

"FRUIT-A-TIVES"?

The Simple Juices Of Apples, Oranges, Figs and Prunes Transformed Into A Medicine Which Relieves All Diseases Of Stomach, Liver, Kidneys and Skin.

The value of fruit juices, in preventing and relieving disease, has been recognized for centuries.

The objections to using fresh fruit as a cure for disease are, 1st. the high cost of fruit, particularly in winter; 2nd, the difficulty of eating enough fruit to do any permanent good. Some years ago, however, a prominent English physician in Ottawa, Canada, began a series of experiments in an effort to find some practical and economical way to utilize the valuable medicinal properties of fruit.

He found that the juice is the cumulative part of fruit. Now, fruit juice consists of 91 parts water and 9 parts solid matter. Of the solid matter found in the juice, 1 part is an exceedingly bitter substance which is the active or medicinal agent. After exhaustive tests, this physician learned that apples, oranges, figs and prunes give the best results—that these four fruits contain all the medicinal principles of all other fruits, and contain a higher percentage of this bitter principle. He combined these four fruit juices and then forced an additional atom of the bitter substance (which he secured from the orange peel) into the juices in such a way that a new substance was formed. This new substance was many times more active medicinally than the original bitter substance.

It is this new compound—combined with tonics and antiseptics and made into tablets—that is everywhere known as "FRUIT-A-TIVES". It is the only medicine in the world made from fruit juices, and has proved its value in thousands and thousands of cases of Indigestion, Dyspepsia, Torpid Liver, Constipation, Kidney and Bladder Troubles, Skin Diseases, Rheumatism, Neuralgia, Chronic Headaches, and troubles arising from a disordered condition of the Stomach, Liver, Bowels, Kidneys and Skin.

"FRUIT-A-TIVES" is now made in the United States and may be had at druggists or general stores at 50c. a box, 6 for \$2.50, trial size 25c, or will be sent postpaid on receipt of price by Fruit-a-tives Limited, Ogdensburg, New York.

MEN AND BOYS WANTED

To work in furniture factory
General Wood Workers, Cabinet
Makers, finishers and Laborers.

Both day work and piece work
Steady work and good pay. Write
or call at once.

H. T. CUSHMAN Mfg. Co.,
North Bennington, Vt.

SOUTH SHAFTSBURY

There will be Sunday school Sunday for all classes.

Miss Florence Humphreys began teaching at Riverside this week.

The Lead-a-Hand will meet Monday evening with Mrs. Clifford H. Hawkins.

John Millington and Edward White are attending the automobile races in New York.

Mrs. N. D. Bottum spent Wednesday with Mrs. Ralph Bottum in Center Shaftsbury.

Miss Bessie Niles of West Shaftsbury spent Thursday with her sister, Mrs. N. D. Bottum.

Miss Camilla Cole began teaching at the Cobblestone School at Bennington Falls this week.

Mrs. Laurence Schroder of New York has been visiting at David B. Hill's for two weeks.

Mr. and Mrs. Newman Hawkins, have returned from New York where they visited their son George.

Mrs. J. D. Whittier went to Burlington Thursday to join Mr. Whittier who has been spending the week in that city.

Miss Elizabeth Hard went to Hartford, Conn., this week with Mrs. J. B. Wilbur where she is to spend some time.

Brooks Dwinell of New York has been spending the past two months with his brother, O. C. Dwinell at David B. Hill's.

Miss Florence Whitman of Shaftsbury and Miss Molly Pierce of Center Shaftsbury are staying at J. D. Whittier's during the absence of Mr. and Mrs. Whittier.

The schools here will open Monday with the following teachers: Miss Bessie Niles, primary; Miss Clara Tanager, intermediate; Miss Margaret Hyde, grammar room.

B. T. McDonnell, wife and children, who have been visiting at Frank Montgomery's and Stocum Lane's the past few days, returned to their home in Danby Wednesday evening.

At the meeting held at the church Thursday evening it was decided to have the entertainment course. There are to be five entertainments and the season tickets will be one dollar.

George Broadhurst who is playing with the Billy Hall Musical Comedy company at the Bennington opera house this week has been in town to visit his parents, Mr. and Mrs. Oscar Broadhurst.

ARLINGTON

Herbert A. Hullett, the Republican nominee of Arlington to the general assembly, has filed with the Town Clerk his statement of expense. It contains one item: One two cent stamp used in mailing his formal assent to the use of his name.

Simplify the Primary.

The success of the new direct primary law, imperfect as it was, is emphasized by the great vote cast last week.

Now let it be perfected by the representatives of the people, not nullified by the politicians.

In Vermont, just as in every other state, the politicians, when they saw the people would have a primary law, threw just as many "wrenches" into the cog wheels, as possible. They saw to it that it was made expensive, cumbersome, blind, etc., so that it would prove unpopular.

It has survived all these obstacles. Now let it be simplified.

How?

By making the ballots smaller, using no more paper than is absolutely needed.

By making it easier for candidates to get their names on the ballots.

By allowing the people to put any man's name on the ballot without his written assent. F. G. Fleetwood, Esq., would have been named for senator in the county but for that clause in the law. Not that a first-class man has not been nominated, but the people wanted Fleetwood.

He refused his assent. He could not have refused to serve had the people put his name on the official ballot and nominated him. No man could refuse such a call to duty and service.

By having a separate ballot for county senators and for lieutenant governor. These are the most important of all and the people ought to have a chance to vote directly and only for these. Fifteen men and the lieutenant governor can defeat any desired legislation. It ought not to be possible for political manipulation to nominate a majority of the Senate. But into the state and county tickets

A Perfect Complexion

Your social duties demand that you look your best and in good taste at all times. Ladies of Society for nearly three-quarters of a century have used

Gouraud's Oriental Cream
to obtain the perfect complexion. It purifies and beautifies. The identical face cream. Non-greasy. It does not get detected.
Send one for trial size.
VERD T. HOPKINS & SON, New York City

WANTED—Pupil Nurses, male and female, wanted at the Taunton State Hospital Training School for Nurses. For particulars, address Dr. Arthur V. Goss, Supt., Taunton State Hospital, Taunton, Mass. 841f

Ocean to Ocean Record Broken By HUDSON SUPER-SIX

Broken by 15 Hours

The Winner of a Hundred Records Wins the Greatest One of All

The most coveted record in America has always been the Transcontinental Record. Five years ago a car became famous by making the trip from San Francisco to New York in 10 days and 15 hours. Last May, in glaring headlines, the newspapers announced a sensational record of 7 days, 11 hours and 53 minutes—made by a famous Eight. That record—then considered unbeatable—was later beaten by another car.

And now the Hudson Super-Six makes the trip in 5 days, 3 hours and 31 minutes. Breaking last spring's best record by more than two days. Breaking the best record made since then by 14 hours and 59 minutes.

The Winner in Every Great Test

The Hudson Super-Six has now won every record it has sought.

It has won every stock car record from one to 100 miles.

It has made faster speed with a stock motor than was ever made before—102.56 miles per hour.

It has broken all records for 24 hours—1819 miles. That is 52 per cent farther than any stock motored car ever went in that time before.

It won the Pike's Peak Hill Climb—the greatest hill-climbing test ever held—against 20 great cars specially built for the climb.

And now, as a crowning achievement, it breaks the record which means more than all—the Transcontinental record.

All Due to Endurance

The Hudson Super-Six now holds all important records. All the records save those made with special racing cars such as buyers never get. And practically all of

HUDSON MOTOR CAR COMPANY, DETROIT, MICHIGAN

BENNINGTON GARAGE

E. W. WILLIAMS

NORTH STREET

those records have been won by the Super-Six endurance. Cars with more power and cars with more speed have sought for nearly all these records. But the Super-Six won because it kept its pace. In test after test the Super-Six has been the only car that did not stop.

In this ocean to ocean trip of 3,476 miles, across mountains and deserts—mounting at one time two miles above sea level—the Super-Six averaged for the whole trip 28.14 miles per hour. Yet it went through 350 towns and cities under speed restrictions.

Friction Almost Nil

That is the great fact about the Hudson Super-Six. Its chiefest supremacy lies in endurance. The Super-Six invention added 80 per cent to our motor's efficiency, solely by reducing vibration. It reduced motor friction almost to nil.

By nearly ending friction it has nearly ended wear. And all these world's records are due mainly to that fact. The motor is small and light. It is similar in size to scores of light sixes. But the Super-Six invention has made it 80 per cent efficient. It has made it fully twice as enduring.

You will never want your car to do what the Super-Six has done. But you do want the car which shows this endurance. And every month's use will increase your regret if you fail to get the Super-Six.

FOR SALE

FOR SALE—Farm 100 acres, 2 miles from North Bennington, Vt., on good road. Fine house, new horse barn, both slate roofs, cow barn, is keeping seventeen cows and four horses, plenty of fruit. Ralph H. White, Aet., North Bennington, Vt. Price \$1500. 971f

little attention is given to the standing character and past affiliations of these candidates. This enables the politicians and interests to control the situation and defeat in advance any objectionable legislation, by allowing only one nomination to any city or town for same office. Burlington has all four Senators this year.—Morrisville Messenger.

Farmers and Labor Unions

It seems to be generally conceded that Mr. Wilson has the better chance of controlling the vote of organized labor in the coming election. Mr. Hughes is unquestionably handicapped in that direction by the Barbury haters' decision, and President Wilson's position is strengthened by the Adamson bill. But it is a common belief that what Mr. Wilson gains with labor he will lose among the farmers, whose knowledge of the eight-hour shift is based on working about two such shifts per day during the busy season. The president of the farmers' union pointed out that the section men were the ones who really needed consideration from the railroads, and estimated that the employees of the traffic department were already doing very well. A farmer who pays twenty-five dollars a month for labor, can't understand why a railroad should pay \$125 a month, and then be asked to pay more. And the farmers know they pay a considerable portion of the railway revenues, and that they will have opportunity to pay their portion of the increase brought about by the Adamson bill. The farmers and the unions, viewed in this light, don't seem to have much in common. The section will give a clearer vision of whether this is the correct vision.

In the meantime, however, comes evidence that farmers' unions and farmers and organized labor are to hold a joint convention for the purpose of bringing about certain legislation desired by both. Both unions want immunity from the workings of the anti-trust law, and will seek a measure similar to the Clayton act to show they are not trust-bait.

Also, in Illinois, and probably the rule applies to the country at large, both want the same sort of vocational education, and both will work for an initiative and referendum law. On these

three points they agree, no matter how different their views on other matters, and so they are found working together, about as strange a coalition as one can imagine. If this coalition applied to presidential elections, it might give the Republicans some cause for uneasiness, but there is no reason to believe that it does.—Athens-Globe.

ALFALFA WEEVIL IN VERMONT

Has Been Discovered on Farm of Wright Fay of Jericho.

Burlington, Sept. 28.—J. W. Dana, county agricultural agent, has located the alfalfa weevil on the farm of Wright Fay of Jericho. This is the first time the weevil has been discovered east of Indiana, and as there are 2,000 acres of alfalfa in Vermont it is feared that the pest will extend its operations.

GOOD NEWS

Many Bennington Readers Have Heard It and Profited Thereby.

"Good news travels fast," and the many bad back sufferers in Bennington are glad to learn where relief may be found. Many a lame, weak and aching back is had no more, thanks to Doan's Kidney Pills. Our citizens are telling the good news of their experience with this tested remedy. Here is an example worth reading:

Mrs. Geo. Cooleage, 112 Putnam St., Bennington, says: "Of and on for several years I have had attacks of backache and other kidney disorders. My back becomes very painful at times and when I stoop over, sharp pains shoot through the small of my back. The action of my kidneys is irregular also. Sometimes I have dizzy spells when black spots and fiery flashes appear before my eyes. I feel tired and run down, especially when I get up mornings. I use Doan's Kidney Pills at these times and they greatly relieve me."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Cooleage uses. Foster-Milburn Co., Props., Buffalo, N. Y.

T. W. MOLONEY ILL

Specialists Say Rutland Attorney Must Take Long Rest.

Attorney and Mrs. T. W. Moloney of Rutland have returned from Montreal, where Mr. Moloney went to consult specialists. Prominent physicians in the Canadian city, who have been studying the case for the last week, say Mr. Moloney is suffering with a nervous trouble, which can be remedied with proper care and treatment. It is probable he will be obliged to be out of his office for a year or more. The physicians examining the Rutland lawyer agreed there was no organic trouble.
