

# A BAG OF MONEY

is comparatively easy to get, but keeping it after you get it is the hardest task men have to face. Money is swift-footed. It takes legs and runs away, and you can't tell where in the world it has gone. If all the money that has run away through fires was placed in a pile, there would be enough for everybody to fill their pockets and carry some away in baskets. How about your money?

Have you tried its legs with an Insurance Policy? If not now is a good time to do it, and the best agency to help you is,

## THE J. F. HURT INSURANCE AGENCY, Inc.

J. F. HURT, J. R. LAIRD,  
Pres. and Gen. Mgr. Sec. and Treas.

## The Best Policy

is to have a policy with a good fire insurance company. It is distressing to read now and then that so and so's house has burned down and "the loss is estimated at so much with no insurance." Then people say that Mr. so-and-so might have been all right had he been wise enough to have kept insurance on his house. There is no certainty that your house will always escape fire because it is yours.

The F. D. Kitts Insurance Agency has some remarks in this issue about "The Best Policy."

Hon. A. St. Clair has let the contract for his new residence to be built on the Lyons lot. Emschwiler & Barnett are the contractors and work will begin at once. The contract for stone work was given to Kincer & Vermillion.

The subscriptions of the "Republican" are increasing. We are so much occupied with our other work that we are not able to canvass in the interest of the paper. Why cannot our friends and readers help to extend the circulation of the paper? Urge your friends to subscribe.

Rev. J. N. Harman declares his purpose to build a tabernacle on Railroad Avenue. He expects to preach himself or have some one preach for him each Sunday in the tabernacle. There will also be a Sunday School held each Sunday afternoon and a prayer meeting on each Thursday night.

The time for holding a county fair has been changed. It had been fixed for the 1st, 2nd and 3rd of September. On Tuesday the Board of Directors met and decided to change the time to the 6th, 7th and 8th of October. This is a change of more than a month, but we think the season will be much more favorable and that the change is a wise one.

The old Lyons house has been torn down this week. It was the only house east of the east end of Main Street that was standing before the Civil War. There are now but two houses in the east end that were built as early as twenty years ago. The east end of our town is comparatively new, and is composed of many comfortable and pretty dwellings.

### ARE NOT NICE TO DRINK FROM

When tumblers and goblets are made so perfectly and sold so cheaply, there is no excuse for using a nicked-edged cup to put to the mouth. We are advocates of drinking plenty of good, cool water—pure Apolaris Water, for instance, and of drinking it from a clear sparkling glass.

You can buy a dozen goblets or a dozen very handsome tumblers
