SONORA NEWS.

Mining and Other Items from Our Sister State.

Two of the mills at Prietas have shut down and the diamond drill at the Creston is laid off. Many men are out of employment.

It is said that the new superintendent who took Mr. McCarthy's place

at Prietas is firing men right and left to make room for other people.

Representatives of the United Verde company went out to the Mexicana mine Wednesday to expert the mine with the view of buying.

Warren Hart, editor and proprietor of the El Paso Times, passed Thursday from Sonora where he had been to look at some mines in which he is interested with Ex-Gov. Thornton of New Mexico, Collector of Customs Davis at El Paso, and Bill Fuel of the same place.

The work of laying the foundation for the new theatre at Guaymas has been commenced.

He Beat James.

Thursday morning Sheriff L. H. Orme of Maricopa county, arrested one Miller, who was traveling in company with a deaf mute taking subscriptions for Yours Truly. Miller and his deaf and dumb wife have been all over the territory and it seems the man has defrauded many people in different ways. He takes orders to enlarge pictures and collects part of the money at the time of taking the order but fails to ever have any pictures enlarged. Not making money fast enough this way he commenced hiring buggy teams and borrowing money on them. His last act and the one for which Sheriff Orme took him back to Phoenix was the pounding of a team to W. K. James formerly of Nogales. He had hired the team from Phil Metz of Mesa City and let Mr. James of Phoenix have it for \$100 on which Mr. James only charged him five per cent per month.

KILLED BY LIGHTNING.

Uncle Sam Loses Ten Horses at Fort Huachuca.

The following was received by the Prospector yesterday from Fort Huachuca and shows what havoc was wrought during the heavy storm there Saturday:

During the thunder storm on the 29th lightning struck one of the government stables at this place completely razing it to the ground and burning up eight horses and two mules and other horses had a narrow escape as they were only rescued by the most heroic efforts of Uncle Sam's men, it was also the fine work of the fire brigade that prevented the fire from spreading to other buildings.—Prospector.

The contractors working on the gold properties of J. R. Carty now held under lease and bond by Supt. Franklin are showing up fine. The incline is down eighty feet, the ore improving steadily from the surface. The work is being done on the dividing line between the Amador and Eldorado. The The Tualama and Mariposa also belong to the group and their surface indications are equally promising.
