How to Get a Timber Claim.

The first, second, and third sections of the act of congress of June 3, 1878, provide for the sale of surveyed lands in California, Oregon, Nevada, and in Washington Territory not yet proclaimed and offered at public sale, valuable chiefly for timber and stone, unfit for cultivation, and consequently for disposal under the pre-emption and homestead laws. When a party applies to purchase a tract thereunder, the register and receiver will require him to make affidavit that he is a citizen of the United States by birth or naturalization, or that he has declared his intention to become a citizen under the naturalization laws. If native born, parol evidence of that fact will be received. If not native born, record evidence of the prescribed qualification must be furnished. In connection therewith, he will be required to make the sworn statement in duplicate, as provided for in the second section of the act. One of the duplicate statements filed in each is by the act required to be transmitted to the general land office, and the registers and receivers will accordingly send up with their monthly returns the duplicate statements to be transmitted for the month.

The evidence in regard to the publication of notice required to be furnished, in the third section of the act, must consist of the affidavit of the publisher or other person having charge of the newspaper in which the notice is published, with a copy of the notice attached thereto, setting forth the nature of his connection with the paper, and that the notice was duly published for the prescribed period. The evidence required in the same section with regard to the non-mineral character of the land, and its unoccupied and unimproved condition, must consist of the testimony of at least two disinterested witnesses, to the effect that they know the facts to which they testify from personal inspection of the land and of each of its smallest legal subdivisions. This testimony may be taken before the register or receiver, or any officer using an official seal and authorized to administer oaths in the land district in which the land lies. Upon such proof being produced, if no adverse claim shall have been filed, the entry applied for may be allowed in pursuance of the provisions of the act. The receiver will issue his receipt for the purchase money, and the register his certificate of purchase, numbering the entry in the regular cash series. The register and receiver will enter the sale on their books and make the usual returns therefor to the general land office, noting on the monthly abstracts opposite the entry, and on the entry papers, a reference to the act of congress under which allowed. They will forward all the papers in the case to that office, except the retained duplicate statement filed under the second section of the act, to which the register will give the same number with the other papers for the entry, and retain it on the appropriate file with the formal application in his office.

The register and receiver will be entitled to a fee of five dollars each for allowing an entry under said act, and jointly at the rate of twenty-two cents and a half per hundred words for testimony reduced by them to writing for claimants, which will be accounted for as other fees.

If, at the expiration of the sixty day's notice provided for in the third section of the act, an adverse claim should be found to exist calling for an investigation, the register and receiver will allow the parties a hearing according to the rules of practice.

In case of an association of persons making application for such an entry, each of the persons must prove the requisite qualifications,

and their names must appear in and be subscribed to the sworn statement, as in case of an individual person. They must also unite in the original application for entry, which will be made in their joint names as in other cases of joint cash entry. The forms prescribed for cases of applications by individual persons may be adapted for use in applications of this class.

The schooner Anna, arrived from the Sandwich Islands at San Francisco last Monday, brings the intelligence that on February 18th a tidal wave occurred at Kahala, on the main island, which reached higher than ever before known to the oldest inhabitants. Considerable damage was done. No lives were lost. The Hawaiian bark Pomare was torn from her moorings, and proved a total loss. The captain and crew were brought to San Francisco on the Anna.

RECOGNIZING the fact that as a mining state Nevada is about "played out," the present silver state legislature is trying to fix up a reclamation scheme which will lead to irrigation of large tracts of land and make them productive. The idea is a good one. In twenty years Nevada would make more out of her millions of acres of agricultural land than she ever did out of her bonanzas and harrascos.

CALIFORNIA is pardoning Chinese convicts on condition that they return to China.
