This nation, under God, shall have a new birth of freedom, and that government of the people, by the people, for the people, shall not perish from the earth.—Lincoln.

We take as much pride in our printing as do the printing offices in the neighboring cities—give us a trial and be convinced.

Milk In Winter

Why do your cows give less milk in winter than they do in summer? Just because nature does not supply them with grasses and green food. But we have come to the assistance of Dame Nature with B. A. Tomas' stock Remedy which contains the very ingredient that the green feed supplies in season, only, of course, in a more highly concentrated form. We guarantee that this remedy will make your cows give more and better milk with the same feed.

Written by Francis Scott Key, on the night of September 14, 1814, while compelled to watch under the guns of a British ship the bombardment of Fort Mifflin. He watched the flag at the fort through the whole day with an anxiety that can be better felt than described, until darkness prevented him from seeing it. During the night he watched the bombards, and at early dawn his eyes were again greeted by the proudly waving flag of his country.

Miss Letta Barber, who has been teaching school at Alderson has returned to Krebs to make her home here with her sister, Mrs. Frank Settles, since the Alderson schools have closed for the present term.

HERE'S TO OLD GLORY, GOD BLESS HER!

If anyone attempts to haul down the American flag, shoot him on the spot.—John A. Dix.

O folds of white and scarlet! O blue field with your silver stars! May fond eyes welcome you, willing feet follow you, strong hands defend you, warm hearts cherish you, and dying lips give you their blessing! Ours by inheritance, ours by allegiance, ours by affection—long may you float on the free winds of heaven, the emblem of liberty, the hope of the world!—Anon.
