A Poor Stove

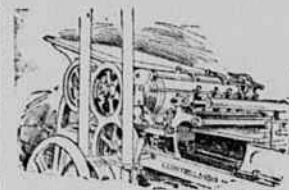

Will spoil the work of the finest cook. More money will be spent on it for repairs than the highest priced stove will cost. It won't wear—it will give endless trouble. The safe way is to buy a reliable stove, and a reliable stove always costs a reasonable price. The Acme Steel Range is the best we know anything about. You may be sure we would handle only the best. There are many makes, you know. We had our choice, and we choose the Acme. For good solid satisfaction and wear there is nothing like it. Price right.

TOILET SETS.—We have a line of ten pieces Toilet sets that we will sell at \$3—worth \$4. If you want a set, come now. Very truly,

WORTH WINNING—THAT \$400 PIANO

A Capacious Machine

One of our presses requires, when at its full capacity, something over a ton of paper to keep it moving between breakfast and supper. We have about a dozen presses; that's why we buy "tons and tons" of paper at a time—and buying "tons and tons" gives us the bottom of the market. Our customers get the benefit.
