NAME ON EVERY PIECE. The Business Transacted by Our City Fathers Tuesday Night.

The Council met Tuesday night, pursuant to an adjournment, and was opened with prayer by Rev. T. E. Carson, D. D., of Greene-Memorial Church.

The report of committee on sewers was submitted and acted upon. The committee recommended that the paving of the alley between Salem and Campbell avenues be extended...

The committee also recommended that in order to drain the spring on Kimball avenue, at the gas works, that the pipe through the Gas and Water Company's property be abandoned...

In the matter of recommendation of city engineer concerning complaints of the sewage north of Salem avenue flowing into Trout run, that the pipe at First street be disconnected, and that a connection be made with Salem avenue sewer at a cost not exceeding \$75...

the sewage north of Salem avenue flowing into Trout run, that the pipe at First street be disconnected, and that a connection be made with Salem avenue sewer at a cost not exceeding \$75...

Also recommended that the city engineer be instructed to construct a gutter between the courthouse and jail building in order to drain the yard, and make proper connection with the sewer at an estimated of \$5. Adopted.

Concerning the recommendation of the city engineer that new wheels be purchased for the Junior Hose Company's wagon at a cost of \$38, the committee recommended that the city engineer be instructed to purchase the wheels at once, at a cost not exceeding \$38, same to be charged to the account of fire. Adopted.

The engineer reported to the committee that the iron fences around the cemetery and in front of the City Cemetery needed painting, and having authorized the cost at \$8.50, authorized him to have the work done; also authorized him to have the rear fences of the City Cemetery whitewashed.

The committee presented an ordinance to provide for the management of the City Cemetery and sale of lots therein, which was read and referred to the calendar. The committee also presented the following resolution: Resolved, That the city auditor be, and is hereby directed to issue a warrant in favor of Joseph Strass for the amount of \$5, to reimburse him for the amount paid as rental fee for the use of city opera house for a meeting of citizens interested in the organization of a telephone company. Adopted.

The committee also introduced a resolution providing for the election of an assistant clerk of the markets, at a salary of \$45 per month for one year from August 1, 1896, which was read. Mr. Buckner moved that the resolution be referred to the finance and public property committee for report. Mr. Wilson moved that an assistant clerk of the market be employed from the first day of August to the 15th of September, and that the expense thereof be charged to the contingent fund. The question was taken on the motion of Mr. Buckner to refer, which was agreed to.

The committee on ordinances reported that the committee to whom was referred the resolution directing them to report an ordinance providing that the finance committee shall report first on the list of committees, reported that they did not deem it expedient to recommend any legislation on the subject, for the reason that the law does not provide what committee shall report first, but it is presumed that they shall be called for the reports in the order named. The committee on accounts stands first on the list, and if there is any good reason why the finance committee should report first, the report of the first named committee can be passed by whenever it is necessary in the judgment of Council.

An ordinance to amend and reordain section 2 of an ordinance approved June 17, 1895, in relation to renting, leasing or use of houses for immoral purposes, and an ordinance to prohibit persons from throwing glass upon the streets of this city, were recommended and referred to the calendar. Mr. Starkey, from the committee on lights, submitted the following report: The committee on lights has taken up the matters pertaining to the public lighting, but deem it best not to offer any recommendations requiring legislation at this time. The appropriation made for lights is only \$5,500. Last year lights for all purposes cost \$12,313.34, and it will be seen at this rate that only about five months appropriation was granted. If the Council expects the city to be lighted under the present conditions a subsequent appropriation will have to be made. As to the matter of contract between the city and the Roanoke Electric Light and Power Company, this matter was pending in the hands of the former committee, and it was found impossible to agree upon a contract which suited both parties. The Council rejected the form of the contract submitted by the company, and the company refused to enter into a contract submitted to them by the city. Consequently there is no contract for lighting the city, and as the Roanoke Electric Light and Power Company has not insisted on a contract being entered into, the committee cannot see why they are called upon to resurrect this subject in the face of what has already been done. On motion of Mr. Buckner the report was received and adopted. Mr. Boswell, from the committee on health, submitted the report, which showed that the general sanitary condition of the city is good, with the exception of certain localities, which have been and are receiving attention. In many instances the owners of property fail to comply with the law which require the provision of necessary sanitary boxes. The law is fully sufficient if it were but enforced, and the committee recommended that the mayor be requested to enforce the sanitary laws in this particular. The report was adopted. Mr. Fox, from the committee on accounts, reported a bill of R. E. Beeton & Son of \$21.35 for dog tags, chargeable to contingent, which was ordered paid. The bills on the calendar were considered. The first was an ordinance to provide for the management of the City Cemetery and sale of lots therein, which was read, considered and adopted. The next was an ordinance to amend section 2 of an ordinance approved June 17, 1895, in relation to renting, leasing or use of houses for immoral purposes, which was read, and an amendment offered thereto by Mr. Starkey, and together were referred on motion of Mr. Casey to the city solicitor for opinion. The next was an ordinance to prohibit persons throwing glass upon the streets of this city, which was adopted as read. An ordinance to provide for the management of the City Cemetery and sales of lots therein is as follows: 1. Be it ordained by the Common Council for the city of Roanoke, That the management and control of the City Cemetery property, located on Tazewell avenue, is hereby placed under the charge of the city engineer. 2. The city engineer shall, as far as practicable, ascertain the ownership of the various lots in said cemetery, and make a survey thereof, and properly plat the same; and said plat shall show the ownership of said lots so ascertained, or such as may hereafter be sold by the city. 3. The unsold lots at this date in said cemetery shall hereafter be sold at the following rates: One entire lot, \$50; one-half lot, \$25; one-fourth lot, \$15; and no lot shall be sold except upon application to the city engineer, who shall make an examination of the plat and ascertain that the right of the city in said lot is valid, and that the same has not heretofore been sold, in which case he shall notify the clerk of Council, who shall make a deed therefor, and have the same executed by the mayor in the manner required by the city charter. Said deed shall then be delivered to the purchaser upon the payment into the city treasury of the amount of purchase money required; and a record thereof shall be kept in the office of the clerk of Council. 4. In order that the record may be kept of the deed buried in the City Cemetery, the undertaker shall, before making interments therein, obtain from the city engineer a permit to make such interment. Application for same shall be made upon blank forms to be furnished by the city. This ordinance shall be in force from its passage. The ordinance to prohibit persons throwing glass upon the streets of this city is as follows: Be it ordained by the Common Council for the city of Roanoke, That any person who shall throw glass, broken or otherwise, upon the streets or sidewalks of this city, shall be fined not more than \$5 for each offense. This ordinance shall be in force from its passage. A resolution to appoint W. K. Andrews a substitute and proxy for the city of Roanoke in the stockholders meeting of the Roanoke and Southern railway, was adopted. The unfinished business was taken up.

The first was the list of police appointments submitted by the mayor in July in his message to Council. The appointments were read, whereupon on motion of Mr. Wilson the said appointments were referred to the committee on finance, in conjunction with the mayor, in order to ascertain the possibility of the city being able to pay for the services of as many men as appointed by the mayor. The next matter was that portion of the street committee's report laid over from last meeting, providing for a brick sidewalk in front of the First Baptist Church, which, on motion of Mr. Andrews, was laid over until the September meeting. A communication from the school board in response to the question raised in Council July 14, in reference to the removal of E. B. Crabill, a member of the school board, from district No. 2 to district No. 1, stating that in the opinion of the school board it is not in the judge of the qualification of its own members, was read, and on motion of Mr. Andrews, was laid on the table. Mr. Fox introduced a resolution providing for the appointment of W. K. Andrews substitute and proxy, and H. C. Starkey alternate, to represent the city of Roanoke in the stockholders meeting of the Roanoke and Southern Railway Company, which was read and adopted on motion of Mr. Wilson. A communication from G. W. Becker, manager of the Academy of Music, asking that the license tax be reduced, was read, and on motion of Mr. Wilson, referred to the finance committee for report. Petition of L. H. Faville, W. J. Jones, et al., asking that the nuisance occurring on Third avenue s. e. and lots adjoining Randolph street by persons trading horses, horse racing and loud and boisterous conduct, be abated, which was read, and on motion of Mr. Wilson referred to the mayor to have the alleged nuisance abated. A petition of Charlie Webber, asking that he be allowed to construct a stable in the rear of his store, No. 133 Salem avenue, also a wagon shed, was read. Mr. Hawkins moved that the request be not granted. Mr. Wilson moved to refer the matter to the fire and water committee, which was rejected. Mr. Starkey moved to refer the petition to the health committee, which was also rejected. The question being on agreeing to the motion of Mr. Hawkins, the same was adopted, and the petition refused. A communication from James McFall, chief of the fire department, asking that the Council appropriate \$100 to his expenses to the chief's annual convention at Salt Lake City, was read, and on motion of Mr. Hawkins, referred to the finance committee.
