### Worms -- A Danger to Children

No gain in a child's health and strength is possible until all worms are removed.

Signs of worms are: De-  
ranged stomach, swollen  
upper lip, sour stomach,  
offensive breath, hard and  
full belly with occasional  
eructings and pains about  
the navel, pale face of  
lead, flat eyes heavy and dull,  
twitching eyelids, itching of the nose,  
itching of the rectum, short dry cough,  
grinding of the teeth, little red points  
sticking out on tongue, starting during  
sleep, slow fever. If you see any of  
these symptoms in your child don't  
lose another minute, but get a bottle  
of Dr. True's Elixir, the Family Laxa-  
tive and Worm Expeller.

Mrs. Narrat of Houston, Texas,  
writes: "I would not be without Dr.  
True's Elixir in my home." No better  
Laxative made for young or old. At  
all dealers, 35c, 50c and \$1. Advice  
free.

get a good garment.

### TO ENCIRCLE THE COUNTRY.

Representative Stephens introduces  
Bill For National Highway.

A national highway 10,000 miles long,  
circling the United States and running  
strategically near the Pacific, Atlantic  
and gulf coasts, as well as our north-  
ern and southern border lines, will be  
constructed and maintained by the fed-  
eral government if the bill introduced  
in congress by Representative William  
D. Stephens of California is adopted.

It is proposed that the new highway,  
which mainly is to be constructed for  
national defense, shall cross the United  
States, running eastward by the most  
practical route through California,  
Arizona, New Mexico and the gulf  
states to Jacksonville, Fla.; thence  
north through the Atlantic coast states  
to Portland, Me. Commencing again  
at New York city, the great roadway  
would run westward through New  
York, Pennsylvania, Ohio and Indiana  
to Chicago; thence north to St. Paul  
and west through the Dakotas, Mon-  
tana, Idaho, Washington and at Seat-  
tle branch south the length of the Pa-  
cific coast to San Diego.

It is also proposed to bind the inland  
points to the main highway now form-  
ed or contemplated. Every city in this  
part of the country would be on either  
a main or branch road connecting with  
the great highways which already span  
the country from the Atlantic to the  
Pacific. The various sections through  
which the proposed national highway  
would run can be relied upon to give  
their state and county highway sys-  
tems already constructed to the gov-  
ernment, providing the latter main-  
tains and extends these roads.

It is estimated that a bond issue of  
\$100,000,000 will be ample to maintain  
the roads already built and to con-  
struct such links as will be needed in  
the next fifty years. The supervision  
of the roads will be in the hands of the  
United States engineers and will pro-  
vide work for at least 100,000 Ameri-  
can citizens, who must be physically  
eligible for active service in the army.

#### Wit and Humor.

The quality of wit exists wherever  
imagination percolates through the un-  
derstanding; the sediment is the grain  
gold of wit. But the quality of humor,  
depending upon various moral strains,  
exists only wherever a broad imagina-  
tion is combined with a sweet and tol-  
erant moral sense that is devoid of  
malice and all uncharitableness and at  
peace with all mankind. A petulant  
egotism may exist with wit, but never  
with humor. \* \* \* Where there is  
no sense of incongruity there can be no  
sense of humor. That sense is man's  
expedient to make his mortality endur-  
able. The laughter of man is the ex-  
ultation of God.--John Weiss.
