

### YOU ARE KILLED

#### TRAIN RECK

Removed that Among the Passengers on Board Were Residents of This City—Whole Train Seems to Have Been Demolished.

The Dead.

Engineer C. T. Picher, of Huntington, W. Va.

Fireman Ritchie, of Hinton, W. Va.

The Injured.

HINTON, WEST VA., Special.—All the mail clerks, express messengers, and several of the passengers, names unknown.

Chesapeake and Ohio Flyer No. 3 (known as "The Flyer") on the most train on the road, westbound, suddenly left the rails just west of Old Buffalo, between Mackenzie and Thurmond, W. Va., this morning about 10 o'clock and was completely wrecked.

The engine and tender were overturned and smashed, and the first six coaches in the train were derailed and wrecked.

The exact cause of the accident has not yet been ascertained. The train was speeding at the time, and a word of warning, it left the rails and went crashing into an embankment.

The engineer and fireman evidently did not have time to jump for their lives as it is reported that they were picked up out of the ruins, dead, having been almost instantly killed.

Other injured passengers were taken to the hospital, where they were cared for.

Except the fireman and engineer none of those on the Flyer at the time of the accident was seriously injured, it is thought.

News of the wreck was conveyed to the nearest station, and a wrecking crew was dispatched. The work of removing the injured and clearing away the twisted and broken remains of the engine and cars required hours, several of the players being outside of the boundary of Virginia, in the beautiful mountain section of West Virginia. The train was freighted with tourists and travelers from this section of the country.

It is rumored that there were several Richmonders aboard, although it is not known who they were.

In a clear statement of the cause of the wreck is being made by officers of the Chesapeake and Ohio Railroad today. It is thought that the train ran to a switch opening into a sidetrack.

The train, which was wrecked, was bound from New York to Cincinnati and comes out the main line of the Chesapeake and Ohio at Gordonsville, where the passengers for Richmond change.

The passengers were not given a word of warning, and the engine applied suddenly, when the engine came to an abrupt stop and the rear coaches piled up towards the front.

The action forced the first six coaches off to the tracks, and the rest of the train, pinning some of the passengers under the debris. It is said that it was only with the greatest difficulty that the passengers were rescued. Many of the passengers assisted in the work of rescue and a rescue party was formed.

It was feared for a time that some of the passengers would be burned alive, as there was some evidence of fire, but the blaze was quickly extinguished.

One Sleeper from Richmond.

The Pullman Company office in Richmond had received no advice at 3 P. M. this afternoon regarding the wrecking of the Flyer at Gordonsville, N. Y. It is said that New York-Cincinnati Flyer No. 3 connects at Gordonsville with the train leaving Richmond at 11 P. M. Conductor C. T. Brengle, of Richmond, in charge of the train, was on duty, which left here last night and connected at Gordonsville with the wrecked train. Mr. Brengle, however, only goes as far as Staunton, where he changes to the train for Richmond and goes through with the train to Cincinnati.

The list of passengers occupying this sleeper were turned over to Mr. Brengle, but no record is kept in the local office.

The day coaches of the train leaving Richmond at 11 P. M. go through the following route: First, they leave the only car switched to the through train.

A late report received at the Chesapeake and Ohio general office here in regard to the wrecking of the Flyer says that the engine and tender were completely destroyed, but that the passengers were not seriously injured.

### NEGRO AT DIRTY

#### MAY LOSE OUT

Committee to Learn Fitness of Taft's Appointee for Assistant Attorney General.

WASHINGTON, D. C., Special.—William H. Lewis, the Boston negro appointed by President Taft as Assistant Attorney General of the United States, may fall to be confirmed by the Senate. At a meeting of the Senate Judiciary Committee, the confirmation was held up, and a sub-committee, consisting of Senators Root, Sutherland and Bacon, was appointed to inquire into Lewis' qualifications for the position.

This means that those who oppose Lewis' appointment will have an opportunity to voice their protests.

### FLAMES PLAY

#### HAVOC WITH CITY

BANGOR, ME., Special.—Every station in the city—and Bangor had 207 before the fire—has been ordered to close.

Fire Started in Poker Game.

BANGOR, ME., Special.—A Sunday afternoon poker game, played in a hayshed, caused the fire that swept Bangor, the "Queen City" of Maine, leveling almost 400 buildings, causing the loss of two lives, rendering thousands homeless and entailing a money loss today conservatively estimated at approximately \$4,000,000.

A former resident today told the city authorities that the holocaust was caused by one of a number of men playing poker in Green's hayshed on Sunday. The fire started when a lighted match on the floor, and the loss lay at once burst into flame.

In the moment the interior of the place was ablaze.

The card players barely had time to dash out of the door.

Under the direction of the Committee of Public Safety, the fire-fighting began the gigantic task of rebuilding the devastated city. The work will be done with Bangor money and by Bangor residents.

That was one of the first things decided by the committee.

Fully 135 firms are seeking new or temporary quarters. A temporary postoffice has been established in the Young Men's Christian Association building and the bulk of the mail is being worked in cars on the Maine Central sidings.

Soldiers on Guard.

Wires have been patched up, but it will be impossible to get telephone service for at least ten days, and it is feared it will be a month before street car service can be resumed.

While there have been no reports of looting in the burned district, neither Mayor Mullen nor members of the committee of public safety think it wise to remove the National Guardsmen and the University cadets from such a hot spot.

Ball cartridges have been issued to the men of Company G, Second Regiment, and the University cadets.

Every saloon in the city has been closed.

Mayor Mullen said today:

"Bangor will get its breath and courage and then we will go right at building up the city. We are going to find out first how many in the city are without homes, and then we will begin to clean up and open the streets.

We have received offers of help from Boston, Portland, Rockland and many other cities, but I believe we are going to be able to take care of our own needs. We shall not accept any aid until we find out it is absolutely necessary."

Of the 25 families believed burned, seven only are destitute. Ways and means are being sought for relief. Most owners of business blocks and homes that were burned are financially able to rebuild as soon as the necessary supplies and materials can be secured.

### LORIMER CASE

#### BEFORE SENATE

WASHINGTON, D. C., Special.—The Lorimer case may be considered by the Senate before even Canadian reciprocity or any of the other measures sent over from the House.

The Senate Committee on Audit and Control is continuing its investigation into the case, which was referred to the La Follette resolution providing for a reopening of the Lorimer case, will make a report to the Senate within the next few days.

The first meeting of the reorganized committee was held Monday, and but for the absence of Senator Dillingham the resolution would have been acted upon then. The committee holds another meeting today, and it is not probable that the resolution will then be acted upon.

That a majority of the committee is in favor of reopening the Lorimer case is known. Two members of the committee—the chairman, Senator Briggs, and Senator Dillingham, of Vermont—voted for the vindication of Senator Lorimer at the last session of the Senate, but even should the committee be reorganized, the resolution would be in the minority for Senators Clark, of Arkansas; Bristow, of Kansas, and Williams, of Mississippi; the other members of the committee are in favor of reopening the case and will vote against the resolution favorably to a vote.

Triumph in Names, or Hearts.

Van Dyke may or may not have been earnest in his suggestion that parents name their children after the nation itself. He is especially commending the names of Ecuador for naming his daughters America, Quita, the name of the city of Ecuador, and Castilla, after the ancient name of the island which the Latins are proud of their origin.

Such a patriotic, certainly. Possibilities are patriotic. But supposing a father in Ecuador had followed and called his first born America, Quita, or Castilla, there should be no objection. It is not the name of the child, but the name of the father, that is the issue.

Alabama, names once popular upon the stage, and of Columbia, and of the other two score or so of State names, attached to unoffending children by parents who, in the face of the suggestion, feared to seem unkind of their State's or nation's greatness.

Supposing, moreover, that some patriotic emblem-bearing child should grow up to win credit to his State, as children of worthy parents sometimes have a way of doing, and instead of John Jones violating the law, Massachusetts or America, Brown or Columbia Robinson were to disgrace

### WARSHIPS TRAIN

#### GUNS ON CANTON

WASHINGTON, D. C., Special.—The State Department today received dispatches from Minister Calhoun at Canton, saying that the British in the region around Canton is assuming more alarming proportions than have hitherto existed.

Canton is comparatively quiet, the viceroys having been able to restore order in the city proper.

Scores of rebels, captured by the imperial troops, are being beheaded by the viceroys' orders outside the city.

British bluejackets, with quick-firing guns, are encamped in the city, to protect foreigners.

The United States cruiser, Wilmington, and the Callao, of the Asiatic fleet, have Canton under their guns.

British, German, French and Portuguese warships are also in Canton harbor.

### REBELS THREATEN AMERICANS AND GERMAN.

MEXICO CITY, Special.—In expectation that the United States Government would ask the Mexican State Department immediate advice in regard to its plans for the relief of the one hundred American and German citizens whose lives are reported threatened by the rebel and bandit forces now besieging the city of Cuernavaca, officials of the Diaz administration today found themselves in a diplomatic corner.

The force of reliable troops now in the capital is insufficient adequately to guard Mexico City itself against a rebel attack, and seems to have no outside point is a practical impossibility.

In the event of receipt of a note from the American Government, a meeting will probably be called to determine the reply. According to the information sent here by the foreign residents of Cuernavaca, which is the capital of the State of Morelos, the spirit of rebellion is strengthened by a strong anti-foreign sentiment, and threats have been made by the Insurrectos to treat all foreigners as prisoners of war if Cuernavaca falls.

There are at least 5,000 Insurrectos in the mountains about Cuernavaca, and their numbers are being increased constantly.

Round Mexican Capital.

Mexico City has suddenly realized the seriousness of its position with the lines of the rebels drawing nearer every day, and Americans here feel that no movement of attack by the Insurrectos would be unexpected.

That the United States appreciated the very condition which has come to exist, and that the Mexican Government itself had a foreboding of the same, is shown by the fact that large numbers of freight and passenger cars of the

### HEART FAILURE IS CAUSE OF DEATH.

RICHMOND, VA., Special.—Buchanan, a respected citizen of this place, was found dead in his home this morning about 5 o'clock. Mr. Buchanan was apparently well when he retired last night, having been working all day and making no complaint of feeling badly. His wife went in his room to awaken him this morning and said, "John, are you going to sleep all day?" No response came, and upon investigation Mr. Buchanan was found to be dead. The body was still warm, and he was called for a doctor sent for, but he was extinct. Heart failure was the cause assigned by Dr. Herman Anderson.

### DOUBLE MURDER RATHER THAN PAY \$1 PER WEEK.

CHICAGO, ILL., Special.—John Bartrowski, 333 Wellington Street, shot and killed his wife early today, then, after a flight from the scene, was pursued by the police, turned himself in and was found firing a bullet into his brain. The couple were divorced.

Bartrowski was entranced because of a court order compelling him to pay his wife \$1 weekly alimony.

### IMPROVING OPERATION.

Larkin W. Glazebrook, Jr., of 268 West Main Street, who was operated on at the Virginia Hospital yesterday and arranged telegraphically with his family, is reported to be improving.

### CABINET CONSIDERS COMPLICATIONS.

WASHINGTON, D. C., Special.—Cabinet held a prolonged session today over the Mexican complications.

It met earlier than usual because of alarming dispatches from Mexico, and the reported danger to American citizens whose lives are reported threatened by the rebel and bandit forces now besieging the city of Cuernavaca, officials of the Diaz administration today found themselves in a diplomatic corner.

### REBELS THREATEN AMERICANS AND GERMAN.

MEXICO CITY, Special.—In expectation that the United States Government would ask the Mexican State Department immediate advice in regard to its plans for the relief of the one hundred American and German citizens whose lives are reported threatened by the rebel and bandit forces now besieging the city of Cuernavaca, officials of the Diaz administration today found themselves in a diplomatic corner.

### TO EXTEND ROAD

#### RENT DUGGY

C. & O. Will Spend Millions. Garrett B. Wall President of New Road.

RICHMOND, VA.—Special.—The Louisville Courier-Journal printed the following last Friday:

Plans for an extension of the Chesapeake and Ohio Railroad through many of the counties of the Big Sandy division, in Eastern Kentucky, as well as the double tracking of the system from Pikeville, Tenn., have practically been completed, and it is expected that within the next few months every county in the Big Sandy Valley will have an outlet to the coal and timber markets of the world.

It was learned from an official of the road last night that since the properties of the Chesapeake and Ohio were acquired by the Louisville, New York, and Frank Turnbull, of Chicago, the new owners have given strong evidence of their faith in the future possibilities of the mountains of Eastern Kentucky, and to that end have planned to build branches of the road throughout that section of the State.

Lavisa Fork Road.

One of the first moves to be made by the new owners was to acquire a charter for the building of what is known as the Lavisa Fork road, to run from the confluence of Russell and Lavisa Creeks, up Lavisa Creek to Grundy, Va., a distance of about 100 miles. The road is one of the largest coal and virgin timber tracts to be found anywhere in the United States. According to the Courier-Journal, the road was recently obtained, Garrett B. Wall, for many years the state agent of the Chesapeake and Ohio road and for the past few years president of George W. Stevens, president of the company, is the president of the Lavisa Fork road. The Big Sandy division of the Chesapeake and Ohio at the present time runs from the mouth of the Kanawha to the mouth of the Big Sandy, a distance of 120 miles. From this point a survey has been made and grading done on an extension which will run from the coast at Charleston, S. C., and Savannah, Ga., and when the company completes a bridge over the Ohio River at Marietta, Ky., the Chesapeake and Ohio will have a direct line from Toledo, O., on the lakes to the Atlantic Coast.

Improvements in Pike.

Among other improvements and extensions planned is the building of the Shelby branch of the road, a distance of thirty miles, through Putnam and Letcher counties. This branch will run through 100,000 acres of coal and timber lands owned by the Consolidated Coal Company, and will be a great benefit to the county. The road will run from the mouth of the Big Sandy River at Van Lear, a station on the Big Sandy division, in Johnson county, crossing the Big Sandy River at Van Lear. The coal in this section of the State is regarded as one of the finest grades of split coal to be found in the world, while on the Marlborough branch the product now being secured is considered a fine grade for coking purposes.

Will Spend Millions.

Believing that the future development of coal and timber lands in the mountains of Eastern Kentucky along the Big Sandy River will amply reward them for the money expended in preparing for that development, the new owners, Wall and Turnbull, have instructed their representatives to go ahead with the work of building all of the branch roads necessary to meet the future demands of the section, as well as the double tracking of the system. It is planned to have the road from Ashland to Cincinnati and from Pikeville to Catlettsburg double tracked by December 1, 1913. These improvements are being made on extensions planned, are located wholly in Kentucky, and millions of dollars will be expended by the Chesapeake and Ohio in this State within the next two years.

### FOREIGNERS REPORTED SAFE.

WASHINGTON, D. C., Special.—Ambassador Wilson, at Mexico City, telegraphed the State Department today that the Mexican Government has given assurances that Americans and Germans at Cuernavaca are safe. He said that more than fifty, who appealed to Mr. Wilson yesterday by telegraph for protection, are in no danger. Cuernavaca has been isolated since Saturday by the rebels and the Americans and Germans in the town fear for their lives should the place be taken by assault.

The message to Ambassador Wilson, appealing for aid, was sent by a courier, who slipped past the rebel lines, and reached a telegraph office near the town, which is the capital of the State of Morelos.

### DOUBLE MURDER RATHER THAN PAY \$1 PER WEEK.

CHICAGO, ILL., Special.—John Bartrowski, 333 Wellington Street, shot and killed his wife early today, then, after a flight from the scene, was pursued by the police, turned himself in and was found firing a bullet into his brain. The couple were divorced.

Bartrowski was entranced because of a court order compelling him to pay his wife \$1 weekly alimony.
