

Don't Do It.

Don't let that fire insurance policy lapse. You may have the best of fire-fighting equipment. Your family may be very careful about handling the various combustibles about your home. You may think that with all the safeguards at your command your home is well nigh indestructible by the flames.

But, beware! Homes as carefully guarded are consumed by the devouring element every day.

There is absolutely only one sure protection—a fire insurance policy.

LET'S PLAY "PRETENSE"

Let us suppose that we represent the "wild-cat" variety of Fire Insurance companies. Let us imagine that we had written a policy for you, and your neighbor, and a fire should consume your neighbor's property; would you continue to pay us the premium on your policy when your neighbor failed to realize a dollar on his policy?

Could we ever get you to take another policy from us? Not much!

Our Companies pay losses in full before the ashes get cold.
