

PERUNA

FOR WOMEN

The debilitating drains and discharges which weaken so many women are caused by Catarrh of the distinctly feminine organs. The sufferer may call her trouble Leucorrhoea, or Weakness, or Female Disease or some other name, but the real trouble is catarrh of the female organs and nothing else.

Peruna radically and permanently cures this and all other forms of Catarrh. It is a positive specific for female troubles caused by catarrh of the delicate lining of the organs peculiar to women. It always cures if used persistently. It is prompt and certain.

A Matrimonial Report.

A Salt Lake City paper reports that a tall, gaunt woman, with ginger hair and a somewhat fierce expression of countenance, lately came to the County Clerk of Boxelder County, in that State.

"You're the man that keeps the marriage books, ain't you?" she asked.

"Yes, ma'am," he replied. "What book do you wish to see?"

"Kin you find out if Jack Peters was married?"

Search developed the name of John Peters, for whose marriage a license had been issued two years before.

"I thought so," said the woman. "Married 'Lize Waters, didn't he?"

"The license is issued for a marriage with Miss Eliza Waters."

"Yep. Well, I'm Lize. I thought I'd ought to come in and tell you that Jack Peters has escaped!"

CONGRESS

In the Senate on Friday nearly the entire day was devoted to the pneumatic tube system service in the postoffice appropriation bill. The debate at times was sharp and almost personal. The appropriation was defended by Senators Chandler, Mason, Carter and Wellington and opposed by Senators Allison, Hale, Tillman, Lodge and Wolcott. Senator Morgan introduced a resolution to investigate the Panama Canal Company, and in a speech severely criticized that company. Senator McCumber made a speech in favor of the retention of the Philippine Islands, during which Senator Tillman took issue with him over an assertion that the people of the South were glad the confederacy was unsuccessful. The House devoted the day to the consideration of bills reported by the committee on war claims and in committee of the whole favorably acted upon a bill to appropriate \$200,000 to pay ex-Confederate soldiers for horses and other property taken from them in violation of the terms of Lee's surrender to Grant at Appomattox.

After a spirited debate, by the decisive vote of 32 to 16, the Senate on Saturday laid on the table the whole proposition relating to the transportation of mail by the pneumatic tube system. An effort was made to secure the adoption of an amendment to appropriate \$225,000 to carry out existing contracts for the service in New York, Brooklyn, Boston and Philadelphia, but no action was taken upon it, special orders superseding the appropriation bill. The closing hours of the session were occupied in accepting from the State of Missouri statutes of Benton and Blair, located in Statuary Hall of the capitol, and from the Grand Army of the Republic the statue of Gen. Ulysses S. Grant, located in the capitol rotunda.

A pyrotechnic discussion of the status of the Boer commissioners now in Washington was precipitated in the Senate on Monday by a resolution offered by Mr. Allen (Pop., Neb.) extending to the commissioners the privileges of the floor of the Senate during their sojourn in the national capital. The resolution was defeated by a vote of 36 to 21, but not until after a sharp controversy between its author and Mr. Davis, chairman of the committee on foreign relations. The post-office appropriation bill was passed, the amendment to carry out existing contracts for the pneumatic tube service being agreed to. An effort was made by Mr. Morgan (Ala.) to displace the Spooner Philippine bill by the Nicaragua canal bill as the unfinished business, but it failed by a vote of 21 to 28. A bill to create the southern division of the southern district of Iowa for judicial purposes was passed. In the House two important labor measures were passed under suspension of the rules, one to extend the eight-hour law to all laborers under contract on Government work, the other to prohibit interstate traffic in prison-made goods by bringing them under the jurisdiction of the public powers of the State.

On Tuesday the Senate heard Mr. Spooner in support of his resolution giving the President full power over the Philippines until the suppression of the rebellion. Received the credentials of Senator Clark of Montana, on the appointment of Lieut. Gov. Spriggs, and allowed them temporarily to lie on the table. Adopted a resolution by Mr. Allen asking the President to send to the Senate translations of the constitutions of the South African republic and the Orange Free State; also one by Mr. Jones of Arkansas directing the Secretary of War thoroughly to investigate the operations of the North American Trust Company in Havana; also one by Mr. Allen calling upon the Secretary of War for information regarding conditions in the Philippines. The House devoted the entire day to the Alaskan civil government bill. An amendment to reduce the number of judges in Alaska from three to two was defeated. The conference report on the army appropriation bill was adopted, the Senate amendment for the library at Manila having been stricken out.

The Senate on Wednesday agreed to the conference report on the army appropriation bill, passed the Morgan resolution calling upon the Secretary of War and Navy for information regarding the cost of the transportation of troops to the Philippines, and devoted the rest of the day to debate on the Cuban postal frauds, with Messrs. Platt (Conn.), Spooner and Hale as speakers. The House passed resolution for sine die adjournment June 6; also resolution authorizing committee on ways and means to sit during recess of Congress to frame bill reducing war taxes; also the Neely extradition bill.

The Senate devoted Thursday to debate on the nation's duty toward its new island possessions. Messrs. Spooner, Allen and Bacon leading in the discussion. Sent to the committee on contingent expenses Mr. Bacon's resolution directing the committee on relations with Cuba to make an investigation into the island's finances. The House devoted eight hours to consideration of the Alaska civil government bill. Three amendments of importance were adopted. One authorizes the Secretary of War to issue permits to excavate or dredge for gold below low water mark on Cape Nome beach. The Secretary has heretofore issued permits, but the bill as it passed the Senate cancelled them. Another provides for a territorial delegate to Congress. The House also struck out the chapter relating to arrest and bail which permitted arrests in certain civil actions. The conference report on the Indian appropriation bill was adopted.

MAKES MANY MOTHERS MAD.

Address of Professor Chrisman Is Resented by 3,000 Women.

At the second day's session of the National Congress of Mothers in Des Moines great indignation was raised by the address of Oscar Chrisman, A. M., Ph. D., professor of pedagogy or child study in the State normal school at Emporia, Kan. "Men never love as women do," he said. Instantly the big convention hall was filled with hisses, and it was several minutes before the speaker could proceed. He continued to say that women were made for love and men for reason. This was greeted by an indignant protest from 3,000 throats. The professor dropped this branch of the subject and went on with his address. At its conclusion a dozen women leaped to their feet and demanded recognition.

Mrs. Birney, who was presiding, gave the floor to Mrs. Winfield S. Hall of Berwyn, Ill., who cried in a voice that reached the street, "Men do love!" Mrs. Hall then gave Prof. Chrisman a tongue-lashing for fifteen minutes. When she ceased a man and fifteen women jumped up. The man, T. H. Smith of Harlan, Iowa, was recognized. "It is false," he said. "Men do love. It is a slander that the professor has given you. He ought to be ashamed of himself for standing before this audience and saying such things. Men do love their sweethearts and wives. As boys they love their mothers. As men they love their families. Prof. Chrisman has queer ideas for an educator of the young. He has no business telling this congress of mothers that men do not love. They know better, and I am glad of this magnificent rebuke the speaker has suffered justly at your hands." The man closed, and the women cheered.

The meetings of the congress were well attended and full of interest. More than 1,000 delegates were in attendance from out of the town. Policemen had to help keep the doors closed Tuesday on account of the crush. Gov. and Mrs. Shaw received the delegates in a formal reception at the State House Tuesday evening.

TWENTY-TWO DIE IN A MINE.

Colliery Explosion at Cummock, N. C., Terrible in Its Effects.

Twenty-two miners, ten white men and twelve negroes, lost their lives in an explosion at Cummock coal mines, Chatham County, North Carolina, Tuesday afternoon. The explosion is supposed to have been caused by a broken gauge in a safety lamp. Between forty and fifty men were in the mine at the time.

About fifty people from Sanford, a town six miles from the mine, started immediately when the news of the disaster was received to assist in the work of rescuing the dead and helping the injured. Within an hour after the explosion the work of rescue began and by night all the bodies except one had been brought to the top. This is the second explosion this mine has had within the past four years, the former one having occurred on Dec. 28, 1895, when forty-three men lost their lives.

BROKE HIS WIFE

Of the Habit of Going Through His Clothes.

"I say, old man," said Dodson, as he leaned his friend Blobson a nickel to pay his car fare, "why don't you try my scheme?"

"What scheme?" growled Blobson, as he mentally tried to figure out how much his wife had realized in her midnight raid.

"Why, a scheme to break your wife of going through your pockets when you are asleep?"

"I say, old man!" cried Blobson, eagerly, "if you have any scheme by which I can break my wife of going through me, for heaven's sake put me on to it, and I am your friend for life!"

"Well, you see, I used to suffer from this thing until I discovered means by which I broke my wife of the habit. I gathered together all the counterfeit money that I had accumulated in 20 years of business and filled my pockets with it. The next morning I discovered that it was gone. That same day my wife went shopping and was arrested for passing counterfeit money. It looked very black for her when they found the rest of the stuff that she had, and she was just ready to faint when I arrived on the scene. Of course, I played the indignant husband, and threatened to sue the whole outfit for damages. But the scheme worked. Since then the only thing my wife will accept is a check."—Detroit Free Press.

His Worst Offense.

When it was proposed to lessen the list of crimes punished by death, Lord Eldon objected to the noose being banished in cases of petty shop-lifting.

"The small shopkeepers will be ruined by this exemption," said the old Tory Lord Chancellor.

Another Tory, a judge, so venerated the sovereign that he included in his regard any article belonging to the king, no matter how far removed from actual possession. A tailor had been condemned for the murder of a soldier, and the judge tacked on this addition to the sentence of death:

"And not only did you murder him, but you did thrust, or push, or pierce, or project, or propel the lethal weapon through the belly-band of his breeches, which were his majesty's?"

From the Cow.

Mrs. Morey, of Coney Island, New York, peddles milk, but she doesn't keep a horse and wagon. Instead of that she drives her cow around to the houses of her customers and while they wait Mrs. Morey says, "So, Boss!" to the sleek-looking cow, and proceeds to milk the desired quantity. In this way each customer is assured that the milk received is fresh and free from adulteration. This custom of leading the cow from door to door was in common practice in this country many, many years ago, and in parts of Europe the milk cows or goats are still made to serve in the place of the modern milk wagon.

Literary Gents.

"What's your game?" asked the man with the big cigar in the Pullman.

"If you mean my profession," replied the other with dignity, "I'm a maker of books."

"And I'm a bookmaker," cried the first, heartily. "Shake."—Philadelphia North American.

Number "Sixteen."

In his history of New York, one of the classics of American authorship, Diedrich Knickerbocker (Washington Irving) wrote lovingly, yet with unctuous sarcasm, of the beauties and traditions of his loved "Nieu Netherlands," the peaceful valley of the Hudson from Albany to Manhattan, the many legends with which the entire region abounds—notably that of Rip Van Winkle and his long sleep—and of the ancient names and families whose descendants are still a power in that locality. So far reaching were the effects of the "History" that in time the name "Knickerbocker" became the popular one for the patron saint of New York City, he usually being represented as a benignant old German of ample girth, clutching firmly the long-stemmed clay pipe which Irving immortalized and gazing over his beloved city.

Recognizing the vein of sentiment in the American people long ago, a train service was inaugurated to New York from St. Louis, to which Father Knickerbocker lent his name and through the efforts of the line which introduced the service the "Knickerbocker Special" has become as familiar to the average traveler American as to residents of his own city.

Leaving St. Louis at noon, the traveler is borne swiftly and safely to Father Knickerbocker's abode, traversing by daylight those scenes with which he was so familiar, arriving at New York the next day in time for a leisurely preparation for evening.

So popular has the service proven that the Big Four has started a new train as a companion, it leaving St. Louis at 8 a. m., receiving all Western and Southwestern connections and arriving in New York at 2:55 p. m. the next day. This train is known as the New York and Boston Limited, but the wayfarer who travels much will call it Number Sixteen in emulation of his railroad brethren and inquire if "she" is on time. A month's business has demonstrated that it is a success. The Big Four's motto is "Comfort in travel," and the train amply lives up to the motto, as a trip on it will prove to those who desire every convenience in travel. A letter to the general offices of the Big Four at Cincinnati about any of their trains will always receive a prompt and courteous reply.

PILES OF PAIN.

"For Twenty Years I've Suffered, and Now I Am Well."

A Miracle Performed for a Father and His Three-Year-Old Son—Millions of People Relieved.

What causes them?

Nothing but irregular working of the bowels. When a mass of undigested food ferments in the intestines instead of being passed out of the body, its pressure congests the blood vessels, and produces all kinds of piles—bleeding, itching, all horribly painful and annoying.

Nothing will cure them except to go at the cause, make the bowels regular, and then tone up the intestines so they can keep regular. Only a strong intestinal tonic can do it, and Cascarets Candy Cathartic are the best known. The best kind of a proof is the experience of Mr. Heltz.

Chicago, Ill., February 19, 1899. Gentlemen—I have been using your Cascarets for almost a year with great success, not only relieving chronic constipation, but they have cured me of bleeding piles (which two surgical operations failed to do, putting me to great expense and needless pain). I have recommended them to many friends, with good results. Very truly yours, FRANK ROGERS, No. 228 East Forty-first street, Chicago, Ill.

Sufferers from piles! Go and get Heltz's Buy and try Cascarets to-day! It's what they do, not what we say they do, that proves their merit. They make the liver lively, the bowels regular, the blood pure. All druggists, 10c, 25c, or 50c, or mailed for price. Send for booklet and free sample.
