**Americanizing Canada.**  
More than half of the 5,000 immigrants who entered Canada in December were from the United States. In the year 1908 nearly 150,000 came in, and 57,000 of them were from "the States," as our neighbors over the border put it. This sort of thing is giving the Canadian Northwest, a vast region of much vitality and promise and swift growth, a decided American tinge. American books and magazines, American fashions, American slang and American ideas, too, are much in evidence. American money is one of the greatest sources of prosperity. American enterprise is leading the most active and growing section of the Dominion along the road to very American wealth and industrial power.

Old-fashioned Canadians, intensely loyal to their own country and to Great Britain, do not like this Americanizing of the Dominion's wide expanse of wheat lands in the Northwest, but they are unable to stem the tide. If Canada is inviting enough to enterprising men and important enough as a place for their work and their investments, the Americanizing will go on. And what Canadian wants his country to fall or slacken its pace in any phase of growth which attracts the homeseekers from the United States?—Cleveland Leader.

**In Ancient Days.**  
It was at the great battle of Actium. "Undone!" gasped Cleopatra, from her position at the bow of the ship. "Undone!"  
"Great Caesar!" signaled the startled Antony. "Has an enemy betrayed us?"  
"Worse than that, Mark. There are two buttons off my waist in the back. I have just seen them in my hand mirror and I could never think of getting through the battle in such a condition. Ho, slaves, back to Egypt!"  
This is the real reason why the ship of Cleopatra was seen to withdraw from action and retreat under full sail. Philadelphia Telegraph.

**GOOD CHANGE**  
Coffee to Postum.  
The large army of persons who have found relief from many chronic ailments by changing from coffee to Postum as a daily beverage, is growing each day.

It is only a simple question of trying it for oneself in order to know the joy of returning health as realized by an illia young lady. She writes:  
"I had been a coffee drinker nearly all my life and it affected my stomach, caused insomnia, and I was seldom without a headache. I had heard about Postum and how beneficial it was, so concluded to quit coffee and try it."  
"I was delighted with the change. I can now sleep well and seldom ever have headache. My stomach has gotten strong, and I can eat without suffering afterwards. I think my whole system greatly benefited by Postum."  
"My brother also suffered from stomach trouble while he drank coffee, but now, since using Postum he feels so much better he would not go back to coffee for anything."  
Name given by Postum Co., Battle Creek, Mich. Read, "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

**NEWS OF Virginia**

**NO STATE-WIDE PROHIBITION.**

**Antisoon League Defeats Resolution For It.**  
Norfolk.—The movement in the convention of the State Antisoon League to force the convention to take a stand for State-wide prohibition instead of local option, thought to have been permanently buried by the adoption of the report of the legislative committee of the convention, again bobbed up, but only to receive a defeat. It came about through the offering of a resolution by Rev. J. Ashbury Christian, of Richmond, who desired to have it expressed as the sense of the convention, that its action of yesterday does not mean that the executive committee of the league may, should it see fit, adopt State-wide prohibition as the policy of the league.  
It was the last stand of the State-wide prohibitionists, but its friends were already beaten, and when voted on the motion was defeated almost unanimously.

**FOUND DYING OF POISON.**

**George Dodson Was Never Able To Tell What Happened.**  
Luray.—After being found in a dying condition and carried to a farmhouse near by, George Dodson, aged about 40 years, died in Rappahannock County. Dodson was found on what is known as the Hazel Top, a hill in the Blue Ridge, and when discovered was supposed to be under the influence of liquor. Later his symptoms indicated that he had been poisoned. He was unable to give any intelligent account of his condition, and soon after he died he was cut open and the stomach was sent to Washington for analysis. Where Dodson was found is a wild portion of the Blue Ridge, and the abode of many moonshiners. It is supposed by many that it was Dodson's death due to poison it was contained in the whisky. He was a son of William Dodson and is survived by a widow and children.

**Seek Site For Epileptic Colony.**

**Lynchburg.**—The statement sent out from Richmond indicating that the general hospital board at Williamsburg for the third time deferred action with respect to the establishment of the epileptic colony in Amherst County was without foundation. Instead, the board by resolution, appointed a committee to ascertain if there is a site better than the one now owned by the State, and to act immediately in Amherst County, and to act immediately. This committee, consisting of Capt. R. D. Yancey, of Lynchburg; J. G. Bohannon, of Surrey County; and J. G. Osborne, of Radford, is here tonight, and tomorrow will visit Amherst County, and to act immediately. It has the right to secure options on property and take initial steps to start the work; this, however, being subject to confirmation by the board.

**TO CUT OUT THE MUD.**

**Governor Swanson Pledges Administration To Good Roads.**

**Richmond.**—The Virginia Good Roads Association was organized at the convention called here by the Greater Highways Association of Southwestern Virginia, with Robert W. Withers, of Nansemond, president; Charles T. Lassiter, of Dinwiddie, vice president, and Henry T. Harwood, of Richmond City, secretary and treasurer.  
State Senator Charles T. Lassiter, of Petersburg, president of the Southeastern Good Roads Association, under the auspices of which the convention is held, called the meeting to order, and the Governor Swanson, who was the orator of the occasion and who has been a powerful advocate of good roads, pledged the full support of the administration to the cause and insisted that the aid of the State should be fairly and equitably distributed throughout the State. He described the origin and organization of the office of Highway Commissioner and praised the work already accomplished by Capt. P. St. Julian Wilson. Convict labor, he said, had proved a blessing to the convicts and a profit to the State and its hundred counties. Local, State and Federal aid, the Governor said, was his ideal plan for financing the work of highway improvement in the State. The farmers pay \$250,000,000 a year the country over, the Governor said, in tax taxes alone. "It will be economy," he continued, "to cut out the mud."

**Richmond College Students Find Him A Good One To Let Alone.**

**Richmond.**—Between 15 and 20 students, of Richmond College, are now under probation for the remainder of term as the result of a hazing prank.  
The young men involved decided to put one of the first year students through a "course of sprouts." They called for the student in question to come out. Instead of complying to this request he went to his trunk, took out a revolver and fired point blank at the assemblage. The students on the outside were startled both at the explosion and at the bullet crashing through the wood. Fortunately, no one was hurt, though the excitement was intense for some minutes.  
The man who fired the revolver was also on the probation list.

**BACKACHE IS KIDNEYACHE.**

Usually There Are Other Symptoms To Prove It.

Pain in the back is pain in the kidneys, in most cases, and it points to the need of a special remedy to relieve and cure the congestion or inflammation of the kidneys that is interfering with their work and causing that pain that makes you say: "Oh, my back!"  
F. J. Cheney & Co., Toledo, O., says: "Two years ago kidney disease fastened itself on me. I had awful dizzy spells, headache and urinary irregularities. My back was weak and tender. I began using Doan's Kidney Pills and found quick relief. I was soon restored to complete good health."

**Beware Egg Bloom.**

"I know these eggs at least are fresh," said the young housewife. "As I took them from the basket a white bloom, like the down of a peach, came off in my hands."  
Her husband, a food expert, gave a sneering laugh.  
"In that case," he said, "I'll forego my usual morning omelette. That bloom, my dear, proves your eggs to be a year or so old—may be four or five years old."  
"The bloom, as you so poetically call it, is lime dust. It shows that the eggs are pickled. Lime dust, which rubs off like flour, is the sure test we have for pickled eggs—a not unwholesome article, but not to be compared with the new-laid sort."—New Orleans Times-Democrat.
