The concert given last evening at the First Congregational church for the benefit of the Sunday school was attended by a large crowd of people. Music was furnished by C. J. Chapman's graphophone and Miss Nelle Gerocke sang two numbers. The receipts from the entertainment were very satisfactory. The Madison Chronicle has the best election story. It says: "In Grove precinct a curious ballot was cast, which showed the extreme intelligence of the voter. It was a blank ballot without any printing of any kind on it, but it bore the signatures of the judges. The voter looked it over and made a cross under the judges' names." It is reported that the station agent at Johnstown is suffering from an attack of small pox and the depot has been quarantined. Meanwhile the railroad company has improvised a depot from a box car and the business is being conducted without the aid of either the station agent or depot. There are a number of cases of small pox in the state, but the disease is either not of a malignant form or medical science has so thoroughly demonstrated its ability to cope with it that no alarm is felt by the citizens. Fifteen or twenty years ago a few cases of small pox would have almost created a panic. Some hoodlum removed one of the street signs at the corner of Main and First streets sometime during last night. The sign had just been placed yesterday. It was put at a height of 12 feet and the law-breaker who removed it must have been at considerable inconvenience to perform what he probably considered a very cute trick. If apprehended the joke will probably not be of such a laughable character, as it was a misdemeanor and punishable as such. The city council will probably take some special action at its next meeting and may pass an ordinance with the object of punishing the performance of such tricks severely. The action, though not creating any large damage, provoked considerable indignation on the part of all enterprising citizens who learned of it and they would have been highly pleased had the perpetrator been caught and given the limit of the law.

Electoral Votes and Pluralities.

Table with 3 columns: State, Electoral votes, Plurality. Lists states from California to Wyoming with their respective electoral votes and the margin of victory for McKinley over Bryan.

Kentucky.

Louisville, Nov. 9.—This morning the Courier-Journal, with returns from all but 11 of the 1,884 precincts in Kentucky, puts Bryan's majority at 7,800 and Beckham's at 4,150. These 11 precincts are sparsely settled and gave in the last state election combined Republican majorities of less than 500. John W. Yerkes (Rep.), candidate for governor, left last night for his home in Danville. Louisville, Nov. 9.—With returns from all but 30 out of 1,884 precincts the Courier-Journal puts Bryan's majority at 8,000 and Beckham's at 5,000. The missing precincts have been taken into account in this result. The Republicans now claim that majorities will be shown for McKinley and Yerkes when the returning board canvasses the vote at Frankfort, which it will do three weeks from election day. The returning board is Democratic and the legislature is also Democratic. Ex-Governor James B. McCreary, who managed the Democratic campaign, closed the headquarters last night. He said that he had heard from campaign chairmen in every county in the

state and that allowing all the Republican claims in the Eleventh district, he placed the majorities of Bryan and Beckham respectively at 8,000 and 5,000.

The Commercial (Rep.) says the election is very close. It will not concede the defeat of Yerkes and the McKinley electors and says that the official count only can determine the result. Chairman Combs of the Republican state campaign committee was quoted as follows: "While we have not the figures thoroughly compiled, yet we are certain that Mr. Yerkes carried Kentucky by a small, though safe, majority. The result is very close, I think that it will probably require the official count to determine how the state goes. When I left headquarters Yerkes had a small plurality, with 17 counties still to be heard from. I am informed that over 3,000 ballots were not counted by local election officers throughout the state on account of trivial technicalities. "We have discovered that not only systematic frauds have been practiced all over the state, but in some counties there was wholesale exclusion of voters from the polls."

BAR ZION IMMIGRANTS.

Philadelphia, Nov. 14.—Twenty-five immigrants who came here as saloon passengers on the American line steamer Wausland, were denied admission to this country by a board of inquiry of the United States immigration commissioners on the ground that they had violated the contract labor law. The party consisted of six men, two women and 17 children. Under examination the men and women admitted that they were lacemakers and came from Beaton, a small manufacturing town near Nottingham, Eng. It was proved that first class passage had been paid for them by John Alexander Dowie, the "divine healer" of Chicago, who is about to found a city called "Zion" near Waukegan, Ills., where he intends to establish a lace-producing plant. The board learned also that a complete lacemaking plant is also on the way here. The board decided that the immigrants shall be deported.

The estimated value of the vessels involved in disaster was \$6,127,500 and of their cargoes \$3,342,000, making a total value of property imperiled \$9,470,190. Of this amount, \$7,234,690 was saved and \$2,235,500 lost. The number of vessels totally lost was 61.
