

THE OLD DOMINION

Latest News Gleaned from All Over the State.

The sales of loose tobacco on the Lynchburg market continue to be light, though the offerings were slightly in excess of what they were the preceding week.

In Edinburg a fire started in the store of J. F. Holtzman & Co., resulting in the total destruction of the stock of merchandise, building and two dwellings owned by Mrs. Julia Wightman.

A report from Isle of Wight county, says Henry Cowper, a young white man, met death in a mysterious manner in gram over night. The negroes say Cowper was the Creek. Cowper and several negroes were on the sloop Walker Pe-grew to sleep on the deck.

While returning to her home from the Second Baptist Church at night Mrs. J. H. Scott, of Newport News, was attacked and bitten by a large-sized hoop snake which rolled out of the grass of a vacant lot in the vicinity of Wickham avenue and Twenty-sixth street.

William E. Hoffman, for the last 12 years treasurer of Berryville, whose bonding company recently had issued an injunction restraining him from collecting any more taxes on account of an alleged shortage in his accounts of nearly \$3,000, is said to have made up the deficiency except \$300 and resigned.

Harry Bell, a prominent farmer of Clarke county, was violently thrown from his team and badly cut and bruised, the horse having become frightened at an automobile speeding by.

The dwelling belonging to Ernest L. Painter, located near Alma, Page county, eight miles south of Luray, has just been destroyed by fire, together with all the household effects.

A live alligator was found among some stones on the Maryland shore of the Potomac River, near Alexandria. The reptile is supposed to have escaped from a tank at Washington.

H. P. Reigart, formerly purchasing agent of the St. Joseph and Grand Island Railway, with headquarters at St. Joseph, Mo., has been appointed purchasing agent for the Edgewater Railway, with headquarters in Norfolk.

A tent in use by the Presbyterian Church at Schoolfield, just west of Danville, was partially destroyed by fire. The fire was discovered in time to save part of the canvas and to rescue the organ, altar, books and most of the seats.

Miss Jane Hall, daughter of Mr. Chas. Hall, of Northumberland, was run over by an unknown person riding a buggy at Heathsville about 10 o'clock. Miss Maggie Shirley, who was with Miss Hall when the accident occurred, escaped injury. Miss Hall was taken to the home of her brother-in-law, Mr. Carroll Rowe. She was unconscious, and a physician was sent for.

The home of J. P. Giddings, of Rocky Mount, was again entered by some miscreant, presumably the same person who on the night previous cut off the hair of Miss Maud Giddings. This time the mysterious visitor chloroformed both her and her younger sister and cut off the hair of the other girl and scattered it all over the porch.

Because of two deaths and four cases of smallpox and varioloid in the north-western section of Richmond county, as Oregon Hill, a general vaccination is being enforced there and an appropriation has been made for a hospital. The Health Department announces that all precautions have been taken and there is no danger of an epidemic. The infected district is guarded and the houses where there have been or are cases are quarantined.

Alfred Hughes, a well-to-do farmer, who resided near Piney Flats, and who had been missing for several days, was found dead on his farm with his neck broken. It is thought he fell while carrying a heavy piece of timber and met death in this way.

Mrs. Bertie Wills, wife of Thomas J. Wills, a prominent wholesale merchant of Charlottesville, died of blood poisoning by contracting a pimple on her face some time ago. Mrs. Wills was the daughter of the late John B. Townley, a prominent farmer of Red Hill, Albemarle county. She is survived by her husband and three children.

Mr. Nathan Payne, Jr., of Buckingham, the engineer at the Alberne soapstone quarry, was killed in a wreck on the Alberne and Nelson Railroad near Esmont. The wreck was caused by a washout. There were eight others injured in the wreck, though not seriously.

A. J. Grubbs, of Danville, who was seriously injured by being struck by a train at Drake's Branch on July 16, and who was reported to have died, is alive and has returned to Drake's Branch from Danville. Mr. Grubbs, though still suffering from the wound on his head, is considered to be out of danger.

William Lyons, a printer, of Petersburg, attempted to drown himself and a little child in the dock at Richmond. Holding the boy tightly by the hand, Lyons leaped about to leap into the water, when a policeman Tolier seized him, and had no idea what he was doing.

COMMERCIAL REVIEW.

R. G. Dun & Co.'s "Weekly Review of Trade" says:

"Commercial tendencies are still in the direction of improvement, although progress is hampered by some inflation of prices for the raw materials of textile and footwear industries. Confidence expands as the crops are secured, each day putting a large quantity of grain beyond danger, and making sensational rumors of loss less effective. Weather conditions have been favorable for retail distribution, reduced stocks in the hands of dealers being reflected in enlarged wholesale and jobbing demands. Evidences of faith in the future are increasing, more disposition being shown to provide for requirements beyond immediate consumption."

"Resumption of work at several steel plants testifies to the brevity of the mid-summer period of idleness. Confidence in the future is so general in this industry that it would be most surprising if expected activity failed to materialize."

"Failures this week numbered 214 in the United States, against 220 last year, and 27 in Canada, compared with 18 a year ago."

"Bradstreet's says: 'The summer shutdown of glass factories will be the shortest reported in many years. Building is more active throughout the country, confirming the most optimistic predictions made earlier in the season.'"

"Wheat, including flour, exports for the week ending July 27, are 864,146 bushels, against 705,329 last week; 1,613,205 this week last year, 3,101,442 in 1903, and 4,388,534 in 1902. Corn exports for the week are 773,621 bushels, against 1,103,470 last week, 415,844 a year ago, 928,839 in 1903, and 285,000 in 1902."

The United States government is having seven motor boats built for the life-saving service. A sunfish weighing over 1,000 pounds was caught last week at Santa Barbara, Cal. It was 12 feet long.

Household Matters

Weg and Cheese Scramble. Break five eggs into a saucepan and quickly add a cupful of grated cheese. Mix this lightly with a fork, and when done serve with a garnish of toast cut triangularly.

Sweet Potato Soups. Mash sweet potatoes (boiled) until there are four cupfuls, and mix into quart of flour in which has been sifted two teaspoonfuls of baking powder and one-half teaspoonful of salt. Mix this with milk enough to make a dough, turn out on to the board, roll and cut in eight pieces. Bake in a quick oven for ten minutes.

Plum Pudding Glace. Plum pudding glace is the recipe of a famous chef. It is an ice cream which has all the appearance of a royal plum pudding. To make it a dark chocolate cream is filled with raisins, pieces of citron, candied cherries, apricots, etc. The ice cream is then packed in a pudding mould surrounded by ice, and when formed it is served with a rich sauce prepared with whipped cream.

Fruit Muffins. Mix two and one-half cupfuls of flour, sifted three times, with four tablespoonfuls of sugar, and rub in three dessertspoonfuls of butter; add one cupful of milk, one-half teaspoonful of salt and one cupful of fruit—berries, chopped pineapple, raisins or any kind desired. Pour the mixture into buttered baking pans and bake half an hour.

Green Peppers and Chicken. Peppers cut in rings with dull scissors and combined with lettuce and French dressing are as good a simple salad as one could wish for. A delicious made-over dish of chicken is constructed with the aid of green peppers. Cut off the tops of the peppers and scoop out the membrane. Parboil for about five minutes. Cut up the chicken, mix with boiled rice, and fill the peppers with the mixture. Place in a baking pan and pour in enough stock or water, immerse the peppers half way and bake for half an hour.

Banana Pie. The Woman's Home Companion furnishes the following: Free enough bananas from skin and coarse threads to fill a cup when the pulp is pressed through a sieve or ricer. To the pulp add a beaten egg, one-half cupful of sugar, one cracker powdered fine, one-half teaspoonful of salt, one-third of a teaspoonful of cinnamon, two tablespoonfuls of molasses, one-third of a cupful of cream and one-half cupful of milk, mix thoroughly, and bake until firm in a pie pan lined with pastry or for squash pie.

HINTS FOR THE HOUSEKEEPER

Clothes may be boiled in a rusty boiler without harm if first placed in a bag.

Gas globes break very readily when the screws holding them are screwed too tight.

Stove polish mixed with turpentine makes a brighter polish and one apt to last longer.

Before boiling milk rinse out the saucepan with a little hot water; it will prevent the milk sticking to the bottom of the pan.

To keep things bright wash them well with strong hot soda and water, and when dry polish with a cloth and a little powdered whiting.

Lace that promises not to bear a necessary washing can be basted onto some thin material and then cleaned with better chances of success.

Apples fresh from the trees should never be eaten without first being washed, as they are in a good position to collect the dust and germs of the air.

To soften the beefsteak smear it with a couple of teaspoonfuls of salad oil, place between two plates and leave for a few hours. This works wonders in softening the fibre.

Potato peelings, if dried in the oven, are very useful for fire lighting. If sufficiently abundant they may entirely take the place of wood, but in any case they will economize it.

When making jam, if a clean half dollar is placed in the bottom of the preserving pan the fruit will not require stirring, and it will keep beautifully whole. The coin keeps it stirred by continually moving while the water is boiling.

A porcelain saucepan that has become stained should be half filled with water into which a tablespoonful of powdered borax has been put. Let the water boil briskly for awhile. Should all the stain not come off wet a cloth and dip in borax and scour off the spots.

When the oven smells badly take a vessel of hot water and a handful of washing soda. Take the shelves out and wash well in hot water, then flush them in cold. Next wash the oven well out with the soda water and brush it over with whiting. It will then be clean and sweet and bake beautifully.

Associated Press Correspondence. Seven hundred newspapers, representing every conceivable view of every public question, sit in judgment upon the Associated Press dispatches. A representative of each of these papers has a vote in the election of the management. Every editor is jealously watching every line of the report. It must be obvious that any serious departure from an honest and impartial service would arouse a storm of indignation which would overwhelm any administration.—Century.

Alexander Loyalty. We unhesitatingly dissociate ourselves from those who are only too pleased to fly in the face of the Government, and who, at all times, do their utmost to nullify the Government's honest endeavors to do the best for the country.—Lydenberg (South Africa) News.

High Prices for Engravings. When the mezzotints after Reynolds, which at the Huth sale at Christie's sale rooms in London fetched such remarkable sums the other day, were first published at the end of the eighteenth century 15s. would buy any one of them, and even Mr. Huth, when he made the collection which has just been dispersed, doubtless secured most of these portraits for comparatively small sums. It is interesting to trace the rise in price of such engravings. The auction record was reached at Christie's at 1,200 guineas for a first state before any letters of "Catherine Lady Bampfylde." As recently as 1866 a similar state could not fetch more than \$35, but a few years later the price had risen to 140 guineas, and four years ago 880 guineas was reached in the Blyth sale.—London Times.

Snake Follows Like a Dog. The Colburn Machine Tool company has on exhibition a rare specimen of the snake family that was captured by James Davison, an employe, while on a business trip through Illinois. The snake is a foot in length, of a beautiful mottled green color, and it is said that it can be trained to follow one like a dog. The boys have become attached to the little beauty and many toothsome bits find its way to the cage where it is confined.—Vanguard Citizen-Press.

"For fifteen years my scalp and forehead were one mass of scabs, and my body was covered with sores. Words cannot express how I suffered from the itching and pain. I had given up hope when a friend told me to get Cuticura. After bathing with Cuticura Soap and applying Cuticura Ointment for three days my head was as clear as ever, and to my surprise an joy, one cake of soap and one box of ointment made a complete cure in one week. Scott and the Simple Life. Sir Walter Scott was an out-of-doors man, as he had been a tramping boy, says McClure's. It is impossible to think of him without his horses and dogs. His duties as sheriff took him across country continually, and he always had more months out of Edinburgh than in it, notwithstanding his court clerkship. He was thus in constant contact with Scotch life and country, and he never lost or relaxed his first impulse to know and see with his eyes, so far as eyes could see it, all the local history. He was also in love with the genius of Scotland, and he was stamped in the people of all sorts and conditions. Human nature, the rough, hard article free from its alloy of the town, was treasure trove to him. On those annual "raids into Liddesdale" and on many another journey, he made himself master of this book of truth out of which came so much of the character, anecdote and phrase that are most sterling, real and humorous in his books.

London's Busy Bridges. In twelve hours 22,118 people cross Westminster bridge on foot and 7,051 passengers go over by omnibus. At Blackfriars bridge 31,385 pedestrian cross in twelve hours and 5,239 passengers in omnibuses. Every day 1,350 electric trams are run to and from Westminster bridge, and last year a total of 53,000,000 passengers were carried. To Blackfriars bridge there are 566 cars a day, and the number of passengers last year was 38,000,000.

EVER TREAT YOU SO? Coffee Acts the Jonah and Will Come Up. A clergyman who pursues his noble calling in a country parish in Iowa tells of his coffee experience.

"My wife and I used coffee regularly for breakfast, frequently for dinner and occasionally for supper—always the very best quality—package coffee never could find a place on our table. In the spring of 1896 my wife was taken with violent vomiting, which we had great difficulty in stopping. It seemed to come from coffee drinking, but we could not decide.

"The following July, however, she was attacked a second time by the vomiting. I was away from home ill on an appointment at the time, and she had literally vomited herself almost to death, and it took some days to quiet the trouble and restore her stomach. I had also experienced the same trouble, but not so violently, and had relieved it each time by a resort to medicine.

"But my wife's second attack satisfied me that the use of coffee was at the bottom of our troubles, and so we stopped it forthwith and took on Postum Food Coffee. The old symptoms of disease disappeared, and during the 9 years that we have been using Postum instead of coffee we have never had a recurrence of the vomiting. We never weary of Postum, to which we know we owe our good health. This is a simple statement of facts." Name given by Postum Company, Battle Creek, Mich.

Thousands of Women ARE MADE WELL AND STRONG

Success of Lydia E. Pinkham's Vegetable Compound Rests Upon the Fact that It Really Does Make Sick Women Well

Thousands upon thousands of American women have been restored to health by Lydia E. Pinkham's Vegetable Compound. Their letters are on file in Mrs. Pinkham's office, and prove this statement to be a fact and not a mere boast.

Overabounding indeed is the success of this great medicine, and compared with it all other medicines and treatment for women are experiments.

Why has Lydia E. Pinkham's Vegetable Compound accomplished its widespread results for good? Why has it lived and thrived and done its glorious work for a quarter of a century?

Simply and surely because of its sterling worth. The reason no other medicine has even approached its success is plainly and positively because there is no other medicine in the world so good for women's ills.

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womankind is not because it is a stimulant—not because it is a palliative, but simply because it is the most wonderful tonic and reconstructer ever discovered to act directly upon the uterine system, positively curing disease and displacements and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures, and physicians who have recognized the virtue in Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due. If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience that it will effect a cure.

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhoea, falling, inflammation or ulceration of the uterus, ovarian troubles, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration, or the blues, should take immediate action to ward off the serious consequences and be restored to health and strength by taking Lydia E. Pinkham's Vegetable Compound. Anyway, write to Mrs. Pinkham, Lynn, Mass., for advice. It's free and always helpful.

The Secret of Good Coffee

Even the best housekeepers cannot make a good cup of coffee without good material. Dirty, adulterated and queerly blended coffee such as unscrupulous dealers shovel over their counters won't do. But take the pure, clean, natural flavored LION COFFEE, the leader of all package coffees—the coffee that for over a quarter of a century has been daily welcomed in millions of homes—and you will make a drink fit for a king in this way:

HOW TO MAKE GOOD COFFEE. Use LION COFFEE, because to get best results you must use the best coffee. Grind your LION COFFEE rather fine. Use "a tablespoonful to each cup, and one extra for the pot." First mix it with a little cold water, enough to make a thick paste, and add white of an egg (if egg is to be used as a settler), then follow one of the following times: 1st. WITH BOILING WATER. Add boiling water, and let it boil THREE MINUTES ONLY. Add a little cold water and set aside five minutes to settle. Serve promptly. 2d. WITH COLD WATER. Add your cold water to the paste and bring it to a boil. Then set aside, add a little cold water, and in five minutes it's ready to serve. 3. Don't boil it too long. 4. Don't let it stand more than ten minutes before serving. 5. Don't use water that has been boiled before.

TWO WAYS TO SETTLE COFFEE. 1st. With Eggs. Use part of the white of an egg, mixing it with the ground LION COFFEE before boiling. 2d. With Cold Water instead of eggs. After boiling add a dash of cold water, and set aside for eight or ten minutes, then serve through a strainer.

Insist on getting a package of genuine LION COFFEE, prepare it according to this recipe and you will only use LION COFFEE in future. (Sold only in 1 lb. sealed packages.) (Lion head on every package.) (Save these Lion-heads for valuable premiums.) SOLD BY GROCERS EVERYWHERE. WOOLSON SPICER CO., Toledo, Ohio.

MISS ELLA OFF, Indianapolis, Ind. SUFFERED FOR MONTHS.

Pe-ru-na, the Remedy That Cured

Miss Ella Off, 1127 Linden St., Indianapolis, Ind., writes:

"I suffered with a run down constitution for several months, and feared that I would have to give up my work. On seeking the advice of a physician, he prescribed a tonic. I found, however, that it did me no good. On seeking the advice of my druggist, he asked me to try Pe-ru-na. In a few weeks I began to feel and act like a different person. My appetite increased, I did not have that worn-out feeling, and I could sleep peacefully. In a couple of months I was entirely recovered. I thank you for what your medicine has done for me."—Ella Off.

PISO'S GURE FOR CONSUMPTION

View of Happiness. I have been trying to figure out a general condition of happiness, and I reach the conclusion that it consists mainly in the ability to march with one's own generation, neither deploring the progress the generation makes nor grumbling because it doesn't make more, says Frank Putnam in the National Magazine. We can understand best the men and women of our own age, or near it. Dr. Osler spoke truth when he said that most men cease to be receptive to new ideas after 40; hence our elders in the 50s and 60s and 70s, say, who have ably guided the affairs of the world during the decades immediately ahead of us will often seem to us to move less rapidly than we think they should, toward new industrial conditions. And the generation immediately behind us—the restless chaps in their 20s, are putting more pressure upon us from the rear than we are able to believe is wholly justified.
