GRAY'S CASH STORE

Pluck---Not Luck

...Built This Business...

It takes pluck to carry a full assortment of everything we want to sell you. It means investment of money, weeks, months and even years before the goods are placed in your hands.

It takes pluck to plunge sometimes that we may get discounts and thus make savings possible for you.

Low prices, coupled with goods of known quality, prove an irresistible attraction.

It takes pluck to get on the inside of the wholesaler's regular price. Our interests and yours are identical and if you are not satisfied, we are dissatisfied.

We want you to trade with us and intend to make it an object for you to do so. Take care of the pennies and they will make you dollars, and dollars are easier to take care of than pennies.

If we can save you a few pennies on small articles, what then can we save you on larger articles? Send your "Easter" to our store for small things. We can always save you a few pennies, and if you don't want them, give them to the child and make it happy.

It takes pluck to buy in large enough quantities to insure you this saving, yet we are most always assured of an outlet, since we give you the same advantage in price concession as we get. Our constantly increasing business is ample evidence that we are a practical store for a practical people. Winsome goods at winning prices. Quick sales and small profits.

ANNOUNCEMENT.

\$200 of Platte County Independent Telephone Co.'s 5 year 6 per cent bonds are yet offered for sale at par with accrued interest.

\$200 of these bonds were taken by investors in three lots of \$100, \$100 and \$50. Names of parties will be furnished on request. They consider them first class after careful investigation. If you are getting less than 6 per cent on your money you should by all means investigate this investment opportunity.

Remember these bonds are in denominations of \$100 each and are not as good for the man with \$100 to invest as the man with \$1000.

We are also now offering on the same terms \$200 of 10 year bonds due May 1, 1905. These bonds are just as safe and draw the same rate of interest and will appeal to those desiring a more permanent investment.

We now have over 40 orders for telephones on our books and can with ease increase our present list 100 during the current year.
