The Oregon sailed and the Columbia arrived yesterday.

Sheriff Twombly returned from his Nehalem trip Wednesday evening.

Mr. W. H. Twilight is now employed at the store of Messrs. Page and Allen.

The weather yesterday was quite cool and gloomy, with slight indications of rain.

The Columbia was yesterday detained in Bakers bay several hours on account of scarcity of water at low tide.

Mr. W. L. Robb has left the city for Tanzy point, where he will be engaged as book-keeper at the works of J. Williams and company.

Mr. E. P. Thompson, formerly of this city, arrived by the steamer Columbia and proceeded up river. He will return by the same steamer.

The Occident Packing company received yesterday by steamer Columbia a lot of machinery, presses, cutters, etc., for their new cannery.

The Ryevale has discharged about 1000 boxes tin at Flavela dock. About fifty tons salt will also be discharged before the vessel will go up river.

The steamship Columbia, from San Francisco, yesterday brought a large number of passengers, numbering in all about 200. She discharged a large lot of freight at this place before proceeding up river.

The little town of Ilwaco is soon to have water works. A few days ago a contract between Mr. J. D. Holman and another party was executed for laying water pipe conducting water into the town of Ilwaco from Mountain spring, from which spring lake Holman is formed.

The Astoria fishery (the large Kinney cannery) are making active preparations, and intend to run their cannery to its full capacity during the coming fishing season. Twenty new racks will be constructed on the west side of the cannery. The piles and lumber are already here and work will be immediately commenced.

The editor of THE ASTORIAN, writing to a friend in this city under date of February 6th, from Chicago, says: "I always grow fat on a trip across the continent. There is something in the air which seems to agree with me. Like Hamlet, I am waxing fat and scant of breath, my dress suits stretches to its utmost extent over my rotund figure, and my neck is reddening and rising above my collar in a tell-tale way."

By reference to our new advertisements in another column our readers will note that E. C. Holden has been commissioned to sell at public auction a large and valuable stock of silver ware consisting of all the varieties used in housekeeping. It is a portion of a large bankrupt stock of one of the heaviest houses in San Francisco and has been selected expressly for this market. The goods arrived on the ocean steamer yesterday, will be opened to-day, and on exhibition all day Saturday. The ladies are particularly invited to call and examine these goods, and seats will be arranged for their special benefit at the sale on Saturday evening.

Our Home Industries.

The large orders for boots and shoes which are being shipped from the Astoria Boot and Shoe factory of Messrs. Leinenweber & Co., at upper Astoria, is a conviction of the fact that the establishment of this company fills a want long sought for throughout the entire state. Yesterday morning Messrs. Leinenweber & Co. shipped to one firm alone in Portland, Alsea, Seiling & Co., eighty-five cases of boots and shoes. Besides this they will have in the Oregon Railway and Navigation company's warehouses, ready for shipment in a few days, one hundred and fifteen cases. This factory is now running to its full capacity and has done so every since its commencement, always having had a large number of orders on hand, waiting to be filled. This fact alone shows that these goods are of a superior class, and serve still further to demonstrate the power to produce as good boots and shoes here as any place in the world. In many branches of manufacture, we think Oregon already equals, and even exceeds, the east; and when we come in contact with an establishment of this kind, we deem it but a duty we owe to the public to make it known as widely as possible.

The tenth annual session of the Oregon state temperance alliance convened at Portland on Wednesday last.

The steamer Granada, from Panama, was quarantined at San Francisco on the 16th with one case smallpox on board.

A correspondent writing from Ilwaco to the Oregonian says that six new buildings are just being completed, and twice as many more will be commenced within a few weeks.

The British bark Countess of Rothes, from Middleborough, England, to this port, put into Gibraltar January 19, and reported having encountered a heavy gale in 38 s. 12 w. Lost running gear, shipped cargo and other damage.

A nice lot of eastern oysters at Rossmore, arrived yesterday by steamer Columbia. Call at our office. You will find them first class.

Marvel not that I say unto you, ye must pay the printer. Whosoever neglecteth to pay the printer, hath not eternal life abiding in him. Who hath sorrow, who hath woe, who hath the nightmare! They who forget to render unto the printer his just dues. If a man live many years and payeth not for THE ASTORIAN, behold he shall not die in peace till he hath rendered to the printer that which he hath withheld.

Cannerymen would gain much by leaving us their orders for incidental printing now, to be done leisurely during the winter months—saving time and money, and avoiding the risks of a spring rush of work.

WARRANTS deeds at THE ASTORIAN office.

There is not now any better newspaper, nor one more consistently devoted to the building up of the country than THE ASTORIAN. At the price of Two Dollars per year it is the cheapest as well as the best. With your aid and encouragement we shall be able to make further improvements to enhance its field of usefulness.

What a Telegram Did.

A piece called the Death of Lincoln was produced at Munich in the latter part of 1865. The author resided at a distance from the town, and was communicated with by telegraph concerning two or three important changes. The author wishes the murder of Lincoln to be narrated—not to take place on the stage; but the manager was against this, as he was a sensation-lover, and he, therefore, sent a peremptory telegram to the author in these words: "The murder must be committed in the box. Reply quickly." The telegraph employee who received the message was so alarmed that, instead of forwarding it to the address, he communicated it at once to the commissioner of police, who in his turn considered the information of sufficient importance to put his brethren of the police on the qui vive at Munich, and the machinery of the law was at once put into operation to arrest the murderous conspirators. Happily the manager was able to convince the authorities, and so the matter ended with a sensation story for the papers, which turned out to be a capital puff preliminary for the piece.

Central Hotel.

The Central hotel, near the steamship dock is now open for the reception of guests, where the well known caterer, Mr. Anton Beloh will always be found ready to wait on his patrons. Several furnished or unfurnished rooms at Mrs. Munson's lodging house. Also, a few persons can have board if required, either ladies or gentlemen.

Some say that it is no use for them to advertise, that they have been in the place in business all their lives, and everybody knows them. Such people seem to forget to take in consideration that our country is increasing in population nearly 50 per cent. every ten years, and no matter how old the place may be, there are constant changes taking place; some move to other parts, and strangers fill their places. In this age of the world, unless the name of a business firm is kept constantly before the public, some new firm may start up, and by liberal advertising, in a very short time take the place of the older ones, and the latter rust out, as it were, and be forgotten. No man ever lost money by judicious advertising.

Mr. J. Stewart, stone and marble cutter of Astoria will guarantee satisfaction to all orders for work of him, and will do a better job for less money than any outside workman. Tin Plate, Pig Tin, Etc.

Geo. W. Hume keeps constantly on hand, and to arrive a full line of fishermen and cannery supplies, at prices which defy competition. Parties wishing groceries and those intending to run mess houses should inspect goods and obtain large discount from regular price.

From a Prominent Physician.

Washingtonville, Ohio, June 17th, 1880. Reading the advertisement of Kendall's Spavin Cure and having a valuable and speedy horse which had been lame from spavin eighteen months, I sent you for a bottle by express, which in six weeks removed all lameness and enlargement and a large splint from another horse, and both horses are to-day as sound as colts. The one bottle was worth to me one hundred dollars. Yours truly, H. A. Bertlett, M. D. Read advertisement.

Syphon Study Lamp.

Hon. J. W. Case, of Astoria, in placing the new Syphon study lamp on the market, would call the attention of the trade to some of its merits. Directions accompanying each lamp. Call upon Mr. Case and buy one. He sells them at remarkable low rates.
