The Teachers' Institute of Pendleton county will have a question before it which we consider appropriate, and if brought before the Highland teachers might result in good. It is this: "Are the schools of Pendleton county meeting the demands of the age? If not, in what particular are they failing, and what is your remedy?"

Prof. J. Luther Sheppe is assisting in holding a county institute at Pearisburg, Giles county. The Virginia, a newspaper published at that place, contains a long article in regard to the thorough and efficient work being done by him. In regard to the re-union of Hon. C. P. Jones' family, the South Branch Review has the following: "The Jones family will have a family re-union here on the 8th. There are rare instances in which an entire family figures so prominently as this family. Franklin may well feel proud of the sons and daughters of this family wherever represented."

A Harrisonburg exchange in sneaking of Monterey being the stopping-place of senators and millionaires recently, said that nothing was too good for Highland and that when Col. Machen came out to shake the bushes it wouldn't be long until we could find millionaires roosting on every limb. If the Colonel will do the shaking we will do the driving.

Chief Engineer of the C. & W. in town.

Chief Engineer O. H. P. Cornell and Mr. Newton Hannah were guests of the Commercial hotel, Monday night. Mr. Cornell is making this trip for the purpose of looking out all probable and possible routes through the mountains, for the C. & W., and the advantages and disadvantages of each. He says there are four routes over the Shenandoah and the one to be taken will depend on the amount of encouragement the company may receive from the people, and this will be the policy all along the line. Mr. Cornell's first move after reaching Monterey was to send an order to Capt. Walker, who has been at work on the Alleghany west of here, to move his corps to Monterey. On Tuesday he, in company with Mr. Hannah, made a flying trip through a portion of Pendleton and Pocahontas counties, returning Wednesday evening. We understand he says that while the country is very rough an outlet can be found in that direction by way of Bennett's Run and Hardscrabble. Mr. Walker's corps reached this place Tuesday evening after a weary march and went in to camp Tuesday evening near the residence of J. Trimble, Esq. Today (Thursday) Messrs. Cornell and Walker have gone to the Bennett Run country and it is the general opinion that the corps will be ordered there soon. Mr. Walker, we believe, is very well pleased with the result of his work on Alleghany. He made the statement that it would not take as much money to build the road through this country as he thought it would. This we think is encouraging. All we have to discourage us at present is this looking out a route through Pendleton county; but this should only hurry our people on to immediate action and cause them to hold out inducements the railroad people can't help listening to. We must not think of failing. The corps left this morning for the neighborhood of Hardscrabble.

It is reported here that Granville Keller, the well known hunter and trapper, living near Green Bank in this county has been missing for sometime and is supposed to have been killed by Indians while in the West. As it is well known Mr. Keller made frequent excursions to the Rocky Mountains for the purpose of hunting. He has been on one of these trips for some time now with a party of gentlemen from Pennsylvania, and news comes to us that the party has been annoyed by a band of hostile Indians. When a rescuing party reached the hunters all of the party were found save Mr. Keller and a Mr. Penrose, of whom all trace is disappeared. It is hoped the gentlemen will turn up all right but the worst is feared. —Pocahontas Herald.

The "fad" of beer drinking may look trivial. It is followed by the "fad" of kidney disease, as a direct consequence. And that is not trivial. That means the grave and is solemn. The situation would be truly alarming and threaten the extinction of the race were it not for two things.

1. There is always hope of reformation in the hearts of the people. When the dangerous increase of kidney disease is sufficiently sounded, there will be reform. This will assure future generations.

2. As to the afflicted of to-day, a knowledge of Dr. Fenners' Kidney and Backache Cure will restore all who are afloat enough to resort to its use before it is too late. Also cures female weakness, heart disease, rheumatism and all blood diseases. It will neither deceive nor disappoint. If in need take a bottle home with you to-day. Delays are dangerous. Money refunded if satisfaction not given.
