LOCAL NOTES.

The saloon men of Tombstone are determined to have justice.

The Bisbee steam wagon is doing such good work, that the mules have begun to kick.

Tomy Gates, succeeded in "catching" on to the position of superintendent of the prison.

Billy Fay, a well known sporting man of Tombstone left for El Paso yesterday.

Mexicans are getting to be quite expert in the American art of stand and deliver.

Wallace Corbet, and General Rollins, are located in Los Angeles, in the real-estate business.

Has anybody seen the color of the \$20,000 said to have been up on the ocean yacht race.

The anarchists must go. This country don't desire to be ruled by a class of this kind for a time at least.

Father Dolje, the genial catholic priest returned yesterday from Bisbee, at which place he had been on church business.

The new license law went into operation the first of April. So the battle against it, is to be fought at once.

The Rattlesnake mine is now reported as enjoying a boom. It is producing an immense quantity of rock of a high grade.

The autopsy of the remains of H. J. Brawley revealed the fact that a blood vessel of the heart had burst, which without doubt caused his death.

Jim Eate and Catlett are working a new "find" in the Dragoons and are of the opinion that their prospects are great.

The Supervisors of Pima have, in a way, set down on their county physician and ordered him to buy his hospital stores and medicines in open market instead of by contract.

Mr. W. W. Woodman returned from the Omega mine in Sonora yesterday. The question of the erection of hoisting works on that property has been abandoned for the present.

Mr. E. J. Terrill, who has been prospecting in the Huachuacas for the past two months returned Tuesday to this city. Mr. Terrill is looking better for his trip.

The EPITAPH is pleased to learn of the appointment of Richard Rule to the position of Secretary to the Prison Commissioners. Dick is a competent, reliable man, and will fill the place with credit and ability.

By increasing the salary of its Governor from \$4,000 to \$5,000 Ohio hopes to secure greater men for that place. Now that the thing has been made an object, perhaps Rutherford B. Hayes would try it again.

The men who make the dynamite shells to be used in the United States navy think that one of them will kill a thousand men, blow up a ship, or destroy a ten-story building, but they are having trouble in finding things to experiment on.

Another Boston jury has decided that shaving on Sunday is neither a work of charity nor of necessity and that it is therefore unlawful. With a great many of the younger generation of Bostonians shaving is clearly a work of supererogation.

Jesus, that is Jesus Cahoe, not Jesus of Nazareth, who was tried before Pontius Pilate, but a modern Mexican who was accused of violating the name of "The Redeemer" was tried before Justice Shearer for stealing a blanket. The jury forgave him and in an off way in the absence of proof said, "go and sin no more."

SALOON MEN IN COUNCIL.

They Organize To Contest The Late License Law.

Pursuant to a call of several saloon men of Tombstone a large number of liquor dealers met at the City Hall last evening for the purpose of advising as to the best method to be adopted in reference to the late unjust license law enacted by the fourteenth legislature. There were a large number of interested men present and Henry Campbell was unanimously elected President of the Association, Harry Stevenson Secretary, and Chas. Haefner Treasurer. After the election of officers the following resolutions were adopted without division by the organization and the members present signified their approval of the document by attaching their signatures thereto.

Whereas, The last Legislature of the Territory of Arizona passed a new License Act, which we the liquor dealers of the City of Tombstone and of Territory generally deem unjust and discriminating, being class Legislation, in that it applies only to one class of business, and exempts others and also as being illegal and unconstitutional, and in direct conflict with the Harrison act, for the government of Territories. Therefore be it

Resolved, That we the liquor dealers (wholesale and retail) of the city of Tombstone, county of Cochise, Territory of Arizona in meeting assembled, do now constitute ourselves into a permanent organization to be known as the Liquor Dealers Protection Association of Tombstone.

Resolved, That the object of this Association shall be the mutual protection of each other against unjust extortion and discrimination of outside influences.

Resolved, That this Association thank and assist the Prescott Association in their endeavors to contest this unjust License Law in the courts of this Territory and if necessary carry it to the Supreme Court of the United States.

Resolved, That this Association be assessed pro rata of all expenses for contesting the same.

Resolved, That we cordially invite all the Liquor dealers of the county of Cochise to act with us or when possible to form separate association and notify the President of the Tombstone Association of such organization, the name of President and number of members.

Resolved, That the officers of this Association shall consist of a President Secretary and Treasurer.

Resolved, That all Liquor dealers desiring to become members of this Association, will sign their names to these resolutions.

Ireland Judgement:

Tremendous excitement prevails in all parts of Ireland over the new Coercion bill, out-door meetings are being held and the ministry are denounced by the people in very severe terms. In all places there is an intense unity of feeling favoring the National League and a hatred of the Government. It is now fully understood said one person, "how the Americans of 1775 must have hated Lord North the Salisbury of that day, who wished to govern the Colonial home members with alien laws, alien taxation and with the propositions to try the Boston patriots in London." These and many other expressions show how deeply the patriotic feeling of the Irish people are stirred. The scene in the House of Commons and the dignified withdrawal and protest of Mr. Gladstone with his Liberal associates and Parnell and his associates have been telegraphed all over Ireland. The name of Balfour is becoming so hateful that many cool heads fear the consequences of his return. Freeman's Journal has been looking up his family record and finds that the Chief Secretary is a politician who must take a filial interest in evictions, his father having depopulated a district in the Scotch Highlands, the inhabitants of which were the owners in old times. He was no half hearted evictor. Even in the history of Irish landlordism, few more iniquitous exterminations have been recorded. If there were any difference between the two—the Irish and the Scotch—evictors

it is in the favor of the former. At the time that Balfours father commenced his career as an evictor Strathcaine was inhabited by one of the most prosperous communities in the Highlands, a large proportion of the people being comparatively well to do. Balfour commenced depriving them of the hill and pasture held in common. At one blow the people were reduced from independence. Next he deprived them of their arable lands and finally evicted them, though not owing him one penny of rent. The depopulated glens were converted into sheep walks, deer forests and plantations. Eight districts were successively cleared, until Balfour could boast that he had flung 500 Highlanders homeless on the world.

Sonora Hydraulic Gold Fields.

T. J. Williams, a well-known mining man, is in from Sonora. He has been down as far as the Yaqui river, and reports a tract of country between it and the Rio de Batepito as a rich placer country, paying all the way from a cent to three cents a pan. The placer tract is about four miles long by over a mile wide. Every foot of it will prospect. Mr. Williams says the lay of the country is such that it could easily be worked by the hydraulic process and pay millions, as plenty of water can easily be obtained from the Yaqui river. He says if diggings were in California there would be a thousand men working them to-day. There is no slickens law in Mexico, and it is Mr. Williams' intention to organize a company in California for the purpose of working the ground by hydraulic means. He reports that the Mexicans of that section are anxious to see American capital and energy there, as the country has been known for a long time and no well organized attempt ever made to work it in a business-like way.

Steins Peak.

Frank Balardo returned yesterday from Volcano City at which place he has been in business for the past three months. Frank has leased his fine saloon to Mr. Hood who is post-master and merchant at that place. Mr. Wyatt the man who was shot some time since is rapidly recovering from his wounds and will in a few days be well enough to be moved to Lordsburg to be near his physician. The man who did the shooting was taken to Deming and upon examination was set free. Frank reports everything in and around Volcano City as prosperous as ever and has unbounded faith in the future of that district. The mines are all looking well and getting richer as depth is attained. This district is like all other new districts it needs capital before it begins to prosper, and it looks as though this coy maiden capital would soon lend her aid for the development of the many mines in this section.

Mexican Thieves.

Four Mexicans raided the ranch of the Monk brothers, near Bowie, last night and stole their entire band of horses. William Monk, a brother of our Probate Judge, and the Deputy Sheriff at Wilcox, went in pursuit of the thieves who it is reported were moving rapidly eastward. This gang of Mexican vagabonds are depredating throughout entire Southern Arizona, and they have succeeded in obtaining many valuable horses. Sheriff Slaughter and a posse of six men left last evening for the purpose of intercepting these jailbirds. Knowing Mr. Slaughter's qualities as a stayer, we anticipate that these fiends will come to grief.

County Records.

The following documents were filed in the County Recorder's office yesterday:

DEEDS OF MINES.—J. C. Bullard to Edward Moorehouse— $\frac{1}{2}$ interest in Emily mine, Tombstone, District: \$100.

BILL OF SALE.—James Percy et al. to W. H. McKittrick—All cattle running on the Oak Grove range in their brands; \$15 000.

A cursory perusal of some Eastern Republican newspapers leads to the horrible suspicion that it is going to take a big pull this year to "save" Rhode Island. Can it be possible that Rhode Island, that ancient principality of the Almighty Dollar, where citizenship depends upon money, is in danger of waning off after strange gods?

A recent letter from Washington says several of the oldest and most experienced correspondents in that town have gone over to the Spiritualists, and that they are dragging many of the newer members of the fraternity after them. This may account for some of the many visions which are telegraphed from that quarter.
