The Recall 134 Years Old.

(Chicago Tribune.)

Representative government is
fine in theory, but the experience
of a century has shown that the
men who are chosen by the peo-
ple to represent them are not
always true to their trust. They
forget that they are only agents
and assume magisterial func-
tions, and so the people, who are
the source of power, are adopting
direct legislation. It is a radical
change, a grand progressive
movement, a virtual political
revolution.

Representative form of gov-
ernment has developed a class
of government has developed a
class of unpatriotic persons who
fatten by systematically corrupt-
ing the people's representatives.
These men do not desire a change.
They particularly condemn
the recall and call it a "new-
fangled" idea, forgetting or
ignoring the fact that it is older
than the constitution.

The articles of confederation,
which was the organic law of
this country previous to the
adoption of the present consti-
tution, were adopted on Nov-
ember 15, 1777. Article V of
that time honored document
contains the recall. It may be
well for such of our reactionary
fellow citizens who have forgot-
ten it, to read it again. It is as
follows:

Article V.—For the conveni-
ent management of the general
interests of the United States,
delegates shall be annually ap-
pointed in such manner as the
legislature of each state shall
direct, to meet in congress on
the first Monday in November
in every year, with a power re-
served to each state to recall its
delegates, or any time within
the year, and to send others in
their stead for the year."

This is where we got the recall.
It is not new.
