WAR BEGINS TODAY BETWEEN ITALY AND AUSTRIA

Germany Also Announces Opening of Hostilities

AUSTRIA STRIKES FIRST BLOW

Aviator Crosses Adriatic and Drops Bombs on Outer Defences of Venice.

Rome, via Paris, May 23.—Italy is at war with Austria-Hungary. With the issuance of the general mobilization order the Italian government has issued a proclamation declaring war on Austria, which officially will begin tomorrow.

The formal declaration has been presented to the Austro-Hungarian government by the Italian ambassador, the Duke of Aviano, who has obtained his passports and is leaving Vienna. The Austrian ambassador to Italy, Baron von Macchio, has been given his passports and the German ambassador, Prince von Buelow, has been directed from Berlin to leave Rome with him and a declaration of war by Germany is expected.

When the public became aware of the fact that hesitation was at an end and the Italian government definitely committed to make war for the redemption of the territory inhabited by Italians under the Austrian yoke, the enthusiasm of the people knew no bounds. All parties, even the Socialists, are now united in praise for the stand of the cabinet.

The first armed clash of importance was reported today from Brescia. Austrian troops crossed the frontier through the Montozzo pass, about four miles north of the Tonale pass, on the western border of Tyrol. The patrol was met by a troop of Alpine chamois and forced to retreat after a slight fight. It is not known whether there were any casualties.

The ministers of war and marine today proclaimed all the provinces bordering on Austria and the islands and coast towns of the Adriatic in a state of war, which was equivalent to the establishment of martial law, the step, preceding the formal declaration.

The German ambassador, Prince von Buelow, and the Austrian ambassador, Baron von Macchio, are still in Rome so far as is known. They have waited to the last, doubtless in the hope that some way might be found to prevent a clash of arms. They will be given safe conduct when they do leave and, so far as Germans and Austrians resident in Italy are concerned, every effort has

been made to see them safely out of the country. The army authorities have taken control of the railroads, and all vehicles, wagons and automobiles, as well as all the horses in the kingdom, have been commandeered. The censorship in Italy is much more strict than that in France and England. It has been announced that no newspaper correspondents will be permitted to accompany the army and nothing will be published regarding the operations beyond the official announcements of the war office.

While the general mobilization order issued yesterday will bring about 3,000,000 to the colors within a month it is known that Italy will start the war with about 760,000 first line troops. At the outbreak of the European war the Italian army consisted of 300,000 men, the classes with the colors being those of 1891, 1892 and 1893. After the war started two more classes, including about 220,000 men joined the colors. Various other changes recently made under orders from General Zupelli, the minister of war, brought the strength up to 760,000 at present.

It is likely the army will be under the direct command of General Canera, who led the Italian forces in the conquest of Tripoli, or General Count Cadorna, the chief of the general staff. In case the military operations call for a division of the forces into two units each of these officers will have command of an army. Both of them are said to be soldiers of great ability and full confidence is felt that they will lead the troops of Italy to victory. General Canera is the only living "gerale dell'esercito," a title which is granted only in time of actual war. He won the honor by his Tripoli campaign.

Rumania's entry into the war is now believed to be a question of a day or two, following Italy's declaration. The fears felt in Bucharest that Bulgaria might seize the opportunity to make an attack on Rumania have been allayed by the official declaration that Bulgaria will keep its hands off.

It is not considered improbable, too, that Bulgaria will invade Turkey in the hope of winning back Adrianople, taken from it as a result of the second Balkan war.

Berlin, via London, May 24.—The government announced today that it states of war existed between Germany and Italy. Telegraphic announcements to this effect were sent to the ambassador at Rome and to German consuls in other Italian cities.

Rome, May 24. A decree was issued today prohibiting all secular gatherings. Gen. Cardona, who is en route to the front, will probably take charge of operations with Gen. Caronia second in command.

Austria has the honor of striking the first blow in the war. An aviator from the Austrian base at Pola to day flew over the Adriatic and dropped bombs on the outer defences of Venice. The aviator was driven off. Several other coast cities reported attacks by aviators.

Eighty Austrian and German merchant ships which have been interned in Italian ports since the opening of the war were ordered confiscated. The ships are valued at \$20,000,000 and some of them are the finest in the merchant marine service.

RUSSIANS RESUME EFFORT TO PUSH ENEMY BACK

From Base on Lower San They Begin New Advance Into Galicia

STOP GERMAN-AUSTRIAN DRIVE

Teutonic Armies Halted and Must Now Turn North to Meet Re-Organized Russians.

London, May 23.—Russia has begun her counter-offensive against the Austro-Germans, who drove her third and Carpathian armies back to the San and Danube Rivers, and a new battle is now developing.

The Russians, with strong reinforcements, have crossed the San at that river's confluence with the Vistula and are advancing southward in an effort to outflank the Germans, who crossed the San in the vicinity of Jaroslau. They are also striking hard at the Austrians in Bukovina, but apparently have made no further headway there, nor with their offensive in the Opatow region. The latter offensive, however, was a movement to uncover the German flank in Galicia, which it partly succeeded in doing.

In the Baltic provinces the Germans say they have defeated the Russian northern wing in the region of Shavil, and also from the Duhya and Niemen rivers.

Vienna, May 23.—Russian attacks to the east of Jaroslau and along the upper Danube River, in Galicia, were repulsed yesterday with great losses to the invaders, according to the Austrian official announcement made public here today. The text of the statement follows:

There is no change in the general situation. Russian attacks east of Jaroslau and on the upper Danube were repulsed with great losses to the enemy.

The Russians also failed in a new attempt to cross the Pruth, near Bujana and east of Czernowitz. During battles in the hill country in the region of Kiolec 1,800 Russians were taken prisoner.

MANIAC MURDERS TWO GIRLS NEAR CATSKILL N.Y.

Man Then Went to His Room and Put Bullet in His Heart

NO MOTIVE FOR HIS CRIME

Followed Girls Who Were Taking Sunday Afternoon Walk—Was Sober Industrious Man, But Morose.

Catskill, N. Y., May 23.—When two schoolgirls—Ruth Hammer, 13 years old, daughter of Conrad Hammer, a barber, and Ida Beach, 14, daughter of Erastus Beach—left their homes today for a walk they were followed by Henry Lang, 36, an employe of Henry Hansen, a florist. Lang knew the girls. At Easter he had presented to Miss Hammer a bouquet of flowers, and at various times he had made photographs of her, several of which were found in his rooms. He also had sent flowers to Ida Beach.

It is assumed that the man made some offensive remark to the girls, for both started to run toward their homes. Lang, drawing a revolver, fired several shots. All took effect, a bullet striking each girl in the back, passing through the heart, and cut of the body in front. The bodies were found face downward in the road.

Lang ran to his boarding house, a short distance away, rushed upstairs, locking the door of his room, and in a few minutes afterward fired a bullet into his heart, killing himself instantly. Lang had been regarded as a sober, industrious worker, rather erratic, but inoffensive.

Ida Beach, it was found, had been shot three times—first from the front, the bullet entering the groin, and twice from the rear, one bullet entering the back of the head and another below the shoulder blade and passing through the heart. Only one shot was fired at Miss Hammer.

No motive for the murders is known. Both Ida Beach and Ruth Hammer were leaders among their schoolmates. Ida was a member of the athletic club of the high school. She was noted for her sunny disposition. She was in the first year in the high school. Ruth was in the grammar school.

Of Lang little is known. He came here from Albany a year and a half ago, and got a place with Hansen, the florist. He was a silent and sober sort of man. He seldom mentioned his personal affairs. Before shooting himself he wrote a note reading: "Notify Mrs. James Simmons, 377 Dock Street, care of Branigan, Albany."

Lang was never known to drink, he was frugal in his habits and while here never paid attention to women, save Ida Beach and Ruth Hammer. His attention toward children had been marked.

The girls were slain in a grove northeast of the city.

KEEP THE CHILDREN BRIGHT AND HAPPY

Happy youngsters must be healthy. The digestive organs of children get out of order as readily as do those of their elders, and the result is equally distressing. When the bowels are clogged with an accumulation of refuse from the stomach the child naturally becomes cross and fretful from the discomfort, and is often punished for temper when medical attention is really what is needed.

The next time your child is cross and unplayful, without apparent reason, try giving it a mild laxative. Dr. Caldwell's Syrup Pepsin is a mild, pleasant tasting combination of simple laxative herbs with pepsin, and is especially recommended for children because of its freedom from all opiate or narcotic drugs and its gentle action. It is sold in drug stores everywhere. A free trial bottle can be obtained by writing to Dr. W. B. Caldwell, 452 Washington St., Monticello, Ills.

BEARDED SOLDIERS PROTEST

French Order Against Whiskers Resented on the Firing Line.

Paris, May 23.—The decision of the military authorities that soldiers at the front must be clean shaven, as a hygienic measure, has brought forth a storm of protest from a large number of bearded men on the firing line.

Letters reaching Paris from the front, in which these soldiers give their reasons for objecting to the order, are interspersed with humorous comment inferring that whiskers and mustaches are a necessary part of a fighting man's equipment.
