

FROM THE LOW FEVER COUNTRY

Cheering Message From South Georgia to People Subject to Fevers and Other Ills. Try Black-Draught Liver Medicine.

Ocella, Ga.—Mr. J. H. McNeill, a resident of this place, says: "I and my family have been users of Thedford's Black-Draught for years and never yet found its equal for liver and stomach troubles. It is without doubt the best medicine for headache, indigestion and such ills on the market. I firmly believe if a family would use it regularly they would never have any fever, as it keeps the liver active and is so easy to take. We have never had any fever in our family since we began its use, although we live in low country in southern Georgia.

I use it in broken doses for indigestion, gas or sour stomach, but for colds I use a full dose."

When you feel bad all over, stomach not right, bad taste in your mouth, head aches, bilious, etc., try that old, reliable vegetable liver medicine you have heard so much about—Thedford's Black-Draught.

You have read over and over again the statements from users who found it of great relief to them in their suffering. Try Black-Draught for yourself. Why should it not bring you relief, too?

At all druggists.—Adv.

Beyond Pardon.

"An infernal scoundrel over at Sand Mush shot his brother-in-law tuther day," related Gap Johnson of Rumpus Ridge.

"Well, such things will happen," replied a neighbor. "That is about all brothers-in-law 'pear to be created for, and—"

"Yes, but after shooting him this yur demon went and writ a piece of poetry about it for the paper!"—Kansas City Star.

"DANDERINE" FOR FALLING HAIR

Stop dandruff and double beauty of your hair for few cents.

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of "Danderine" at any drug store for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair stops coming out and you can't find any dandruff. Your hair appears soft, glossy and twice as thick and abundant. Try it!

Glittering Highways.

"Why don't you take charge of that man who is acting so queerly?"

"I will in time," answered the bicycle policeman. "I always like to let him enjoy himself for awhile. He imagines he's Sinbad the sailor, and when he sees all the glass in the roadway he thinks he's in the valley of diamonds."

BOSCHEE'S SYRUP

will quiet your cough, soothe the inflammation of a sore throat and lungs, stop irritation in the bronchial tubes, insuring a good night's rest, free from coughing and with easy expectoration in the morning. Made and sold in America for fifty-two years. A wonderful prescription, assisting Nature in building up your general health and throwing off the disease. Especially useful in lung trouble, asthma, croup, bronchitis, etc. For sale in all civilized countries.—Adv.

A man likes to be called a brick, but refer to him as a lump of common clay and he will get mad.

How happy is he that owes nothing but to himself.

DAIRY PROFITS BIG

Splendid Returns From Farms in Western Canada.

Production of Butter and Cheese, Commanding Highest Prices, Increases Steadily—Live-Stock Raisers at Height of Prosperity.

Dairying is rapidly approaching one of the first positions in Western Canada agriculture. This does not apply particularly to any one of the three Western Canada provinces, as they all participate in the distinction.

A report recently published by the Alberta Department of Agriculture shows that in 1918, in spite of adverse conditions of labor and the high cost of feed there was no decline in the industry. It will be interesting to know that the average number of milch cows per farm is 5.8. The total production of creamery butter in the provinces in 1918 was 9,100,000, as against 8,944,000 pounds in 1917.

No better evidence of the growth of Western Canada can be given than by the fact that in ten years the production of butter has increased from 2,500,000 pounds and of cheese from 88,570 pounds to 650,000 pounds. When it is known that in the production of grain so much energy was placed, and through which bank deposits were increased, homes made comfortable, farms carefully tilled, it will be realized that the increase in dairy production has been remarkable. During the past four years the price to the producer increased 75 per cent.

Further evidence of the great interest taken in the dairy and livestock industries is found in recent bull sales. At Edmonton the average price of 141 was \$231.00; at Calgary 784 head were sold, bringing an average price of \$209.13; while at Lacombe 179 bulls brought an average of \$191.34. Sales in Manitoba a few days ago gave fully as good an average, or better. The sales were attended by farmers from all parts of the country. The high prices paid show that good stock was required, and, no matter the price, the farmer had the money to pay for it. As evidence of this we find that at a sale recently held at Carman, Manitoba, buyers were present from all parts of the province, besides some from Saskatchewan points. Five head of Herefords brought \$590 each. A Shorthorn bull was sold for \$700 and registered Shorthorn cows brought \$500 each.

The establishment of creameries and cheese factories throughout the entire West is on the increase, and it will only be within the period of a very few years before Western Canada will occupy a position in the first ranks in the dairy production of the continent.

There is complete government supervision over creameries and cheese factories. The government takes care of the sales, looks after the manufacturer and employs as heads of the institutions highly paid and efficient managers.

It may well be said that the dairy industry in Western Canada is rapidly coming into its own. At present it is but an adjunct to the parent or foremost industry of the country—the growing of grain, but while an adjunct, it is a highly important one. The price of farm lands is gradually increasing, but not in the rapid proportion that has been shown in other countries. This rise in price does not materially increase the cost of production, nor lessen the profits that may be derived from an acre of wheat, oats or barley. The advance in the prices of these grains has more than doubled; the use of tractors has lessened the cost.

The reports from government sources are that the present year will show a great increase in immigration over the past four or five years. The man who has made a tour of inspection of the country will give you the reason. He will speak of the fertile soil, of the good crops, of the attractive climate, of compliance with the law, the splendid school system, the almost perfect social conditions that prevail. He will have visited settlements composed almost solely of Americans, who have built up their homes and villages, who have brought, and are applying, today, their experience in economic land culture as applied to large tracts with the result that he obtains yields on \$30 an acre land equal to that formerly produced on land that he had sold for \$200 an acre. The story of his success he has sent back to his friends in his home state. They in turn follow him, and so it goes on, and immigration to Western Canada increases.—Advertisement.

POULTRY FACTS

COTTONSEED MEAL FOR HENS

Experiments on Government Farm Show It May Be Fed to Chickens With Good Results.

(Prepared by the United States Department of Agriculture.)

Cottonseed meal in rather limited amounts has been fed with excellent results, to a pen of 30 pullets on the experiment farm of the United States department of agriculture. These pullets averaged 5 3/4 eggs each in 20 weeks, from November 1 to March 20, which is practically equal to the best egg yield received during the year from any of the other experimental

A Combination of Utility and Standard Quality.

rations. No bad effects have been noted from this feed, either in the eggs or in the condition of the fowls, and the hens eat it freely. The ration follows:

| Scratch Mixture | Dry Mash |
|----------------------|--------------------------|
| 1 pound cracked corn | 2 pounds cottonseed meal |
| 1 pound wheat | 2 pounds beef scrap |
| 1 pound oats | 4 pounds bran |
| | 6 pounds middlings |
| | 9 pounds corn meal |

The scratch mixture is fed sparingly so that the hens eat about equal parts of this mixture and of the dry mash.

A large per cent of cottonseed meal in a dry mash without any beef scrap has not given satisfactory results. Pullets fed a ration with 33 per cent cottonseed meal averaged only 33.2 eggs apiece in one year. A considerable per cent of these eggs had discolored yolks, with green or brownish-green spots, making them unfit for market.

These results appear to indicate that cottonseed meal can be fed at the rate of about 10 per cent of the mash, or 5 per cent of the total ration, with an equal per cent of beef scrap with excellent results. In sections where cottonseed meal is produced, half of the beef scrap in the mash apparently can be replaced by cottonseed meal with excellent results.

PROFITABLE TO CULL FLOCK

Nest Virginia Raiser Reduces Number of Hens One-Half and Gets as Many Eggs.

(Prepared by the United States Department of Agriculture.)

That it does not pay to keep poultry in the winter—that is, some poultry—has been demonstrated to at least one West Virginia poultry raiser and his neighbors. Last fall he followed the advice of the poultry extension specialists and culled his flock. From a flock of 81 hens he culled out 39 and sent them to the market. To his surprise the remaining 42 birds produced as many eggs as the original flock and his feed bill was nearly halved.

Severe hot weather is hard on little chicks.

Hastily collected eggs for hatching are likely to be disappointing.

A turkey gobble has strong wings, and strong feet; when he gets cross he can do serious damage to children.

Never market good, strong, vigorous pullets, as these will make your early layers.

A good layer is more active and nervous and yet more easily handled than a poor layer.

Sturdy Womanhood is the demand of to-day

In the Health and Strength of the Wives and Mothers Rests the Future Integrity of the Nation.

We must preserve our womanhood. There is need, greater than ever for strong women. Apparently, the race is not as sturdy as formerly or our women are victims of an over-civilization and less able to resist disease.

Thousands suffer and thousands more are destined to suffer from that most insidious of diseases, catarrh. Ninety-seven per cent of the people have catarrh. It is not confined to the head, nose and throat as many suppose. Catarrhal inflammation may attack the stomach, bowels or any portion of the body where there are mucous linings. It is no respecter of persons or position. Everyone is liable to attack.

Mrs. Mary Fricke, 507 Bornman St., Belleville, Ill., was one of its victims. She says: "I have weighed as little as 100 pounds. For years I suffered with my stomach, cramps and severe headaches. After reading Dr. Hartman's Health Book, I decided to try Peruna. The first

bottle brought good results, but as I was bound to get well, I took twelve.

Fifteen years ago, I started with Peruna and I wouldn't be without it. My weight is now around 200 pounds and I am hale and hearty at the age of 63. I can do as much work as my daughter."

The use of Peruna for forty-five years in the American family has proved its worth. If you are sick, do not give up, try Peruna. Write The Peruna Company, Dept. B, Columbus, Ohio, for Dr. Hartman's Health Book. It is free. Peruna is sold everywhere in liquid and tablet form. Insist upon having Dr. Hartman's Famous Peruna Tonic. Ask your dealer for a Peruna Almanac.

"As You Were" Defined.

A British officer who has just returned from German East Africa tells an amusing story of the Askari recruits whom he was training. Mistakes in the drill were frequent, and, in consequence, "As you were" became an order rapped out with increasing severity of expression. Later the officer overheard a conversation between two natives in the squad.

"What does our officer mean by 'As you were'?" inquired one Askari.

"Answer," replied the other, "is a word the Englishman has invented for when he wants to say 'I am sorry, I have made a mistake.'"

Over Particular.

"I understand they are very particular in that dressmaking establishment."

"So particular that they press all their mourning suits with sad irons."

The Wise Man's Comment.

"Women will vote the way their husbands tell them to." "Guess you haven't had much experience with women."

A cat can look at a king without putting up the ante.

In Demand.

"Who is your favorite screen star?"

"A man named Bloeba."

"I never heard of him. What company is he with?"

"He's at the head of his own company, and along about fly time he does a land-office business."—Birmingham Age-Herald.

Catarrh Cannot Be Cured

by LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE will cure catarrh. It is taken internally and acts through the blood on the mucous surfaces of the system. HALL'S CATARRH MEDICINE is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in HALL'S CATARRH MEDICINE is what produces such wonderful results in catarrhal conditions. Druggists 75c. Testimonials free. F. J.
