he is now familiarizing himself with the duties. Judge Franklin was appointed to the office by President Wilson while he was still on the Arizona supreme court bench. The appointment was made in October and confirmed immediately by the senate, but Judge Franklin has delayed taking over the office for personal reasons. Judge Carpenter, who resigned as collector, did so in order to devote his entire time to his practice of law, which he will continue in Phoenix.

MAYOR AND OTHERS RE-ELECTED IN TUCSON

TUCSON, Dec. 13.—In the city election held here, chief of police Robert Bailey was re-elected by a vote of more than two to one and city treasurer, George Gray, was re-elected by an even larger majority.

Mayor O. C. Parker, without opposition, led the voting in his reelection. Thomas A. Briggs, for city assessor, won over J. H. Schneider. L. O. Cowan, Democratic candidate for city recorder, without opposition, received 1279 votes.

W. T. Pyott, Republican candidate for councilman from the second ward, without opposition, received 280 votes.

LIQUOR CHARGE AGAINST FORMER OFFICER OF U. S.

PHOENIX, Dec. 9.—Dick Little, a former deputy United States marshal and veteran of the Spanish-American war, is at liberty here on \$500 bail following his arrest on a charge of disposing of intoxicating liquor. He waived preliminary hearing in Justice Wheeler's court and was bound over to the superior court. Little was arrested by Constable Haze Burch. A search of his home revealed liquor on the premises.

TO JAIL FOR SPOON ON LEMON EXTRACT

PHOENIX, Dec. 12.—Because he drank too much lemon extract and fired a shot through the window of a Mexican restaurant, Estevan Toscano was sentenced to 30 days in jail yesterday afternoon by Police Judge Frank Thomas.

Jose Valenzuela, who accompanied Toscano in the extract drinking escapade, was given a choice of paying a fine of 10 or going to jail for ten days. He went to jail.

ARIZONA PRISON HAS NOT ONE CASE OF INFLUENZA

FLORENCE, Dec. 12.—As a sample of the effect of quarantine, the state prison near this city has had not a single case of influenza among its 400 inmates. During the period of the epidemic the warden has refused to receive any new prisoners. During the same period a large number of cases were known in Florence.

GIRL STOLEN BY HER LOVER IS FEARED

DOUGLAS, Dec. 9.—There is an anxious mother in room 6, 408 Eleventh street today, the reason being that her pretty daughter, Luz Roa, 15 years old, disappeared yesterday morning at 11 o'clock. Mrs. Roa notified the police yesterday afternoon that she believed that her daughter had been stolen by her sweet-heart, a smelterman named Perez, about 25 years old, who lived in the apartment next door. This belief is borne out by the fact that his disappearance at the same time as the girl.

He admitted yesterday morning that he would not go to work in the smelter because it was pay day. Whether the couple went to Tombstone and got married to one known. The mother is anxious to find where her child is even if she does not come home, but it is said that the father, Canillo Roa, also a smelterman, is unfeeling and will not allow his daughter to return to the parental roof after such a serious breach of family discipline and ethics.

One of the neighbors said this morning he was not surprised to learn of the girl's running away from home.

"The parents loved the girl," he said, "but they seem a little stave of her. They did not mean to want her to learn English and they would not let her go to school. I asked them about it once and they said they could not afford good enough clothes to send the child away for home. This did not seem true to me in view of the fact that the father worked regularly at the smelter for three years. So they kept the child at home day after day and month after month, taking care of three younger children. She never had any amusements. She never played even with children of her own race or went out anywhere. I don't suppose she was ever inside of a picture theater. Something was bound to happen and it did."

The girl when she left wore a white dress, black cloak and a black ribbon bow in her hair. She is believed to have carried several of her own photographs with her.

A magazine has been patented for carrying an extra load of tobacco along the stem of a pipe.

UNITED STATES LAND OFFICE, PHOENIX, ARIZONA.

State of Arizona.

To Whom It May Concern:

Notice is hereby given that the State of Arizona, under the provisions of the Act of Congress, approved June 20, 1910, (36 Stats. 557), has filed its School Indemnity Land Selections, applying to select as indemnity the lands described as follows:

- 1720-047842; In T. 23 S. R. 25 E., E 1/2 SW 1/4, Sec. 21; In T. 23 S., 28 E., Lots 6; 8, Sec. 7.
- 2873-046752; In T. 13 S. R. 23 E., S 1/2 SW 1/4 NW 1/4, Sec. 13
- 2885-046753; In T. 19 S. R. 27 E., Lots 1, 2, 3, 4, S 1/2 N 1/2 SE 1/4, Sec. 5.
- 2887-046756; In T. 19 S., R. 27 E., SW 1/4, Sec. 5; In T. 16 S., R. 21 E., N 1/2, Sec. 34.
- 2894-046891; In T. 19 S., R. 24 E., N 1/2 SW 1/4, Sec. 12
- 2895-046892; In T. 23 S., R. 29 E., E 1/2 E 1/2, Sec. 15; NW 1/4; W 1/2 SW 1/4; N 1/2 NE 1/4, Sec. 14; SW 1/4, Sec. 11.

(All G. & S. R. M.)

During the five weeks' period of publication of this notice, or any time thereafter and before final approval and certification, this office will receive protests or contests as to any of the tracts applied for and transmit the same to the General Land Office.

Dated at Phoenix, Arizona, November 20, 1918.

J. L. IRVIN, Register.

SCOTT WHITE, Receiver.

First pub. November 23, 1918.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. Hall's Catarrh Cure has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Cure acts upon the blood on the mucous surfaces, expelling the poison from the blood and healing the diseased portions. After you have taken Hall's Catarrh Cure for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Cure at once and get rid of catarrh. Send for testimonials free.
