WEATHER FORECAST For eastern New York and western Vermont, fair tonight and Tuesday. Colder tonight.

ITALIANS WIN VICTORY Carry Summit of Monte San Michele After Hard Fight

Rome, Nov. 20. (via Paris, Nov. 21)—The intense bombardment of the Austrian positions in the Gorizia zone by Italian artillery continues, according to an official statement issued today at the headquarters of the General Staff...

In the Corleone Valley, after an intense artillery preparation, the enemy launched larger forces in an attack on the summit of Monte Colombine, but was repulsed...

Along the Isonzo front the struggle continued vigorously yesterday. In the Zagora sector we took by assault a strong barrier in the Fondo Valley, making thirty-seven prisoners...

In the Gorizia zone the intense bombardment by our artillery continues. We have begun successfully an attack on the heights northeast of Oslava...

On the Carso plateau, after a brilliant assault, our infantry got a solid footing on a portion of the top of Monte San Michele, between the third and fourth summits...

Aerial raids continue. One aviator was brought down by one anti-aircraft gun in the Molegna zone on the plateau northwest of the Arserio. The pilot and observer were found dead...

ARLINGTON IS ELATED Over Success of North District Historical Play

The people of the North District are much pleased with the success of their historical play given on November 16th for the benefit of the school-house...

The accounts have not been entirely completed, as all expenses cannot yet be ascertained, but more than one hundred dollars were taken in from all sources...

The North District people think that perhaps the public may be interested to know that the play was produced with no resources other than can be readily found in any Vermont rural community...

Several of them lubricated their hinges with the oil of joy prior to ten o'clock Saturday evening and issued war orders not sanctioned by any commanding officer...

Bennington presented them with some frankish weather during their short stay, but the men did not seem to mind either wind or rain. They enjoyed themselves on the village streets and in the movie shows Saturday evening and were as well-behaved as a lot of haki boys as ever camped in the village...

TRANSPORT SUNK Five Hundred Soldiers Drown in Sea of Mamora

London, Nov. 22.—A Turkish transport carrying 500 Ottoman troops has been sunk in the sea of Mamora. All on board were drowned.

REJOICING IN BERLIN Report that Central Powers Troops Have Reached Constantinople

Berlin, Nov. 22.—The unofficial report that Austro-German troops had reached the city of Constantinople has created much enthusiasm.

MANY SERB PRISONERS Vienna Claims 20,000 Were Bagged on Saturday

Vienna, Nov. 22.—The war office today announced that 20,000 Serbs were taken prisoners on Saturday.

REMOVAL OF SERB ARMY IS DRIVEN FROM SERBIA

London, Monday, Nov. 22.—By the capture of Novi Bazar, in the Sandjak of that name, announced yesterday, the Austro-German Army of invasion has reached within twenty miles of the Montenegrin frontier...

Our troops with Serbians, sustained heavy assaults on the River Lim on Friday. Our army in the Sandjak of Novi Bazar was obliged to retire on the principal positions of defense.

On the other fronts artillery engagements continued. Several infantry attacks were repulsed.

The Austrian War Office version of the latest operations is contained in the following bulletin, issued yesterday:

Despite the resistance of the strongly entrenched Montenegrins, the Austro-Hungarian Army forced a passage across the Upper Drina, north of Cajnik.

German troops have occupied Novi-pazar. East of Novi-pazar an Austro-Hungarian column repulsed the enemy in the Ibar Valley. The number of prisoners captured yesterday exceeds 2,000.

A Bucharest dispatch to Geneva reports that British troops have arrived at Monastir, and are being reinforced.

Berlin, Nov. 21. (via London.)—The Tagblatt's correspondent at Austrian press headquarters in Serbia, writes that the number of Serbians taken prisoners has reached 80,000, and that more than 500 guns have been captured.

Notwithstanding their heavy losses, he says, the Serbians are fighting bravely.

Berlin, Nov. 21. (by Wireless to Sayville, N. Y.)—The Serbian town of Novi Bazar, which is only twenty-five miles from the Montenegrin frontier, has been taken by the Germans. This announcement was made today by the War Office, which reported also the capture of 4,400 Serbians yesterday.

Discussing the situation in the Balkans, the Overseas News Agency says:

The defeated Serbian Army drags slowly along over snow-covered mountain trails, accompanied by a large number of women, children and aged persons. The Serbians already have crossed the Montenegrin frontier, but inasmuch as Montenegro already is suffering from lack of food, it is extremely difficult to care for the newcomers...

"On account of these conditions increasing numbers of Serbians are returning as deserters into Old Serbia, which is now completely in the hands of the Austro-German forces."

"Special reports from the front say that the number of Serbian prisoners taken last week was 26,000 and that the Serbians lost more than 500 cannon."

"Meanwhile Austrian and German troops are marching through the Sandjak."

"Apparently heavy cannon and ammunition already have arrived at the Gallipoli Peninsula for reinforcement of the Turkish artillery."

SERBS WIN VICTORY Reported to Have Beaten Bulgarians at Leskobot

Paris, Nov. 22.—The Serbs are reported to have scored a victory over the Bulgarians at Leskobot. The attacking army was repulsed with heavy loss.

DOWLIN BLOCK NORTH ADAMS

DYNAMITE BOMB IS PLANTED TO KILL J. D. ARCHBOLD

President of Standard Oil Company Had a Narrow Escape

PROBABLY ANARCHISTS' REVENGE

Four Sticks of Dynamite Placed in Driveway Where Automobile in Passing Would Explode It

New York, Nov. 22.—An attempt to kill John D. Archbold, President of the Standard Oil Company at his estate in Tarrytown, which the police believe was planned by the anarchists and I. W. W. radicals as a protest against the execution of Joseph Hillstrom at Salt Lake City on Friday, was frustrated Saturday afternoon by John Wahlquist, head gardener of the oil magnate's estate...

The dynamite sticks were bound together by a length of wire and were fitted with percussion caps. About this bomb was wrapped a piece of paper much the color of the roadway, which made it inconspicuous. The driveway was the one which Mr. Archbold would use in going to or from his home by automobile. It was believed that the dynamite was placed in the roadway on Friday night. Mr. Archbold, by chance, went for a trip on his yacht, the Vixen, on Saturday, and did not use his automobile.

Investigations which have been made by Mr. Archbold and the police, it was said last night, had brought out much evidence that the attempt to kill Mr. Archbold, was a continuation of the bomb outrages in New York a few months ago, which were staged by the anarchists. These attempts were aimed chiefly at public buildings and churches, but the threat was made at that time to get some of the millionaires.

SOLDIERS LEFT THIS MORNING After Encampment on Soldiers' Home Grounds in March to Ethan Allen

The four troops of cavalry who reached Bennington Saturday noon on their march to Fort Ethan Allen and spent Saturday and Sunday nights encamped on the Soldiers' Home lot broke camp at seven o'clock this morning and continued their march to winter quarters at Essex Junction.

Bennington presented them with some frankish weather during their short stay, but the men did not seem to mind either wind or rain. They enjoyed themselves on the village streets and in the movie shows Saturday evening and were as well-behaved as a lot of haki boys as ever camped in the village.

Several of them lubricated their hinges with the oil of joy prior to ten o'clock Saturday evening and issued war orders not sanctioned by any commanding officer. Patrolman Hurley had to squelch the great American army several times because Bennington is strictly neutral but as most of them had left their implements of havoc in their tents before setting forth for the Bennington sights the Slouch was with us as usual this morning. Large numbers of citizens went to the camp Sunday afternoon and imagined the European war horrors by watching the men enjoying Sunday afternoon naps in the snow-squall. Camp was broken at seven o'clock and they swung on their horses for the remaining 125 miles to Fort Ethan Allen, expecting to arrive there on Friday.

ers, ushers, etc., etc. This is a fact in which North District people take justifiable pride. They also wish to acknowledge their indebtedness to Dr. and Mrs. Russell who took prominent parts in the play; to Mrs. Gilchrist who sold a large number of tickets; to Mr. Adams, Otto Bennett, Mr. Kennedy, and James Canfield who made contributions to the school-house funds; and to Miss Martha Canfield who furnished a considerable amount of the stage furnishings from the stores of old-time articles in her house.

The changes to be made in the school-house have not yet been entirely settled upon; but some of those under discussion are a roofed, open-air play-porch with some simple gymnastic apparatus, a microscope for nature-study; new window-shades; a Victrola and some records, a feped-in school garden, books, etc., etc.

AN INSULT. "What was the trouble between you and that barber?" "I simply asked him what was the damage. I meant the amount due him, but he took it as a reflection on his shaving ability."—Pittsburgh Post.

NICHOLS RESIGNS AS DARTMOUTH PRESIDENT

Announcement Made Yesterday By Board of Trustees

WILL RETURN TO YALE UNIVERSITY

Accepts Invitation to New Chair of Physics—Successor Not Yet Appointed

Boston, Nov. 22.—The retirement of Dr. Ernest Fox Nichols from the presidency of Dartmouth college at the close of the present college year was announced by the board of trustees here yesterday. President Nichols has accepted an invitation to a chair of physics at Yale, thus returning to a field that in the past, he told the trustees, had gratified his every ambition and which he left reluctantly to accept the call to Dartmouth 6 1/2 years ago.

The resignation was tendered at a special meeting of the trustees held in Boston Friday, and was accepted at the time with an expression of deep regret. His successor has not been fixed upon, according to the trustees, who in a statement for the press said that there was plenty of time to act deliberately and after full consideration of the needs of the college and the future policies which it should undertake.

In his letter to the board President Nichols said that when he was called to Hanover the college was passing through a critical period, but that the needs of that earlier time had been largely met. He added:

"There seems therefore no compelling reason why I may not ask you to let me go back to my earlier work, the duties and recompenses of which are in fuller accord with my individual taste and preference. Moreover, I feel a growing conviction that the best work it is in me to do for the college is already done."

The reply of the trustees contains cordial tribute to the services of the president, saying in part: "It had been our hope that Dartmouth college would long continue to enjoy your leadership. Yet we cannot but recognize that the sacrifices which you have already made deserve worthy recognition than the demand that you continue them at serious cost to your own well-being."

Ernest Fox Nichols was born in Leavenworth, Kan., in 1869, and received his early education in the West. At the age of 19 he was graduated from Kansas agricultural college with the degree of B. S. The following year he taught, subsequently by taking up graduate work in mathematics and physics at Cornell university, where he held the Erastus Brooks fellowship.

From 1892 to 1888 Dr. Nichols was professor of physics and astronomy at Colgate university, but for two and a half years of this time he was on leave of absence, studying at the university of Berlin.

In 1898 Dr. Nichols first came to Dartmouth to assume the professorship of physics and reorganized the department. He remained at Dartmouth for five years and before he went to Columbia university to fill the chair of experimental physics, Dartmouth gave him the honorary degree of doctor of science. The year 1904-1905 Dr. Nichols spent at Cambridge, Eng., where he both studied and lectured.

Dr. Nichols became president of Dartmouth in 1905, succeeding Dr. William Jewett Tucker, resigned. He was inaugurated October 15 of that year, and at the ceremony more than 100 colleges were represented. He was a frequent speaker at Dartmouth gatherings in Springfield. He married in 1894, Katherine Williams West of Hamilton, N. Y. They have one daughter.

HUNTERS SHOULD HAVE KILLED 2000 DEER

Complete Returns May Exceed This Number for First Week

MANY BUCKS HAVE FALLEN

Records at Commissioner's Office Show Number of Doe-Killings Is Not Comparatively Large

The 1915 deer season was one week old this morning and in all probability full two thousand of the animals have been killed in the state. It would not be at all surprising to learn that the reports already in the hands of State Commissioner John W. Titcomb will show that more than two thousand have already fallen before the rifles of the hunters.

The commissioner issued a report Friday showing that he had received notifications of 1226 deer. Last year the 1200 mark was not reached until after 14 days of hunting. Of the number reported 528 were bucks and 598 were does, showing that not so many does are being killed as was predicted by many before the season opened.

A large number of reports would naturally be received during Saturday and Sunday, as many of the hunters left the woods with the end of the week, especially those who had been successful. County Game Warden E. S. Higgins on Saturday sent in reports for 21 deer killed in this county and it is likely that the other county wardens had some heavy returns to make.

Washington county leads the list up to date with 254. Windham is second with 239. Windsor reported 132 and Rutland 114.

Charles H. Resequie came into the village Sunday with a good buck. Ward Lyons stated Saturday night that there were six deer at the "Lions den" near the Stamford line, five belonging to members of the party in camp and the sixth owned by another hunter.

A handsome buck shot by Guy T. Murray of Old Bennington at the Hawks camp in Stratton is hanging in one of the village markets.

Frank Delaurier secured a fine buck on the Rich lumber job in the town of Manchester.

The Shafsbury party that went into camp in Jamaica has three deer hanging before the cabin, according to a telephone message from E. N. Hawkins, one of the lucky hunters. Louis Mattison was another member who secured his deer.

Persons who were on the mountain Sunday, state that there was five inches of snow in the vicinity of Woodford city late in the afternoon. Such a condition will materially aid the hunters. As yet it has been almost impossible to track the deer.

LONDON UNIONS REVOLT

Against Shortening Hours When Drinks May Be Sold

London, Nov. 21.—Five hundred delegates to a conference of London trade unionists today passed a resolution pledging themselves to resist to the utmost, "by open revolt if necessary," the regulations lessening the hours during which liquor may be sold to five hours a day, which go into effect on Nov. 25.

The delegates represented the printing trades, postmen, railway and vehicle workers, molders, laborers and the workmen's clubs.

The new regulations were described as an insinuation that workmen were addicted to excessive drinking, which arose from a few isolated cases.

The resolutions said the regulations were a direct incitement to "lay down their tools."

SERBS WIN VICTORY

Reported to Have Beaten Bulgarians at Leskobot

Paris, Nov. 22.—The Serbs are reported to have scored a victory over the Bulgarians at Leskobot. The attacking army was repulsed with heavy loss.
