A Few Facts For Cattle Dealers.

It has been repeatedly demonstrated in the past that

SIOUX CITY IA.

Stands at top as a market for Range Feeders

You can satisfy yourself as to the truth of that statement by comparing the sales at Sioux City, last year, with those at any other competitive market. You can also ask your neighbors who have sold cattle at Sioux City. This year Sioux City is in the field for fat cattle as well as feeders. The great beef slaughtering plant of the Cadahy Packing Co. is ready for business.

The capacity of the Stock Yards has been greatly increased and you will find excellent facilities for handling your business.

No charges, except for feed ordered if your cattle are not sold on our market.

The Sioux City Stock Yards Co.

JOHN H. KEENE, General Manager.

Receipts at South Omaha for the year 1898 to August 27 inclusive are 456,017 cattle, 1,277,179 hogs, 713,270 sheep; an increase, as compared with same period 1897, of 9,480 cattle, 206,114 hogs, and 302,048 sheep.

The stockmen who had a meeting in Whitman on the 13th inst., for the purpose of organizing for mutual protection against fire, rustlers, etc., will meet again at Whitman on September 3, at which time a committee will submit a plan of organization. Grant county was represented by Sid Manning, Bert Proctor, James White, James Maninich, and P. Moran. Mr. Proctor is a member of the organization committee.—*Hyannis Tribune.*

From the National Stockman of August 25 we learn that:

The past month has developed quite a shortage in the supply of choice, fat cattle, and with a good home and foreign demand, prices have advanced to the highest point of the year. There appears to be no prospect of liberal receipts of these cattle for the next two months at least, and anything good enough to avoid the competition of rangers is expected to find a favorable market. General conditions favor a large consumption of beef. Pork and mutton are not so attractive as substitutes because they are not so cheap as they were.

Last week's output from Omaha was the largest of the year in cars shipped but owing to the fact that heavier cattle are being taken was second in number of head. The change in the demand from light to heavy cattle broke prices on stockers and yearlings badly, such showing a 35@50c drop from high point of the week before but it was also a sustaining influence on medium to heavy weights and right good 900 to 1,100lb feeders are little, if any, lower in the same time. For the week best cows and heifers, both fed and grass were nor more than strong and common canners sold in the same old rut but medium grades, the \$3.00@3.50 kinds, were 10@15c higher at least bulls and stags sold freely right along with no material change in values, while good veal calves were very strong and the best weas 25@50c higher.

The market on beef steers was just about steady on all kinds and fairly active, so that the offerings for the most part changed hands early in the morning. The offerings were small as compared with yesterday and the kind of cattle was different, the most of them today being corn feds instead of western grassers. All told their were a few over twenty loads of corn fed steers, none of them choice, but with quite a sprinkling of fatish stuff such as is selling at about \$5. There were only eight or ten loads of western goods, enough for the killers. Something like twenty to twenty-five loads constituted the days supply of cows and heifers and the market on that kind of cattle was certainly no more than steady and in many cases weak to a little lower. The demand appeared to be quite good on the part of local packers and the most of the stuff on sale was weighed up in good season. A string of western cows sold at \$2.90 and there were others good enough to bring considerably more than \$3, but there were no bunches to compare with the western heifers which sold at \$4 yesterday.—*World-Herald.* Aug. 30.
