

Even a King can't dictate what you should like or not like

If it so happened that Fatimas were originally "Made and blended for the King of Whatiz"—would that fact prove that you were going to like Fatimas best? It would not.

A man's taste is his own. A cigarette that might delight some old potentate's palate would not necessarily please you.

That's why we leave Fatimas up to your taste.

But there is something more than good taste that is mighty important to you.

No matter how good-tasting a cigarette may be—it can only be the SENSIBLE cigarette for you if it is comfortable, too.

Its pure tobacco must be cool and comfortable to your throat at all times. And it must leave you feeling fine and fit at the end of a hard-smoking day.

Will it do all that?

Then, it is the sensible cigarette for YOU.

There are thousands and thousands of men who believe that Fatima is the most sensible cigarette there is.

Try them yourself. You may discover—as these thousands of other men have—that Fatimas

have just the cool, mellow taste that you've been longing for in a cigarette.

You may find that Fatimas have the kind of mildness which allows you to smoke more of them than you might of other cigarettes.

You may find that Fatimas offer you a little more satisfaction in every puff than you ever before found in any other cigarette.

Buy your trial package of Fatimas and test them today.

A local person interested in the Sunday auto traffic through Bennington made the statement this morning that over 250 automobiles went over the highway between the upper and lower village between ten o'clock Sunday morning and twilight. This statement was preface to a decided protest against the condition of the roadway between the two places. The summer traffic is becoming so heavy that the street is becoming well cut up and disconcerting bumps mark the motorist's advent into Bennington from the hill. A little leveling of the bumps and deposit of the material in the low spots would go far toward alleviating this unpleasant reception and it has been suggested that the Board of Trade look into the matter and see what can be done.

HUNTING FOR MECHANICS

Representative From New Jersey Concern on Lookout for Help.

R. M. Bascombe, who was at the Brooks house yesterday afternoon and last night securing mechanics for the Simplex Auto and Aero Co., of New Brunswick, N. J., is having some interesting experiences in landing men who are already employed in other machine shops.

The concern he represents manufactures the Simplex automobile, one of the most expensive of the high grade automobiles. The company has been re-organized and capitalized and is to greatly increase the output of these machines besides making aero engines under its own patents.

Mr. Bascombe says that the engine the company is manufacturing is the best engine for aeroplane service ever devised and that the government has

Alexander Drysdale & Son

The store that put the right way in Subway

closed a contract with the concern by which all the engines for the government aeroplanes are to be made there.

At Windsor, where he said he had signed 200 mechanics, he was ordered out of the hotel which is owned by the machine company and did business on the curbing, the agreements between the men and the company in those instances being signed in pencil. An attempt was made to have him arrested on the charge of conducting an unlicensed employment bureau, but as no money transaction was involved, he said the attempt fell through.

Somewhat similar experiences he says he had in Claremont, N. H., where he secured a large number of men. He came from there to Brattleboro yesterday afternoon and claimed to have signed a number of men in the afternoon and more in the evening.—Brattleboro Reformer.
