FRENCH INFANTRY FAILED TO STOP GERMAN ATTACK

Paris Admits Teutons Gained Footing in Advanced Trenches

FOUR ASSAULTS IN ONE DAY

Kaiser's Men Won Their Way to Advanced Positions Through Hail of Shells and Bullets.

London, Feb. 14.—The Germans are fiercely attacking the French positions in the Artois section, as well as in Champagne. In the latter district Berlin reports the capture of a front of about 700 yards, while the French admit that the Germans have gained a footing in some of their advanced trenches near the Tabbre-Somme-Py road.

In Artois, near Hill 140, which lies southwest of Vimy, the German attacks followed one another in quick succession, there being four during the course of the afternoon. Pushing forward in the face of a hail of shells and bullets, the Germans, on their fourth attempt succeeded in entering one of the French first-line trenches which, however, they failed to hold being almost immediately driven out, with considerable losses in dead and wounded, according to Paris.

Northeast of Soissons, a German attack preceded by a bombardment resulted in the capture of a French trench near the Crouy road, but here also they were thrown out, leaving their dead on the field.

On the British end of the line there have been sapping operations and bombardments by both sides.

All around Soissons the German artillery was busy, preparatory to infantry attacks; but the attacks did not eventuate because of the French use of their guns in curtain of fire volleys.

Considerable damage has been done to German positions in the Argonne forest by the French. Artillery duels are in progress in Lorraine and in the Vosges.

CLERGY PENSION PLAN

Biggest Single Enterprise in History of Episcopal Church.

Burlington, Feb. 10.—Though Bishop A. C. A. Hall of the Vermont Episcopal diocese was prevented by illness this week from reading the announcement the church pension fund scheme he authorized the statement that the Vermont diocese is considering the plan. The statement read this week by more than 40 bishops in this country is as follows:

"The Episcopal church has determined to undertake the largest single enterprise in its history, namely, to institute a system of pensions for its retired clergy."

"Before entering upon this policy the church did two things: (1) Made a careful census of the salaries now paid to clergymen, and (2) Had calculations made by expert actuaries of the cost of maintaining a system the permanent success of which there could be no doubt."

"The census of salaries, now completed, shows the following principal facts:

"There are 4420 men in the active service of the Episcopal church in the United States. Their average salary is \$1200 a year. This is not all cash, but includes the value of a house, when provided. More than 2500 of these ministers, over one-half the total number, receive less than \$1500 a year. Only 237 including the 125 Bishops—receive \$4000 or over."

"More than 700 men are paid less than \$1000 and many of these 700 are the older clergy, with very hard tasks. The church now is virtually carrying out a scheme of retirement at the expense of its older men."

"These meagre salaries are paid to clergymen serving what is often ascertained to be the richest church membership in America. These men are expected to have a good education, to dress well, to live and move among people where rents are high, keep open house, always appear cheerful, and preserve their physical vigor. They are men of devotion, who often exercise leadership in their communities, and who must support themselves, their wives, and their children on the salaries paid them, with little or no thought of outside interests."

"The ministers do not complain. But the church itself must be efficient. Efficiency consists partly in being equipped to fight at the top-notch of enthusiasm and vigor. The minister cannot do this, with all his sacrifices, cheerfully made, while he is active, he has no assurance of a competence in his old age."

"Railroad companies seek efficiency and enthusiasm from their men through promises of a pension. It is in the broadest interest of society that every church should do the same."

"The Episcopal church has passed the exact vital statistics of the whole body of her clergy through the laboratory of the best actuaries and has adopted a pension system which is modern and sound."

"It is a contributory system whereby upon the payment by the parish each year of an additional seven per cent speaking roughly of the minister's salary, he will receive on retiring at 65, a pension equal to one-half his average salary during his active service. At death, his widow and minor children will receive annual pensions; if disabled in active service, a pension follows."

"Thus in the full tide of active service he can throw himself into his work with the complete abandonment of an officer who knows that whatever happens to him, his dear ones will be cared for, and he, if living to old age, will respect to his dignity and self-respect."

"In order to take care of those who should be pensioned immediately, and to give the contributory plan time to move permanently on its own wheels, an initial sum of \$5,000,000 is to be raised."

"To direct the task of obtaining this reserve fund, Bishop Lawrence of Massachusetts will, during 1916, suspend active work in his own diocese and devote himself wholly to this great enterprise."

"The co-operation of leading life insurance officers and business men has been obtained to establish the scheme. Local committees will be appointed throughout the United States. To get this splendid undertaking on its feet will be the supreme task of the Episcopal church in 1916."

SOME FAST BASKETBALL

Two Games at the "Y" Saturday Night Won by Bennington.

The first and second basketball teams of the Y. M. C. A. played two games of basketball at the local gym Saturday night that gave spectators their money's worth. In the contest with the Lafayettees of Pittsfield the result was 43 to 23 and with St. Joseph's school of North Adams the final score stood at 19 to 17.

There has been much comment over rough work at the games on past Saturday nights, but it is no easy matter for a team of heavy men to play the game on so small a floor as the local gym affords without more or less bumps and bruises. On the whole, considering the excitement of such a contest, the playing was swift and clean and shows the local boys in excellent trim. Buss was knocked down a couple of times but he is a game player and despite a bump that put him temporarily out of business, went back into the game and played like a bantam.

The players on the last team were Jenney, Hollister, Colburn, Hitchcock and Buss. The second team was made up of Paddock, McGuire, Friedman, Morrissey, Waldron and Dragon. Oscar Elwell was referee and a good-sized crowd attended.

MRS. S. R. WILCOX DEAD

Life-Long Bennington Resident Passed Away Saturday Afternoon.

Mrs. S. R. Wilcox, wife of Dr. Wilcox of Main street passed away at 1:30 o'clock Saturday afternoon of progressive paresis. She was 72 years old. Mrs. Wilcox passed away, however, and her husband is so improved as to be able to be about again.

Mrs. Wilcox was a native of Bennington, born in the east part of the town. Her maiden name was Caroline E. Fisk and she was the daughter of John D. Fisk and Emily Olin Fisk. She married Dr. Wilcox October 25th, 1864 and in 1914 they passed their golden wedding anniversary with all their children and grandchildren present.

Four daughters were born to them, all of whom survive: Miss Emma M. Wilcox of Boston, Mrs. E. B. Pierce of Howell, Mich., Mrs. R. L. Davis of Hudson Falls, N. Y., and Mrs. H. R. Buell of Perry, N. Y.

Mrs. Wilcox was a life-long member of the Baptist church, was a sincere Christian woman, respected and esteemed by all who knew her. She leaves a large circle of relatives and friends saddened by her passing.

He was employed by the Stark Paper Co. for 35 years and was considered an industrious and trustworthy employee. He was a charter member of the J. G. McCullough Engine Co. ALARMING PNEUMONIA DEATH RATE IS WARNING AGAINST NEGLECT OF GOLDS

More Than Half the Number of Cases Results Fatally

Figures that have just been compiled by experts show that almost half the number of pneumonia cases end in death. This is the pneumonia season, and neglect of colds is in most cases the origin of the disease. When you take "cough balms" or "syrups" containing deadly drugs that weaken the body, you are inviting pneumonia. Without these drugs, Father John's Medicine treats colds and prevents pneumonia. It is composed of pure food elements which nourish and build up the body, giving strength to ward off the disease. It is not a patent medicine, but a physician's prescription: 50 years in use. Because of its gentle laxative effect Father John's Medicine drives the impurities out of the system and enables each organ to do its work.

It is in the getting well stage after a cold or the grip, that the greatest danger lies. At this time, in order to regain the strength you have lost you need a wholesome pure food medicine such as Father John's Medicine, the nourishing elements of which are easily taken up by the system. When you ask for Father John's Medicine be sure you get what you call for.

ADMIRAL CHARNER TORPEDOED OFF SYRIAN COAST

French Ministry of Marine Admits Loss of Cruiser

BUT ONE SURVIVOR OUT OF 375

Warship Had Been Missing Since February 8 When Berlin Reported Her Destruction.

Paris, Feb. 14.—The ministry of marine today issued a statement to the effect that the cruiser Admiral Charner had been sunk off the Syrian coast with the loss of 374 lives.

The Charner, which was a vessel of 4680 tons, carried a crew of 375 officers and men and the marine ministry's statement says that only one man was saved.

No word has been received from the Admiral Charner since February 8 when a dispatch from Berlin stated that the French warship had been torpedoed by a submarine in the eastern Mediterranean.

The following official statement was given out here today: The ministry of marine fears for the fate of the cruiser Admiral Charner, which has been patrolling the Syrian coast. No word has been received from the cruiser since February 8 when it was reported the Admiral Charner had been sunk in the Mediterranean.

The Admiral Charner, under normal conditions, carried a crew of 370. It was 347 feet long, 46 feet beam, and displaced 4,680 tons. It was armed with two 7.6-inch guns in turrets forward and aft, six 5.5-inch guns, four three-pounders, six one-pounders and four torpedo tubes. It was laid down in 1889.

GRAHAME-WHITE HURT

Famous British Aviator Recently Commissioned a Lieutenant.

London, Feb. 14.—Claude Grahame-White, the British aviator, has been wounded gravely. No details have been obtained at Hazebrock, France. He was commissioned lieutenant last month. Lieut. Grahame-White, one of the best-known aviators, won international prominence several years ago by his spectacular flights in England and America. He enlisted in the naval corps at the outbreak of the war and was appointed temporary flight commander. A year ago he had a narrow escape from death. After participating in a raid by a squadron of aeroplanes on Belgian towns he fell into the sea, but was picked up by a cruiser. Lieut. Grahame-White's wife, formerly Miss Dorothy Taylor of New York, obtained last month a decree for the restitution of her conjugal rights, an action which in England is a preliminary step to a suit for divorce.
