## SOME OF THE BITS YOUR LIBERTY BOND WILL DO

Look For the Clock

If you buy a \$100 bond of the Fourth Liberty Loan you are lending the United States Government enough money to feed a soldier in France a little more than seven months. Or you have furnished enough money to give him a complete outfit of winter and summer clothing, including shoes and stockings, and slicker and overcoat and blankets, with enough left over to arm him with a good revolver. You have done that much to beat back the Hun.

It takes \$35 more to arm him with a rifle with a bayonet on it, and if you buy a second \$100 bond you furnish him this rifle and 1,000 cartridges for it; and there will still be enough of your money left to purchase a good-sized bomb to throw in a dugout, or demolish a machine gun together with the Huns operating it.

# Truly Remarkable

Is the expression voiced daily by visitors in our big Wonder Store, and "Truly Remarkable" it is indeed, until they consider the class of people who have made of the Central Commercial Co. the complete merchandising unit that it is, for it is a well known truth that the big stores which people build by their patronage are a faithful reproduction of their advanced ideas

Kingman people demand the very best in merchandise and nowhere in this part of the state can they satisfy that demand as well as within the walls of this big institution.

We have a big store, but its very BIGNESS means that it can give you a better selection of merchandise at greater prices—more for your money, and can serve you better than would otherwise be possible. And our future growth will be in direct proportion to the needs and ideas of our patrons.

### The Upkeep of a Home

demand a certain amount of painting and refinishing before the stormy inclement days of winter. Perhaps you have noticed the paint wearing off the front porch—maybe its the front door that looks a little shabby, or it may be that your Fall house-cleaning has disclosed wear and tear inside the house that had better be repaired with one of our wear-resisting finishes before it gets any worse. No matter what your need may be, there is an Acme Quality finish for just that purpose, and so perfectly mixed and prepared that you can use it yourself as well, and secure as good results as an experienced painter.

## Crisp Fresh Fruits and Vegetables

from our modern cold storage plant are helping destroy the old desert custom of "living out of a can" that has prevailed for so many years. Our plant is kept at a temperature just right to insure fruits and vegetables arriving at your kitchen ready for use as fresh and tasty as when coming direct from the field. Service of this kind is the stuff of which best-store-in-town reputations are made of.

## Save Your Worn Tires

**SECRETARY McADOO** in a recent speech had this to say in regard to half-sole principles: "Half-sole breeches and half-sole shoes are badges of honor. I wear them myself and am glad to recommend them. I like to think I am releasing leather for a soldier's feet, and clothing for a soldier's body."

The use of Gates Half-Sole Tires saves rubber, tire fabric, shipping space, labor and money. It is our patriotic duty to conserve all of these for the winning of the war.
