Carl Hayden's War Record

Two years ago, Carl Hayden, Representative in Congress, in a printed letter dated August 28, 1916, addressed, "To the People of Arizona," said:

"I have not hesitated to address the House of Representatives whenever I thought that I could contribute new ideas to the discussion, or when the welfare of our State was involved, but I recognize the fact that the Legislative record of a Congressman CAN BETTER BE JUDGED BY HIS VOTES ON IMPORTANT BILLS than by his oratorical efforts."

Following are six important war measures according to the National Security League. Hayden voted wrong five times out of six.

HE VOTED AGAINST: Kahn Amendment to the Hay Army Bill, March 23, 1916. This amendment sought to increase the regular army to 1,780,000, or more nearly approaching the recommendations of the General Staff of the Army.

HE VOTED AGAINST: Brandegee Amendment to Hay-Chamberlain Army Bill, April 18, 1916. This amendment provided for an army of 250,000 as against 140,000.

HE VOTED AGAINST: Section 56, providing for a volunteer reserve army, wholly under federal control, April 18, 1916.

HE VOTED AGAINST: Motion to re-commit naval appropriation bill, June 2, 1916. This motion was designed to instruct an increase in the navy beyond what was provided in the original bill.

HE VOTED FOR: Declaration of war against Germany, April 5, 1917.

HE VOTED AGAINST: Kahn Amendment to Conscription Act, April 23, 1917. This provided for the raising by conscription, of the necessary army to give effect to the declaration of war.

Hayden voted for war, but voted against everything with which to fight the war.

He voted against a volunteer army.

He voted against raising the army by conscription.

He introduced in the House at the request of Bill Cleary, the I. W. W. leader, a bill to prevent citizens of Arizona from defending their homes.

He is against universal military training as now being carried on by the government.

He voted to exempt his own salary from the income tax.

If you do not believe it read his speech against conscription in the House on April 15, 1917, and has published letters on universal military training.

The National Security League plays no favorites, but gives the entire Congressional vote on the above important war bills. Hayden's record is among the worst.
