Corporation Security Is the Best, Because

It relieves business men and persons possessing property from the necessity of saying "No" to friends and relatives who may ask them to qualify on bonds of various kinds, which, if they did, would create a continuing liability, impair their financial credit, and involve a possible loss.

When once adopted, it is never abandoned.

WEST END FURNACE CASE.
A decree in the West End furnace case has been filed, and perhaps was entered yesterday in the United States court before Judge Paul, of Harrisburg, Pa., but the commissioners, D. W. Flicker and P. L. Gray, who were appointed recently, have not been notified. The decree as filed provides for an advertisement of the sale of the property to be published, commencing thirty days from the date of entering the decree, and the advertisement to run for six weeks, and in case the decree was entered yesterday that would make the sale some time in the latter part of May. The decree further recites that out of the charges against the company over \$9,000 have been paid out of the personal property fund, about \$4,000, the amount of the labor liens, also has been paid out of this fund; over \$4,000 have been paid for taxes out of this same fund; \$30,000 for mechanics' liens; and for trustee's expenses, compensation and attorney's fees the amount paid is about \$3,700. It further provides that the commissioners shall not receive bids for a less sum than the aggregate amount of these items, and that all over that amount realized shall go to the stockholders. The decree also gives the supply lien creditors priority over the Philadelphia Warehouse Company. The supply claims amount to over \$44,000 and the Philadelphia warehouse claims to about \$60,000, and as the money on hand and the amount yet to be realized applicable to these claims will be applied to about the principal, there is a probability that the supply creditors and the Philadelphia Warehouse Company will agree upon a distribution of the funds arising from the sale of the personal property. It is rumored that a company is waiting for the sale and will buy the property and resume operations at once.

RECITAL AT HOLLINS.

Notwithstanding the inclement weather quite a good sized audience assembled at Hollins Institute last night to hear the violin recital given by Miss Kate Weaver's class. The young ladies all acquitted themselves with great credit both to themselves and their teacher and each number on the programme elicited the applause it richly deserved. The stately impersonations were very fine indeed and showed the talent of Miss Katharine Hopkins most advantageously. The violin solo by Miss Susie B. Williams and the one by Miss Rosa Coker were exceptionally fine. The whole entertainment reflected great credit upon Miss Weaver's ability as an instructor and the pieces played showed careful study and competent instruction. After the exercises a reception was held in the rooms of Mrs. C. H. Coker and a large number of friends assembled to shower their congratulations on the young ladies, who so nobly acquitted themselves. Hollins is celebrated for its entertainments and the one last night can only be chronicled as one more glorious success in that line.

COMMITTEE MEETING.

The committee appointed at the last meeting of the railroad employes to investigate the matter of a cooperative store, held a meeting in the room of Mr. Howson, chairman of the committee, last night. The committee have written for the plan of operation and some statistics from co-operative stores in other States and will report at the next mass meeting, the time of which has not yet been decided.
