WOOL, WOOL, WOOL—We want your wool this season, and will guarantee you the highest market price. Whatever that price is, we can pay. To be perfectly fair with the grower and our competitors, we won't promise to pay you more than our competitors will offer you. That would be a little risky, and yet we may be able to do so, for the reason we are buying for a Boston manufacturer who makes our wools into cloth, and not dealers and commission merchants, as heretofore. We have about 800 sacks for distribution in different sections for convenience of those who let us handle their wool. We trust our past relations are such that you will feel warranted in selling us this year. We will take care of you, you may rest assured.

SUCCESSFUL MEN

Are those who set down and consider things carefully. They are sure they are right before making a move, but when they start they keep right ahead.
A successful man makes up his mind what he wants, and then gets the best of it.

THE NEXT BEST WON'T DO.

The best fire insurance is the kind he buys. He knows the best insurance is possible only when the agents are competent to write a policy right, and when the companies he insures in are strong and reliable.

Long experience has made us thoroughly competent, and the companies we represent are the strongest in the World.

The above has become a common expression. We do not know when our home will be wiped out. Yet we are
