10 PER CENT INVESTMENT

I HAVE an absolutely guaranteed investment of ten per cent in a piece of brick property (Business Block with Dwellings above) located in one of the very best if not THE best town in this entire section. This is new property in a strictly first class condition in every way, and is rented for over two years so as to yield ten per cent on the purchase price of same. A larger rental could be had but for the fact that same is under lease for this term, which shows the desirability of the property. Owing to the fact that the owner is going into business in his home town and finds that he needs the money, this property can be bought at cost. As the property in this town is very much in demand and is rapidly increasing in value, this is a splendid opportunity for a good investment.

Price of Property \$23,400.

Terms to suit purchaser. For particulars address
