

# New Goods!

Probably the strongest feature of this store is our fondness for selling New Goods. You never hear of old goods here. New goods come every day. We mark them at the

## Lowest Prices,

known in this State, and sell them before they have time to grow old. That's the story of the success of this business, in a nut shell. Why should any one be willing to buy old goods, when we are selling the newest products of the world's mills, at prices that challenge any competition in the United States.

# Wash Goods!

It may seem early to talk of cotton dress goods, but it is not too early to buy them. The stocks are now at their best, and many of the choicest effects will be sought in vain as the season advances. The counters of wash dress goods are towers of beauty, we never had the pleasure of showing a stock so grand as the present, and there certainly is nothing like it in this city. Not a yard was carried over from last season. French mulls, in floral and conventional designs, French organdies, printed nainsooks, swival silk gingham, French chilies, French satens, will be strong this season, and deservedly so.

# WOOL GOODS!

More than 100 different styles of strictly all wool dress goods will be found in our Dress Goods Dept.

# FOR MEN!

Do you have your shirts made to order, are you paying big prices for them? If you will read this "ad" and then come in and examine our stock of shirts, it will be money in your pocket.

## 45 CENTS.

A shirt equally as good, made to order, would cost you like this:

3 yds muslin, at 9c,	27
1 yd linen, at 60c,	15
Interlining,	96
Thread,	92
Making,	10
Laundry,	10

The Marine Record says: "Captain S. B. Grummond, of Detroit, has issued plans for improvements

This evening there will be a meeting at the Opera House, given by the K. O. T. M., to which the public are cordially invited. Remarks concerning the Macabee order will be made by Rev. Frank Hoyt and Roland Connors, from outside, and by Rev. H. H. Van Auker and James McNamara.

The fishermen of the State have organized for the purpose of aiding their business, by trying to prevent the enactment of State laws injurious to them. The organization is termed the Michigan State Fish Association, and Casper Alpena, of this city, has been elected one of the directors. The members are at Lansing, trying to secure amendments to the State fish laws.

The number of members belonging to the various tents of the K. O. T. M. in this county, on January 31st, 1892, was as follows: Granite, 265; Thunder Bay, 279; Alpena, 214; Chaplain, 89; Long Rapids, 79; Lehigh, 67; Maple Ridge, 19. Total number of members January 31st, 1,032, being a gain of 37 during the month. The total number in the State is 47,350.

The Industrial Works is constructing a double excelsior machine for a firm in North Carolina. The machine is similar to the one made for the Alpena Excelsior Company, a short time ago. L. T. Kline, of this city, is the inventor of the machine, and it has been proved by actual work at the excelsior Works in this city, to be far superior to the old style. It does more work and takes far less room than the old-fashioned uprights.

The Detroit News reports that Albert Pack, of this city, has purchased a lot in Detroit with 174 feet frontage on Woodward avenue, and 250 feet on Ferry avenue, and that the price paid was \$12,900. That seems to indicate that Mr. Pack will join the Alpena colony in Detroit, and make his family residence there. Wherever he goes he will carry with him the best wishes of a large number of Alpena people. He has been a good citizen among us.

The Pioneer seems to know,—or at least would have its readers so believe,—all about how the Democrats should conduct national and municipal affairs. How would it work to consult this great dictator, as to what he would like to have done by the Democrats? Give the little crank a show somewhere, even though it be an opportunity to grumble,—for as a chronic grumbler, the Pioneer can do more of that business than any seven papers in Michigan. That appears to be its great stock in trade.

Frank W. Fletcher, of this city, has been nominated by the Republicans as one of their candidates for the office of Regent of the State University. Mr. Fletcher is one of Alpena's most popular and energetic business men, and as far as this city is concerned, we consider he is a strong candidate. He is the manager of the large lumber and paper pulp business of G. N. Fletcher & Sons, at Alpena, and has passed nearly all his life in this city. He will poll as large a vote in Alpena county as could any Republican.

An official of the Michigan Central railroad, who recently made the trip through Montmorency county, stated to the Alpena Tribune, "that he was satisfied that with a little agitation and aid, the Michigan Central would build the Lewiston branch to Alpena almost any time." It seems to us that it ought not to be difficult to get the people of Alpena and Montmorency counties to furnish the necessary agitation and aid. Such a railroad would be of great benefit to Alpena, as it would open up the large and fertile region west of this city.

Of the fifteen deeds left with the Register of Deeds of this county, last week, for recording, fourteen were tax title deeds. That gives some indication of the effect of the new tax law in causing people to pay delinquent taxes. In some cases the owners of the lands pay the delinquent taxes, but many are purchased by speculators, who really become the owners of valuable tracts of lands for a few dollars. There are to-day many people in the county whose homes have become the property of others, owing to their negligence in paying the taxes.

There were only ten persons present at the adjourned meeting of the agricultural society, held in the Council Room last Saturday, of whom seven were farmers. The Secretary, J. Monaghan, read his report, which was published in the Annots last week. An interesting discussion took place in regard to the past and the coming county fair, the care of grounds, and other matters of interest to the society. The principal object of the meeting was to elect a President and Treasurer, and directors from every ward and township, but it was thought best to postpone the meeting for two weeks, and see if a larger attendance of farmers could not be secured.

The following special to the Detroit Journal, from Bay City, is worthy of the earnest consideration of Alpena citizens: There is some talk of introducing in the Bay City council a resolution similar to the one recently adopted in Saginaw, which provides that every new industry be exempt from taxation for five years. Many of the large property holders favor taking such a course, and the idea is well thought of by a majority of business men. The fact of Saginaw holding out such inducements to manufacturers is incentive enough for Bay City to take action. That the adoption of a resolution of this kind would be a paying venture in the long run, is conceded by all.

The Marine Record says: "Captain S. B. Grummond, of Detroit, has issued plans for improvements

in his large fleet of boats, which are being rapidly carried out. The changes in the Grummond line will be confined to the tug Swain and the passenger steamers Depew and Atlantic. The passenger steamer Depew will receive a new shaft and boiler, and will be refitted throughout. Several new state rooms will be added to her. The Atlantic will also be refitted and thoroughly strengthened. She will be given steel arches and new deck beams. Changes are contemplated in several other boats of the fleet, but it has not yet been decided what shape they will take.

With the advent of March some interest is taken in marine matters, and a little talk arises on the opening of navigation. During the past 22 years there have been six seasons when navigation opened at this port in March, by the arrival of a vessel from Saginaw Bay, as follows: March 17th, 1871, steamer Marine City, from Detroit; March 20th, 1874, steamer Huron, from Bay City; March 10th, 1878, steamer Music, from Bay City; March 6th, 1880, steamer J. S. Faxon, from Bay City; March 6th, 1882, schooner Imperial, from Port Sanilac; March 31st, 1890, steamer Atlantic, from Detroit. The condition of the ice in Thunder Bay at present, indicates that it will be about the middle of April this year, before navigation opens. In the lake there is an immense quantity of ice.

### Marriage Licenses.

Steamer City of Mackinac.—Captain H. Slyfield; engineer, W. McDonald.

Steamer City of the Straits.—Captain D. McLaughlin; engineer, J. Middleton.

### Home Theatricals.

The dramatic company of the Happy Home Club gave an interesting entertainment at the Opera House last Thursday evening. The drama presented was entitled "After Ten Years, or the Maniac Wife." The various characters were well represented and the audience appreciably entertained. The company is a good amateur one, and did their work better than the average amateur companies. The cast was as follows:

George Monaghan J. L. Currier W. G. Monaghan James Smith J. E. McDonald J. E. King Mrs. H. Brown Mrs. B. Brown Mrs. E. King Miss Alice Kelly Miss Anna Thompson Mrs. W. H. Brown. The drama was repeated Friday evening.

### Kimball Case.

The case of the late Mrs. Herbert R. Kimball is well known to our readers, as mention has been made heretofore in the Annots in regard to the suspicion entertained that her death was caused by poison; of the exhuming of the remains; the examination by the city physicians, and the sending of a part of the stomach to a practical chemist to be analyzed. The chemist made an examination, and reported he had found arsenic in the stomach. On Thursday last the examination before the justice and jury was resumed. G. A. Shannon, undertaker, testified that he had embalmed the remains and that the embalming fluid contained poison. Another witness testified that no embalming fluid was injected into the remains. The jury, consisting of G. D. Bradford, Frank Stoddard, A. R. McKenzie, John Lee, Edward Hutton and A. B. deChampane, rendered a verdict to the effect that Etta M. Kimball came to her death by means of arsenical poison, administered by person or persons unknown. The person or persons guilty of poisoning are not yet known, but certain ones are suspected of the crime, and it is probable that an arrest may be made. It is the intention of the prosecuting officer to proceed cautiously in the matter, and not make arrests on the strength of mere rumor.
