THE DAILY EPITAPH IS

the only Daily Newspaper published in Cochise county that takes a regular telegraphic press report and does not use "boiler plate."

THE DAILY EPITAPH is informed by a reliable gentleman that when the Republican Board of Prison Commissioners made a demand for the custody of the books and papers and management of the prison, they were politely informed by the old board that as far as they were concerned individually they would cheerfully surrender their authority, but for political reasons they declined to do so, unless the courts should decide against them. This is contrary to the general belief that had obtained, it having been given out that the Zulick board were only waiting for a formal demand to be made on them, when they would turn over their office, like the gentlemanly Democrats they were supposed to be. But, pshaw! What is the use of trying to get a Democrat out of office unless you hit him over the head with a club and drag him out?

HON. P. R. BRADY, one of the best known men in Arizona, and who has always stood high in the estimation of his fellow citizens, irrespective of politics, cannot afford, for political reasons, to attempt to shield Stevens in his apparent rascality, nor attempt to hide any other shady transaction. He owes it to himself and his friends to come out and expose any crooked work in the management of the Territorial prison, if he is aware of any. The public generally would like to hear from Mr. Brady, and anything he might say on the subject would carry weight.

HON. G. H. STEVENS did not attend the last meeting of the Board of Prison Commissioners. As he had about \$6,000 in his custody belonging to the Territory, which had been paid by the general government for the feeding of government prisoners at Yuma, and had been instructed by the other members to produce it at the meeting just held, his absence is rather peculiar. Some say he is in California, and others that he is in Texas. The last time Stevens was in Tombstone he run things high for luck generally.

ANOTHER charm has been cast into the seething cauldron of our Territorial muddle. It has been somewhat of a mystery why Governor Wolfley's appointees as Prison Commissioners did not demand their office. They have done so finally, and another attraction is thereby added to our Territorial circus, with the Governor the center of attraction as clown and Clark Churchill as ringmaster. However, we are glad to see that the Republican board has plucked up enough courage to demand their office.

A LITTLE bird has whispered in our dexter auricular that some interesting news concerning Arizona officials is likely to be heard from Washington any day.

Up to date, as far as can be gleaned from our exchanges, the only Board of Supervisors that has taken action in regard to calling an election for delegates to a constitutional convention is that of Maricopa. It would now be in good taste for them to drop the matter, as one county holding a constitutional convention would only make a mockery of the movement for statehood. Having been a consistent and earnest advocate of the movement, and still firmly believing that the proposition was favored by a majority of the citizens of the Territory, the Daily Epitaph would suggest that the proper course now in prospect is to leave nothing undone to bring before the hands of our Delegates, Hon. Mark Smith, when he shall have in a few days, the winter to get on a shuffling net through Congress. But probably even this would be useless, as an act of Congress would be a most desirable one for our present situation.

Tucson is again excited. This time it is because some boys in the public school got what they probably were itching for and no doubt richly deserved. All this sentimentality about the average small boy is sadly misplaced. And the chances are that these same fathers and mothers who are making such a fuss about the punishment of their dear children would, on slight provocation, lift said children about fifteen feet on the top of their boot.

THE Phoenix Gazette man has got both his hands all tangled up in the hair of the editor of the Phoenix. It may turn out that the Gazette man has caught a Tartar, as Brown is a pretty good fighter himself. As to the cause of the attack on Mr. Brown, we very much doubt whether Mr. Tumbstone has been correctly informed.

THE petition circulated in Tombstone endorsing Judge Barnes was not in the hope of his retention in office, but was in the nature of a counter move to the efforts of Marshal Meade to blacken his character. It was signed by all the attorneys that were present in Tombstone that day, with one exception.

THE MARITIME CONFERENCE.

In Memory of Sunset Cox—Railroad Accident—Sensational Death by Electricity.

SPECIAL TO THE DAILY EPITAPH.

Killed by Electricity.

New York, Oct. 11.—An electric line man met with a horrible death at the corner of Center and Chamber's streets this afternoon from contact with an electric light wire. He was employed by the Western Union Telegraph Company. He presented a terrible sight as he died on the network of the wires in mid air, while the deadly fluid actually made his body shiver and blood poured out on the sidewalk and over scores of horrified spectators. The accident occurred in the middle of the day in one of the most public parts of the city and was witnessed by a large crowd of people. The man's body lay limp and motionless over the mass of wires, attached to the crosspiece of a pole. Firemen brought out ladders and one went up with a pair of shears to cut the wires. The line man was found to be dead. The wire in fifteen minutes had burned off half the face of the victim. His left arm was also burned. Every few seconds blue flames spurted out from various portions of the body. Hundreds of people stood shivering as they looked at the awful sight overhead. No one dared go near immediately after the accident. Mayor Grant was notified and gave orders that the wires that caused the accident be cut at once. It is supposed the Mayor will order the cutting of all the electric light wires above ground to-night, whereupon a large part of the city will be in darkness.

In Memory of Sunset Cox.

New York, Oct. 11.—A large assemblage gathered tonight in the Cooper Union Institute to hear the services in memory of the late Congressman, Sunset Cox. Ex-President Cleveland, who was president of the meeting, paid a high tribute to the character of the dead statesman and closed by saying: "I beg you to take home with you among the reflections which this occasion has awakened our appreciation of the truth, that if we are to secure for ourselves all the blessings of our free institutions, we must better appreciate the interests we have at stake in their scrupulous maintenance, and must exact of those whom we trust in public office, a rigid attention to the demands of public duty." Among other speakers was Congressman Proctor Knott whose address was a warm tribute of personal friendship.

The Steamer City of New York.

SANDY HOOK, Oct. 11.—The tugs have ceased pulling on the steamer City of New York, which is still sinking in the mud. She is being lighted and another attempt will be made to pull her off at high tide to-night. In the opinion of expert engineers, the strain upon the vessel by the fearful hauling about she has received, has caused her a severe injury, which it will take time and considerable money to repair.

Charges of Corruption Against Consul Lewis.

WASHINGTON, Oct. 11.—Secretary Blaine has cabled to Mr. Lewis, United States Consul at Tangiers, to appear at the State Department, at Washington, and meet the charges of corruption made against him by Renexalis, a Morocco merchant, who came all the way from Tangiers to prefer his charges.

The Maritime Conference.

WASHINGTON, Oct. 11.—Delegates to the Maritime Conference are beginning to arrive. The first to report was Capt. A. M. Bisbee, delegate from China. Chevalier St. Ebin, Italy's delegate, will be in Washington within a day or two. The conference will meet next Wednesday. Arrangements for the formal opening are not yet announced, but it is probable that Secretary Blaine will receive the delegates at the State Department. America's delegation, headed by Admiral Franklin, will meet in Washington on Monday for a preliminary consultation.

Will Grant a Concession.

St. Louis, Oct. 11.—Advices from Mexico say: The bill to grant a concession to Henry C. Ferguson and Wm. H. Ellis, two colored men from Texas, who propose to colonize land in Mexico with negroes from Texas and other American states, has passed the lower house of Congress and had gone to the Senate. It is believed it will pass and be signed by President Diaz. Ferguson and Ellis expect 20,000 negroes from Texas alone, will move to Mexico and raise cotton on these lands and that many thousands of industrious blacks skilled in the cultivation of cotton will follow from States east of the Mississippi river.
